Pinner,2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1959 **The Publishers Weekly** ,1946 Literature and Politics in the Age of Nationalism Talat Ahmed,2020-11-29 This book aims to provide a historical account of the All India Progressive Writers Association AIPWA In a structured narrative it focuses on the political processes inside India events and circumstances in South Asia and the debates and literary movements in Europe and the United States to demonstrate how the literary project was specifically informed by literary political movements It explores the theorisation of literature and politics that informed progressive writing and argues that the progressive conception of literature art and politics was closer to the theorisation of two thinkers of whom the writers themselves knew very little Leon Trotsky and Antonio Gramsci The

book charts the progressive movement's extension into the cultural arena through the Indian People's Theatre Association IPTA and the deepening of its nation-wide character through a progressive nationalism instilled with left-wing ideology. One of the important aims of the AIPWA project was to advance the development of a popular vernacular based on the demotic language of north India Hindustani. The book locates this issue within the broader nationalist discussion on the national language. Contrary to what is implied by much of the previous scholarship, the book argues that the progressive movement did survive the ravages of partition and that the progressives maintained organisations in both India and Pakistan. It looks at the short-lived but very colourful history of the PWA in Pakistan using PWA documents, government records and personal testimonies. Arguing that literary output and cultural production cannot be understood let alone interpreted outside the context of the nationalist movement, war, independence and partition, the book presents a narrative that necessarily transcends disciplinary boundaries between literature, politics and history. Supplemented with literary and archival sources and oral testimonies from the members of the movement, it presents a comprehensive history of the PWA in Pakistan.

Managing Democracy in the Digital Age Julia Schwanholz, Todd Graham, Peter-Tobias Stoll, 2017-09-13 In light of the increased utilization of information technologies such as social media and the Internet of Things, this book investigates how this digital transformation process creates new challenges and opportunities for political participation, political election campaigns and political regulation of the Internet. Within the context of Western democracies and China, the contributors analyze these challenges and opportunities from three perspectives: the regulatory state, the political use of social media and through the lens of the public sphere. The first part of the book discusses key challenges for Internet regulation such as data protection and censorship, while the second addresses the use of social media in political communication and political elections. In turn, the third and last part highlights various opportunities offered by digital media for online civic engagement and protest in the public sphere. Drawing on different academic fields including political science, communication science and journalism studies, the contributors raise a number of innovative research questions and provide fascinating theoretical and empirical insights into the topic of digital transformation.

Political Theory Eddy Asirvatham | KK Misra, 1995 This text is a classic in Indian political literature as the original author belongs to the Idealist school of great political thinkers such as T. H. Green and Bosanquet. It is a comprehensive treatise on the basic structure of established political theories, be it Bosanquet's idealistic theory of the State to liberal and anti-idealist views as expressed by L. T. Hobhouse to the Marxian theory of the State. The textbook follows an ideological approach where it rejects the attitude of those behaviouralists who place undue emphasis on methods, techniques and skills rather than on first principles and value judgements. It is developed for the undergraduate students of Political Science Pass and honours courses. Aspirants of various competitive examinations such as Civil Services Examination and state public service commission examinations will also find the book extremely useful.
