Goals of this Research Topic: 1 to identify and share the best recent practices and innovations related to social, environmental, and health policies; 2 to debate on relevant governance modes, management tools, as well as evaluation and impact assessment techniques; 3 to discuss dilemmas in the fields of management, financing, designing, implementing, testing, and maintaining the sustainability of innovative models of delivering social health and care services; and 4 to recognize and analyze social, technological, and health innovation that has emerged or has been scaled up to respond to crisis situations, for example, a pandemic of the COVID-19 coronavirus disease. *The Elderly in Social Policy* Zbigniew Wozniak, 2013 The book puts forward an original proposal of a tri-dimensional structure for gerontology programs embedded in the aims and challenges of public policy towards old age and the elderly.
