Morrow, Lori Messinger, 2006-04-02 Al Jazeera and other satellite television stations have transformed Arab politics over the last decade By shattering state control over information and giving a platform to long stifled voices these new Arab media have challenged the status quo by encouraging open debate about Iraq Palestine Islamism Arab identity and other vital political and social issues These public arguments have redefined what it means to be Arab and reshaped the realm of political possibility As Marc Lynch shows the days of monolithic Arab opinion are over How Arab governments and the United States engage this newly confident and influential public sphere will profoundly shape the future of the Arab world Marc Lynch draws on interviews conducted in the Middle East and analyses of Arab satellite television programs op ed pages and public opinion polls to examine the nature evolution and influence of the new Arab public sphere Lynch who pays close attention to what is actually being said and talked about in the Arab world takes the contentious issue of Iraq which has divided Arabs like no other issue to show how the media revolutionized the formation and expression of public opinion He presents detailed discussions of Arab arguments about sanctions and the 2003 British and American invasion and occupation of Iraq While Arabs strongly disagreed about Saddam's regime they increasingly saw the effects of sanctions as a potent symbol of the suffering of all Arabs Anger and despair over

these sanctions shaped Arab views of America their governments and themselves Lynch also suggests how the United States can develop and improve its engagement with the Arab public sphere He argues that the United States should move beyond treating the Arab public sphere as either an enemy to be defeated or an object to be manipulated via public relations Instead of wasting vast sums of money on a satellite television station nobody watches the United States should enter the public sphere as it really exists

Same Sex, Different Politics Gary Mucciaroni, 2009-05-15 Why is it so much harder for American same sex couples to get married than it is for them to adopt children And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal Illuminating the

conditions that engender these contradictory policies Same Sex Different Politics explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another The first book to compare results across a wide range of gay rights struggles this volume explores debates over laws governing military service homosexual conduct adoption marriage and partner recognition hate crimes and civil rights It reveals that in each area the gay rights movement's achievements depend both on Americans' perceptions of its demands and on the political venue in which the conflict plays out Adoption policy for example generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition Brilliantly synthesizing all the factors that contribute to each kind of outcome Same Sex Different Politics establishes a new framework for understanding the trajectory of a movement
