Theory & Practice in Clinical Social Work Jerrold R. Brandell, 2010-02-16 Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them. *Theory and Practice in Clinical Social Work* is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods, models, and techniques for responding to the needs of an increasingly diverse clientele. Following an overview of the principal frameworks for clinical practice including systems theory, behavioral and cognitive theories, psychoanalytic theory, and neurobiological theory, the book goes on to present the major social crises, problems, and new populations the social work clinician confronts each day. *Theory and Practice in Clinical Social Work* includes 29 original chapters, many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations. Collectively, these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities. Included in this volume are chapters on practice with adults and children, clinical social work with adolescents, family therapy, and children's treatment groups. Other chapters focus on social work with communities affected by disasters and terrorism, clinical case management, cross cultural clinical practice, psychopharmacology, practice with older adults, and mourning and loss. The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike.

Introduction to Social Work The Open University, 2005-01-01 Produced principally for unit HSW101 Introduction to social work offered by the Faculty of Health and Behavioural Sciences School of Health and Social Development in Deakin University's undergraduate Open Campus Program

Social Work, Mental Health, and Public Policy in Diverse Contexts Sheying Chen, 2023-08-29 The discipline of social policy oftentimes deemed a part of social work as a profession was born in the West Unlike social policy that started with the post war idea of a welfare state in the mid 20th century social work traces its roots to individual casework pioneered by the Charity Organization Society COS early social administration including state wide poverty relief

an advocacy effort of the COS but with deep roots in the English Poor Laws of the 17th century and social action emphasizing political activities to improve social conditions originating from the Settlement House Movement which began in the 1880s. The development of social work is historically intertwined with that of public welfare, philanthropy and charity and is an inherently international subject. This conception is broader than international social work as a discrete field of professional practice which crosses geopolitical borders and all levels of social and economic organizations with a focus on development. However, each nation has a story of its own in terms of professionalization of social work in the evolution of public welfare and philanthropic charitable undertaking within its particular economic, political, social and cultural settings. A wide ranging and in depth study of various especially non Western country cases is essential to an adequate comprehensive understanding of the social work profession which is also a basic requirement of its value of diversity. China is undoubtedly an important case with the largest population on earth. It is also unique in view of so called Chinese characteristics which are sometimes fundamentally different from other particularly Western societies. It is even intriguing given the country's lengthy complex history and its recent rapid rise to a global superpower with a claim of national goals and core values that seem to be rather considerable to social work as a helping profession. Therefore any significant lessons learned from the Chinese experiences would help with a better international understanding and further advancement of social work and public welfare at a global scale.

Macro Social Work Practice Carolyn J. Tice, Dennis D. Long, Lisa E. Cox, 2019-08-07 Empower your students to become advocates for change. *Macro Social Work Practice: Advocacy in Action* shows students studying in macro social work practice how to enact change at the organizational, community, societal and global levels. An emphasis is placed on engaging in macro practice using the tenets of the award winning author team's Advocacy Policy and Practice Model (APPM) that highlight the inclusion of economic and social justice, supportive environment, human needs and rights and political access. Beginning with a history of macro practice and continuing with contemporary issues facing social workers, this new text helps readers learn how to enact advocacy informed by key orientations and perspectives and grounded in timely and relevant examples and cases. Exploring New Horizons for Decolonial Social Work Education Carolyn Noble, Annaline Caroline Sandra Keet, 2024-11-01 This book presents current scholarship designed to decolonize reform and confront the Eurocentric dominance in social work education and practice. This compact volume strings together new content from internationally recognised authors in the field of social work to address this need. Decolonising social work seeks to weaken the effect of colonialism and create opportunities to promote traditional practices in contemporary settings. Its focus is to draw attention to the effects of globalisation and the universalization of social work education, methods of practice and international development that fail to embrace and recognise local knowledges and methods by bringing new and fresh perspectives to social work. It can also be

seen as a significant contribution to social work's more critical stance and long standing struggle to challenge the hegemonic Euro centric epistemology. With decoloniality becoming a global imperative, this collection brings together case studies from world scholars and decolonial voices in order to explore opportunities, challenges and trends to decolonize through culturally relevant curricula including Social Work and Decolonisation, Student Social Workers Understanding of the Concepts of Culture, Cultural Identity and Decolonisation, Developing Curriculum for Criminal Justice Social Work from the Field, New Directions in Trauma Work, Cultural Trauma Theory as an Instrument to Contextualise and Address Histories of Pain in Global Communities, Analysing and Understanding Intersections Using Nayak's Intersectional Model of Reflection in Social Work, Teaching Decolonizing Social Work Education and Curriculum Utilizing Cultural Competency and Professionalism Approach, Exploring New Horizons for Decolonial Social Work Education. This is essential reading for practitioners, policy makers, instructors, researchers and other social work professionals. The book may be used as a supplemental text for social work courses. The national and international focus of the volume will be highly relevant to all social work programmes across the globe.
