SOCIAL CREDIT SCALPING

CREDIT INFLATING

Inflate your offered value

"If I do it, it'll change your life, you know?"

Frame it as exceptional

"I only do it for you" /
"It's a special offer"

Frame it as limited

"There isn't much left,
everyone wants it"

CREDIT ERASING

Deflate their offered value

"It might be helpful... in
some limited cases"

Frame it as expected

"Everyone does it" /
"It's expected"

Frame it as a commodity

"I can get it anywhere"

SOCIAL DEBT SCALPING

DEBT INFLATING

Provide useless "help"

"You didn't need it, but I did it"

Be overly kind

"How can you refuse me
this, when I'm so servile"

Mag of past help

"Remember who saved you"

Inflate the costs of value offered

Higher cost = Higher debt

DEBT ERASING

Act entitled to receive

"You just owe it to me"

Avoid / eliminate the creditors

No creditor = No debt

Never say "thanks"

No concession = No debt

Deflate the costs of value offered

"It was easy for you"

Neurology 7 Edenilson Brandl, The human mind remains one of the greatest mysteries of existence Despite centuries of exploration scientific advancements and philosophical inquiry we still struggle to fully grasp the nature of consciousness intelligence and perception This book is an attempt to bridge the gaps between neuroscience artificial intelligence and emerging technologies that aim to decode the brain s intricate mechanisms By merging disciplines we can unlock new ways of understanding human thought creativity and cognition In this work I explore the parallels between biological and artificial intelligence shedding light on how advances in computing neural networks and neurobiology can expand our comprehension of intelligence itself What does it mean to think How do emotions shape decisions Can machines replicate human thought processes These are some of the fundamental questions I aim to answer while examining the latest breakthroughs in brain research My hope is that this book will serve as both a guide and an invitation to scientists engineers philosophers and curious minds alike to engage in the pursuit of deeper understanding Whether you are here to learn to challenge existing paradigms or to spark new ideas this journey into the mind s potential is one that we take together **How the Brain Got**

Language - Towards a New Road Map Michael A. Arbib, 2020-08-15 How did humans evolve biologically so that our brains and social interactions could support language processes and how did cultural evolution lead to the invention of languages signed as well as spoken This book addresses these questions through comparative neuro primatology comparative study of brain behavior and communication in monkeys apes and humans and an EvoDevoSocio framework for approaching biological and cultural evolution within a shared perspective Each chapter provides an authoritative yet accessible review from a different discipline linguistics evolutionary computational and neuro archeology and neuroarcheology macaque neurophysiology comparative neuroanatomy primate behavior and developmental studies These diverse perspectives are unified by having each chapter close with a section on its implications for creating a new road map for multidisciplinary research These implications include assessment of the pluses and minuses of the Mirror System Hypothesis as an old road map The cumulative road map is then presented in the concluding chapter Originally published as a special issue of Interaction Studies 19 1 2 2018 Military Review ,2019 The Cambridge Handbook of Animal Cognition Allison B.

