Hoffmann, Robbin Frederick Laird, Soviet Law and Soviet Society George C. Guins, 2012-12-06 Soviet power rests on two main supports the complete economic dependence of the citizens upon the state and the unlimited political control of the government over the economic social and even cultural life History knows various kinds of despotisms dictatorships and regimentations of economic activity but the U S S R represents a unique kind of dictatorship based on the one party system and integral planning with the specific goal of realization of communism Mankind had never before known such a system Even the best of possible comparisons the analogy with the period of Ptolemies in Egypt is good only in so far as it concerns the regimentation of all kind of economic activity There was in the past no ideology pretending to be adjusted to the needs of the toiling masses no planning system on the same scale and no Communist party apparatus As concerns the modern world the comparative method is necessary for giving the most graphical characterization of the differences between the Western democracies with their ethical traditions rule of law and the principle of the inviolability of individual rights and on the other hand the Soviet monolithic state with its unscrupulous policy extremities of regimentations and drastic penalties

Education Tom G. Griffiths, Zsuzsa Millei, 2012-09-14 For some socialism is a potent way of achieving economic political and social transformations in the twenty first century while others find the very term socialism outdated This book engages readers in a discussion about the viability of socialist views on education and identifies the capacity of some socialist ideas to address a range of widely recognized social ills It argues that these pervasive social problems which plague so called developed societies as much as they contribute to the poverty humiliation and lack of prospects in the rest of the world fundamentally challenge us to act In our contemporary world system distancing ourselves from the injustices of others is neither viable nor defensible Rather than waiting for radically new solutions to emerge this book sees the possibility of transformation in the reconfiguration of existing social logics that comprise our modern societies including logics of socialism The book presents case studies that offer a critical examination of education in contemporary socialist contexts as well as reconsidering examples of education under historical socialism In charting these alternatives and retooling past solutions in a nuanced way it sets out compelling evidence that it is possible to think and act in ways that depart from today's dominant educational paradigm It offers contemporary policy makers researchers and practitioners a cogent demonstration of the contemporary utility of educational ideas and solutions associated with socialism A pioneering collection of essays which is central to understanding the historical and contemporary meanings of socialism in the context of neoliberal globalization It is a most timely contribution to a growing intellectual project that challenges the hegemony of capitalism while rethinking and theorizing alternatives Iveta Silova Associate Professor of Comparative Education Lehigh University Bethlehem PA USA In this significant contribution to recent scholarship the authors use the lens of socialist education to offer an original critique of hegemonic capitalism and present an intellectually rigorous search for alternatives by reconsidering historical socialism and advancing promising educational experiments that challenge the global architecture of education Anders Breidlid Professor of International Education and Development Oslo University College Norway **Sociology For Social Workers** Suresh Murugan, 2013-12-01 ABOUT PROJECT MSW CONVERSION OF SOCIAL WORK STUDY MATERIALS IN PAPER INTO SOFT COPIES ELIMINATING THE DIFFICULTIES IN GETTING STUDY MATERIALS
