Scholars, Policymakers, and International Affairs Abraham F. Lowenthal, Mariano E. Bertucci, 2014-11-24 Scholars Policymakers and International Affairs shows how to build mutually beneficial connections between the worlds of ideas and action analysis and policy Drawing on contributions from top international scholars with policy experience as well as senior policymakers Abraham F Lowenthal and Mariano E Bertucci make the case that scholars can both strengthen their research and contribute to improved policies while protecting academia from the risks of active participation in the policy process Many scholars believe that policymakers are more interested in processes and outcomes than in understanding causality Many policymakers believe that scholars are absorbed in abstract and self referential debates and that they are primarily focused on crafting theories rather than developing solutions to pressing policy issues The book s contributors discuss how these obstacles can be overcome Case studies illustrate how scholars have helped reduce income inequality promote democratic governance and enhance inter American cooperation These success stories are balanced by studies on why academic analysts have had little positive impact on counternarcotics and citizen security policies The conclusion identifies best practices and provides concrete recommendations Book jacket Evidence-Based Policymaking Karen Bogenschneider, Thomas Corbett, 2011-01-11 This book is for those who believe that good government should be based on hard evidence and that research and policy ought to go hand in hand Unfortunately no such bond exists Rather there is a substantial gap some say chasm between the production of knowledge and its utilization Despite much contrary evidence the authors propose there is a way of doing public policy in a more reflective manner and that a hunger for evidence and objectivity does exist The book is pragmatic drawing on advice from some of the best and brightest informants from both the research and policy communities In their own voices researchers provide incisive analysis about how to bridge the research policy divide and policymakers provide insights about why they use research what kind is most useful where they seek it and how they screen its quality The book breaks through stereotypes about what policymakers are like and provides an insiders view of how the policy process really works Readers will learn what knowledge skills approaches and attitudes are needed to take research findings from the laboratory to lawmaking bodies and how to evaluate one s success in doing so The book s

balance between theory and practice will appeal to students in graduate and upper level undergraduate courses in family studies and family policy educational policy law political science public administration public health social work and sociology This book will also be of interest to researchers who want to bring their ideas into policy debate and to those who work with policymakers to advance an evidence based policy agenda Handbook on Communicating and Disseminating Behavioral Science Melissa K. Welch-Ross, Lauren G. Fasig, 2007-10-03 The Handbook on Communicating and Disseminating Behavioral Science assembles for the first time in a single volume research scholarship and practices from across relevant disciplines and professions to give a coherent picture for both students in the classroom and scholars Designed as both a text and a handbook it provides insights into the main actors contemporary themes and approaches key challenges and the broader conditions that influence whether and how the work occurs Contributors include behavioral scientists journalism and communication scholars mass media reporters editors and producers from print television and radio representatives of think tanks and advocacy organizations and professional communicators from a university a scientific society and a national social issue campaign All bring an accomplished record of sharing behavioral science to inform policy mass media service professions and the public Though scholarly the book brings together leading authorities who are both doers and thinkers to offer insights into how the work is done and to illuminate the underlying conceptual and empirical issues The book also advances the dissemination and communication of behavioral research as an area of scientific inquiry in its own right one that holds vast opportunities for the field of behavioral science Contributors offer recommendations for programs of research that should be at the top of the research agenda As a book of core readings written to be accessible to both professionals and students the book is poised to be a staple of any serious attempt to introduce behavioral scientists to key issues in communicating and disseminating behavioral science and to advance their capacity to understand and conduct the work It is also an unrivaled resource for student and professional science communicators seeking to learn more about the challenges of communicating behavioral research **Handbook of Public Policy Analysis** Frank Fischer, Gerald J. Miller, 2017-09-25

Power, Knowledge, and Politics John A. Hird, 2005-03-29 If knowledge is power then John Hird has opened the doors for anyone interested in public policymaking and policy analysis on the state level A beginning question might be does politics put gasoline or sugar in the tank More specifically in a highly partisan political environment is nonpartisan expertise useful to policymaking Do policy analysts play a meaningful role in decision making Does policy expertise promote democratic decision making Does it vest power in an unelected and unaccountable elite or does it become co-opted by political actors and circumstances Is it used to make substantive changes or just for window dressing In a unique comparative focus on state policy *Power Knowledge and Politics* dissects the nature of the policy institutions that policymakers establish and analyzes the connection between policy research and how it is actually used in decision making Hird probes the effects of politics and political institutions parties state political culture and dynamics legislative and gubernatorial staffing partisan think tanks interest groups on the nature and conduct of nonpartisan policy analysis Through a comparative examination of institutions and testing theories of the use of policy analysis Hird draws conclusions that are more useful than those derived from single cases Hird examines nonpartisan policy research organizations established by and operating in U S state legislatures one of the most intense of political environments to determine whether and how nonpartisan policy research can survive in that harsh climate By first detailing how nonpartisan policy analysis organizations came to be and what they do and then determining what state legislators want from them he presents a rigorous statistical analysis of those agencies in all 50 states and from a survey of 800 state legislators This thoroughly comprehensive look at policymaking at the state level concludes that nonpartisan policy analysis institutions can play an important role as long as they remain scrupulously nonpartisan

Decision-Making in American Foreign Policy Nikolas K. Gvosdev, Jessica D. Blankshain, David A. Cooper, 2019-01-24 This foreign policy analysis textbook is written especially for students studying to become national security professionals It translates academic knowledge about the complex influences on American foreign policymaking into

an intuitive cohesive and practical set of analytic tools The focus here is not theory for the sake of theory but rather to translate theory into practice Classic paradigms are adapted to fit the changing realities of the contemporary national security environment For example the growing centrality of the White House is seen in the palace politics of the president's inner circle and the growth of the national security apparatus introduces new dimensions to organizational processes and subordinate levels of bureaucratic politics Real world case studies are used throughout to allow students to apply theory These comprise recent events that draw impartially across partisan lines and encompass a variety of diplomatic military and economic and trade issues

International Encyclopedia of the Social & Behavioral Sciences Neil J. Smelser, Paul B. Baltes, 2001 The largest work ever published in the social and behavioural sciences It contains 4000 signed articles 15 million words of text 90 000 bibliographic references and 150 biographical entries

Leaders in the Historical Study of American Education Wayne J. Urban, 2012-01-01 This volume consists of twenty six autobiographical essays by leading historians of American education which document the enormous variety of paths taken to get into this field A companion to earlier volumes on philosophy of education and curriculum studies the historians in this volume reflect a wide variety of interests that underlay accomplishment in this scholarly field They come from diverse backgrounds that have animated their scholarly careers in compelling ways Readers in any variety of educational or historical study should learn from this volume how unplanned careers can still result in highly successful sets of accomplishments That realization is a tribute both to the individual contributors and to the great attractiveness of educational history to committed scholars of various backgrounds and orientations

The Experimenting Society William N. Dunn, 2024-11-01 An experimenting society is one in which policy relevant knowledge is created It is then critically assessed and communicated in real life or natural settings with the aim of discovering new forms of public action to improve the problem solving capacities of society This latest volume of the distinguished Policy Studies Review Annual series probes evaluates and augments the work of Donald T Campbell on an experimental societies A basic assumption of this volume is that Campbell's perspective supplies a useful way to address increasingly complex and seemingly unmanageable problems facing the United States and other postindustrial societies This volume is also the fourteenth festschrift to be issued by

Transaction The focus is on theoretical as well as practical options for creating an experimenting society The rationale for this focus is the belief increasingly shared in the social science and policy making communities alike that researchers are essentially ignorant about how to solve many of the most pressing larger problems of this epoch This frank recognition of ignorance is a prerequisite of genuine scientific and professional curiosity without which knowledge gains are next to impossible to achieve and a precondition of an experimenting society Contributors to this original volume include Steve Fuller Duncan MacRae Jr Anthony S Bryk Robert A Beauregard Rita Mae Kelly Peter Gregware Burkart Holzner B Guy Peters C West Churchman and Ian I Mitroff Their multidisciplinary competencies are at once philosophical methodological and substantive They address such questions as What new or bold policies are available in domains such as education science and urban development In what ways can theoretical knowledge and practical action be fused so as to illuminate or alleviate policy problems What should be done Included are excerpts from Campbell s foundational paper The Experimenting Society as well as a recent article entitled Methods for the Experimenting Society which circulated in unpublished form for many years An unusual feature of the book is Campbell s responses to those who have addressed his work with candor and intelligence It will be of interest to policy studies scholars sociologists and social scientists

The World's Search for Sustainable Development Mukul Sanwal, 2015-11-05 This text traces the evolution of sustainable development and climate change from the time it emerged in international consultations and agreements The three sections of the book focusing on the framework climate change and sustainable development seek to cover the essentials of the politics of natural resource usage at the global level The book explores the evolution of sustainable development and climate change within the framework of the United Nations and the way the concept has been defined through intergovernmental meetings agreements and consensus within the multilateral system It also explores the best ways of reducing the risk to the planet while enabling societies to pursue sustainable development paths The challenges call for a transformation of social systems to facilitate a broadly acceptable change The book also explores the adoption of low carbon models different from the high carbon socio technical systems and related social practices