Kaufman,Josep Call,James C. Kaufman,2021-07-22 This handbook lays out the science behind how animals think remember create calculate and remember It provides concise overviews on major areas of study such as animal communication and language memory and recall social cognition social learning and teaching numerical and quantitative abilities as well as innovation and problem solving The chapters also explore more nuanced topics in greater detail showing how the research was conducted and how it can be used for further study The authors range from academics working in renowned university departments to those from research institutions and practitioners in zoos The volume encompasses a wide variety of species ensuring the breadth of the field is explored Senior Leadership Roundtable on Military and Defence Aspects of Border Security in South East Europe Itamara V. Lochard,2019-02-15 The region of South East Europe SEE which is home to both NATO and Partnership for Peace PfP countries serves as an important corridor between Europe and the Middle East North Africa and the Caucasus In recent years however SEE has also experienced high levels of cross border military and defense related challenges in the form of migration smuggling terrorism and cyber threats Furthermore the use of the new information environment IE to further extremism in SEE and elsewhere in NATO and PfP countries has had far reaching command and control C2 implications for the Alliance A collaborative interdisciplinary international and regional approach is clearly needed to adequately assess and address these hybrid threats This book presents papers delivered at the NATO Science for Peace and Security SPS event Senior Leadership Roundtable on Military and Defense Aspects of Border Security in South East Europe held in Berovo the Former Yugoslav Republic of Macedonia from 23 30 September 2017 The aim of this special SPS grant was to maximize opportunities for extensive dialogue and collaboration between senior regional members and the almost 70 distinguished academic and legal experts as well as current or former senior level practitioners from various governments NATO bodies and international organization that participated It was the first SPS event of its kind in SEE as well as the first NATO SPS grant to be co executed by the U S Department of Defense via the U S National Defense University Other co organizers were the C4I and Cyber Center of Excellence at George Mason University and PfP partner institution the General Mihailo Apostolski Military Academy Skopje Associate Member of the University of Goce Delcev Stip The book is divided into five parts global trends defining the problem policy and academic solutions national and regional case studies and technological solutions It will prove an invaluable source of reference for all those with an interest in the SEE region as well as cross border hybrid threats in general Turkey recognizes the Republic of Macedonia with its constitutional name *The Psychology of the Armenian Genocide* George Green,2025-02-25 This book examines the radicalization of beliefs tactics and oppression by a dominant governing group when faced with a subordinate group s historic quest for basic human rights dating back for five centuries A unique approach an analysis of archival documents including minutes of Turkish meetings provides a window into the inner workings and decision making of the leaders Their persuasive propaganda campaign is demystified by applying contemporary social psychological research to identify and

explain their use of psychological mechanisms to weaponize intergroup prejudice and exclusionary ideology Social antagonistic traits of the leader s ideology dark personality traits and propensity for moral disengagement are readily apparent in their highly effective propaganda campaign to gain the necessary support from their party and Turkish civilians for their genocidal agenda The Psychology of the Armenian Genocide will appeal to scholars and students alike interested in better understanding how a nation of people can be manipulated to support the annihilation of subordinate groups It will also appeal to a much wider range of people who would be interested in better understanding the manipulation of beliefs and morality to create intergroup divisions and intolerance for cooperation

"SHADOWS OF PERSONALITY: UNVEILING THE SECRETS OF MANIPULATORS, ABUSERS, AND NARCISSISTS" Inga Troegubova, Particular attention will be

given to narcissistic trauma and the damage caused by interactions with manipulators as well as their consequences and methods of recovery We will also explore how manipulation manifests in interpersonal relationships the workplace and business settings offering strategies for recognizing and preventing manipulative behaviors *The Cultural Roots of Strategic Intelligence* Gino LaPaglia, 2019-11-20 Strategic Intelligence is a form of meaning that promises the possibility of strategic advantage dignity the achievement of objective and the fulfillment of potential in hostile environments In *The Cultural Roots of Strategic Intelligence* Gino LaPaglia demonstrates that the strategic aspect of reason arising in human experience encoded as value and born by culture as a strategic resource has been encoded as values that have been memorialized in culturally authoritative sources in various Eurasian cultures for thousands of years These sources have validated a strategic orientation in the world legitimized the strategist as a heroic identity and transmitted a coherent world view that enables the practitioner of strategy to overcome asymmetric threat By excavating the provenance of strategic thought expressed in the cultural identity of the strategist in the most culturally authoritative mythological literary philosophical and religious sources and excavating the underlying strategic values expressed in cultural products LaPaglia demonstrates that the strategic aspect of human rationality is one of the most basic structural dynamics of human meaning and that the transmission of this strategic way of being and acting in the world offers hope for life s underdogs

