Developing Research Questions Patrick White, 2017-09-06 This no fuss compact guide steers social science students of all levels through the complex process of conducting a research project It explains how to break down initial ideas and broad topics into manageable questions and gives detailed guidance on how to refine these as the project progresses With a wide range of international examples and reflective exercises it is packed with handy tips and examples that show how to avoid common mistakes and pitfalls and ensure that hypotheses and questions are linked with research design methods and answers at every step Taking readers from the start through to the final stage of answering their questions and drawing conclusions this is an indispensable resource for research methods courses In addition it is highly recommended for all students undertaking an independent research project or thesis at undergraduate postgraduate or PhD level and beyond New to this Edition Includes a wider range of international examples to appeal to a global audience More visual devices are used to summarise and illustrate the processes involved in developing research questions Reflective exercises help students apply their knowledge and consider the issues Increased coverage of the role of the literature review in generating and refining research questions

Research Skills for Management Studies Alan Berkeley Thomas, 2004-08-02 The recent growth of interest in the systematic study of management has transformed a once neglected area of research into one that now attracts a huge number of postgraduate students Despite this there has been a distinct lack of research guides tailored specifically for management studies Designed as a comprehensive introduction to the main phases of a research project this textbook fills that void It leads students from the very first stage of initiation through to final publication considering the nature of research skills and the fundamental elements of the research process whilst exploring the institutional context in which management research is carried out Taking current debates and the surrounding philosophical and strategic issues in hand this book combines the key theories with the best practical advice to offer a completely rounded introduction to the topic It includes guidance and specific reference to real management research projects as well as case examples activities and further reading lists and is essential reading for anyone undertaking a management studies research project

The Quality of Qualitative Research Clive Seale, 1999-09-13 This text advises researchers and students how to go beyond traditional measures of reliability and validity to achieve quality research

Methodological Practices in Social Movement Research Donatella della Porta, 2014-09-25 Social movement studies have grown enormously in the last few decades spreading from sociology and political science to other fields of knowledge as varied as geography history anthropology psychology economics law and others With the growing interest in the field there has been also an increasing need for methodological guidance for empirical research This volume addresses this need by introducing the main methods of data collection and data analysis as they have been used in past research on social movements Unlike other volumes the book offers a practical how to approach and not simply a review of the methodological literature Each author writes on a method they are very familiar with having used it extensively in their own work And each chapter presents specific discussions on every stage of research from research design to data collection and the use of the information gathered Throughout research dilemmas and choices are presented illustrated and discussed The volume offers an essential point of references for anyone undertaking research on social movements

Researching Violently Divided Societies Marie Smyth, Gillian Robinson, 2001-11-20 All societies are to a certain extent divided by conflicts over race ethnicity religion and class However in societies such as Britain and the United States these tensions are contained and managed by social economic and political mechanisms This book produced as a result of an international collaboration between researchers in Eastern Europe Africa the Middle East Northern Ireland and elsewhere aims to Provide a guide to the issues faced by researchers working in violently divided contexts Document the insights and practice wisdom of practising researchers operating in such contexts Afford access to the lived experience of those researchers and the ethical and methodological challenges which face them Present accounts and analysis which illustrate a wide range of diverse experiences and perspectives on the experience of doing research in violently divided societies Explore the involvement of the researchers with the research material and the impact of doing the research on them A range of ethical and methodological issues are covered and the specific demands of conducting research in war torn and divided societies has stimulated the contributors to analyse and critique issues such as the contribution of research to society the benefit of research to respondents and issues of objectivity issues of concern to all researchers However in the often stark circumstances in which the contributors work these issues take on an urgency and clarity that can potentially illuminate research practice generally The book deals with the methodological and ethical issues arising when researching conflicts in violently divided societies where there is no consensus about policing law and order the impartiality of the state or indeed about the legitimacy of the state itself With contributions from researchers who have worked in a range of very different divided societies around the world it examines the conditions under which such inquiry is conducted and looks at the obstacles that researchers face Researching Violently Divided Societies looks in detail at different case studies to offer a sound understanding of the most effective methodological approaches for improving responses to division and violence Chapters cover the role and function of research in divided societies in Africa the efficacy of research in Northern Ireland

dilemmas of identification and ethnography research by insiders and outsiders research for empowerment in Cambodia the role of research in managing conflicts in Nigeria researching ethnic conflict in Post Soviet central Asia a first time researcher's experience in Bosnia the ethics of psychiatric research in war zones and a final comparison of policy

Bibliographie Internationale de Sociologie 1980 ,1982 Each Bibliography lists and annotates the most important works published during the year They are arranged by topic and indexed by author subject and geographic location

Social Research Tim May,2001-09 May examines the research process in general and aspects of its practice in particular in order to bridge the gap between theory and methods This expanded edition incorporates the latest developments in social research

Code of Federal Regulations ,1950 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries
