**Social Stylistics** Andreas H. Jucker, 2012-01-02 The future of English linguistics as envisaged by the editors of Topics in English Linguistics lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other The TiEL series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics *Syntactic Variation and Genre* Heidrun Dorgeloh, Anja Wanner, 2010 Review text Without a doubt the volume in its entirety is inspiring The articles are all written in an accessible style so that the publication is suitable not only for experts but also for students of linguistics It is recommendable to all who want to broaden their horizons and embark on linguistic studies at the borders of traditional sub disciplines Sixta Quassdorf in Linguist List 22 3028 **Syntactic Change in Late Modern English** Erik Smitherberg, 2021-11-25 This book provides a fresh perspective on language change in Late Modern English and is illustrated with corpus linguistic case studies

**English Media Texts □ Past and Present** Friedrich Ungerer, 2000-12-04 This book is among the first to combine a historical view of media texts with a critical look at their textual diversity today The thirteen chapters cover corpora of early news papers and pamphlets present day news stories and commentaries TV talk shows and commercials as well as internet presentations The studies focus on the wide range of text types in 18th century newspapers and the interpersonal strategies of pamphlets they pursue the development of the persuasive potential of headlines and advertisements right down to the sophisticated postmodernist and multilingual examples of today Other topics are the definition and structure of news stories and commentaries the interpersonal and multi modal aspects of talkshows and more radically the questioning of the journalist s role in the age of the internet Generally the stress is on the attention getting side of media texts rather than on the manipulative qualities investigated by critical discourse analysis *A New Bibliography of Writings on Varieties of English, 1984□1992/93* Beat Glauser, Edgar W. Schneider, Manfred Görlach, 1993-12-02 The continuing expansion of research in dialectology sociolinguistics and English as a world language has made the field increasingly difficult to survey This bibliography is intended to provide a comprehensive overview of the relevant publications of the past few years Like its predecessor it will prove an indispensable reference book The collection is in four parts dealing respectively with general studies Britain and Ireland the United States and Canada and the rest of the world There is a joint index in which the 2800 entries are classified according to specific areas ethnic groups and major linguistic categories thus making the bibliography easy to use with the greatest profit The present bibliography complements the one compiled by W Viereck E W Schneider and M G rlach which covered the period from 1965 to 1983 and was published in the same series in 1984 **Variation and Change in Spoken and Written Discourse** Julia Bamford, Silvia Cavalieri, Giuliana Diani, 2013-10-31 This book focuses on aspects of variation and change in language use in spoken and written discourse on the basis of corpus analyses providing

new descriptive insights and new methods of utilising small specialized corpora for the description of language variation and change The sixteen contributions included in this volume represent a variety of diverse views and approaches but all share the common goal of throwing light on a crucial dimension of discourse the dialogic interactivity between the spoken and written Their foci range from papers addressing general issues related to corpus analysis of spoken dialogue to papers focusing on specific cases employing a variety of analytical tools including qualitative and quantitative analysis of small and large corpora The present volume constitutes a highly valuable tool for applied linguists and discourse analysts as well as for students instructors and language teachers

*The Shaping of the News* Flavia Cavaliere, 2012 *Agency in the British Press* Maria Cristina Nisco, 2016-01-14 This book examines the ways in which the 2011 UK riots were reported by the British press by analysing the linguistic construal of the main participants involved in the protests and their agency Starting from the assumption that newspapers do not just mirror reality but rather construct it in discourse through a series of linguistic stylistic and editorial choices great attention is paid to how the events were portrayed according to different political social and cultural stances Since the linguistic labels employed by the newspapers to identify and connote the protagonists of the riots are indicative of their ideological positions such critical attention to the specialised language of the press proves to be extremely noteworthy Indeed the urban unrest that periodically occurs in the UK as much as within the wider European context signals governments failure to deal with persisting social and economic problems In this regard investigating the extent to which the media manage or fail to account for the issues that are at the heart of such violent protests while shaping public opinions represents an interesting and rewarding endeavour A corpus of about 1 700 articles collected from the six British newspapers with the highest circulation rates in August 2011 Daily Mail Daily Mirror The Sun

The Guardian The Telegraph and The Times is therefore analysed with a corpus based discourse analysis approach combining qualitative and quantitative techniques The linguistic depictions of the main social actors Mark Duggan the rioters and the police reveal the ideological burden affecting power relations between lite or minority groups within society

Leech,2009-10-22 Based on the systematic analysis of large amounts of computer readable text this book shows how the English language has been changing in the recent past and discusses the linguistic and social factors that are contributing to this process *Constructing Crime* C. Gregoriou,2012-02-29 Crime and criminals are a pervasive theme in all areas of our culture including media journalism film and literature This book explores how crime is constructed and culturally represented through a range of areas including Spanish English Language and Literature Music Criminology Gender Law Cultural and Criminal Justice Studies Framing China Ariane Knüsel,2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century In this ground breaking book Ariane Kn sel examines how China was portrayed in political debates and the media in Britain the USA and Switzerland between 1900 and 1950 By focusing on the political economic cultural and social context that led to the construction of the particular images of China in each country the author demonstrates that national interests anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country The author s meticulous analysis of a vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images

were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre existing stereotypes pressure groups and geopolitical aspirations **The Routledge Handbook of Corpus Linguistics** Anne O'Keeffe, Michael

McCarthy, 2010-04-05 Provides an overview of a dynamic and rapidly growing area with a widely applied methodology This handbook covers the historical development of the field and its growing influence and application in other areas It is suitable for advanced undergraduates and postgraduates **Pragmatics of Tense and Time in News** Jan Chovanec, 2014-11-15

This book provides the first comprehensive account of temporal deixis in English printed and online news texts Linking the characteristic usage of tenses with the projection of deictic centres it notes how conventional tenses particularly in headlines are affected by heteroglossia arising from various accessed voices The resulting tense shifts are interpreted pragmatically as a conventional reader oriented strategy that creates the impression of temporal co presence It is argued that since different tense choices systematically correlate with the three main textual segments of news texts the function of tense needs to be viewed in a close connection with its local context Traditional news texts are also contrasted with online news particularly as far as the effect of hypertextuality on the coding of time is concerned A two level structural framework for the analysis of online news is proposed in order to account for their increased textual complexity The book will be of interest to a wide range of scholars and students working in the fields of media pragmatics discourse analysis and stylistics