Pervasive Design Håkan Gulliksson, Services and products are increasingly composed of interconnected computerized things with embedded sensors and interaction capabilities This trend is evident also in everyday objects and tools and is rapidly changing the way we live our lives Design work and designers have to keep up with this development and adapt both thinking and tools The problem is no longer just to design a physical object or interact with a single computational device and design is not even limited to the service embedding the device Design needs to include all of the above while importantly also taking the particular context of use into account This book presents a framework and a number of tools from a systems perspective that will help the designer take the step from designing a thing or a web site to designing a context aware pervasive service As a first basis for this three complementary interactors Human Information and Thing along with the interactions they enable are

introduced This basis is used to infuse a way of thinking on pervasive services that is reapplied also to groups and joint ventures Services are thoroughly introduced in the book along with their support ranging from networked infrastructure for communication to cognitive by artificial intelligence The design process is introduced by a discussion on the goals for design Usability value based design and meaningful user experiences are surveyed as guides for better designs Beginning with the resultant understanding the design process is staged using the levels of service design requirement analysis concept information interaction and appearance design Relevant tools and an outline of the possible design space of mobile and pervasive applications are given for each level and the design work is framed by an overall story based approach In total the book consists of 658 pages 112 figures and 218 illustrations Both text and ideas have improved from the third edition One year Weiser H kan Gulliksson is a lecturer on Interaction technology and Mobile design at Ume University Sweden He has been the coordinator for the Master of Science program in Interaction and Design for more than ten years

Causes and Symptoms of Socio-Cultural Polarization Israr Qureshi, Babita Bhatt, Samrat Gupta, Amit Anand Tiwari, 2022-03-22 This book explores cultural polarization resultant decline in social cohesion in society and how information and communication technologies exacerbate the cultural polarization through phenomenon such as echo chambers of information that damage the quality of online discourse This book examines the nature of the information that is shared Further this book identifies how the quality of online discourse and polarization induced through it leads to offline harm and negative outcomes in our society This book discusses how wide ranging information exchange on digital media can lead to two scenarios namely the formation of the public sphere or the formation of echo chambers While the public sphere which promotes greater diversity is a well researched domain substantially less research has been conducted on echo chambers in relation to sociocultural activities products or services This book states that polarization induced by the formation and evolution of echo chambers in sociocultural realm such as around epidemic outbreaks vaccination healthcare education and climate change is an emerging avenue of research due to its enormous impact in the shaping of our society Therefore this book argues that understanding the characteristics of sociocultural products related controversies is critical and valuable in developing interventions to reduce unhealthy societal and organizational polarisations The development of systematic knowledge is required to understand and address such a large scale and complex societal challenge so as to facilitate a deeper understanding and offer solutions to the growing issue of polarization in sociocultural context driven primarily through echo chambers This book examines how technology enabled social media usage increases and the complex structural outcomes such as echo chambers are likely to have an increasingly important role in shaping public opinion This book appeals to readers with interest in developing a deeper and broader understanding of issues and initiatives related to the polarization of opinions on cultural products These include readers and scholars from various disciplines along with engaged organizational leaders activists policy makers and common citizens

Evolving Insight Richard W. Byrne, 2016-03-03 Insight is not a very popular word in

psychology or biology Popular terms like intelligence planning complexity or cognitive have a habit of sprawling out to include everyone's favourite interpretation and end up with such vague meanings that each new writer has to redefine them for use Insight remains in everyday usage as a down to earth lay term for a deep shrewd or discerning kind of understanding Insight is a good thing to have so it's important to find out how it evolved and that's what this book is about Coming 20 years after publication of Richard Byrne's seminal book *The Thinking Ape* *Evolving Insight* develops a new theory of the evolutionary origins of human abilities to understand the world of objects and other people Defining mental representation and computation as insight it reviews the evidence for insight in the cognition of animals The book proposes that the understanding of causality and intentionality evolved twice in human ancestry the pretty good understanding given by behaviour parsing shared with other apes and related to cerebellar expansion and the deeper understanding which requires language to model and is unique to humans However Ape type insight may underlie non verbal tests of intentionality and causal understanding and much everyday human action Accessible to those with little background in the topic *Evolving Insight* is an important new work for anyone with an interest in psychology and the biological sciences
