Examining one of the key features of the social virtual world, the avatar, the book focuses on its user's motivations and identity choices. The book draws on the geographical understanding of place to examine where avatars live, work, and roam and describes how virtual world places resemble and diverge from actual world places. A mixed methods survey conducted in Second Life adds additional breadth to the discussion, whilst a series of vignettes gives extra life to the subject matter. This original exploration of the content and meaning of social virtual worlds is an essential resource for geographers and for anyone interested in the virtual world experience.

*Social Commitments in a Depersonalized World* Edward J. Lawler, Shane R. Thye, Jeongkoo Yoon, 2009-06-02 As individuals ties to community organizations and the companies they work for weaken many analysts worry that the fabric of our society is deteriorating But others counter that new social networks especially those forming online create important and possibly even stronger social bonds than those of the past In *Social Commitments in a Depersonalized World* Edward Lawler Shane Thye and Jeongkoo Yoon examine interpersonal and group ties and propose a new theory of social commitments showing that multiple interactions group activities and particularly emotional attachment are essential for creating and sustaining alignments between individuals and groups Lawler Thye and Yoon acknowledge that long term social attachments have proven fragile in a volatile economy where people increasingly form transactional associations based not on collective interest but on what will yield the most personal advantage in a society shaped by market logic Although person to group bonds may have become harder to sustain they continue to play a vital role in maintaining healthy interactions in larger social groups from companies to communities Drawing on classical and contemporary sociology organizational psychology and behavioral economics *Social Commitments in a Depersonalized World* shows how affiliations particularly those that involve a profound emotional component can transcend merely instrumental or transactional ties and can even transform these impersonal bonds into deeply personal ones The authors study the structures of small groups corporations economic transactions and modern nation states to determine how hierarchies task allocation and social identities help or hinder a group s vitality They find that such conditions as equal status interdependence and overlapping affiliations figure significantly in creating and sustaining strong person to group bonds Recurring collaboration with others to achieve common goals along with shared responsibilities and equally valued importance within an organization promote positive and enduring feelings that enlarge a person s experience of a group and the significance of their place within it Employees in organizations with strong person to group ties experience a more unified collective identity They tend to work more cost effectively meet company expectations and better regulate their own productivity and behavior The authors make clear that the principles of their theory have implications beyond business With cultures pulling apart and crashing together like tectonic plates much depends on our ability to work collectively across racial cultural and political divides The new theory in *Social Commitments in a Depersonalized World* provides a way of thinking about how groups form and what it takes to sustain them in the modern world *Entering the World of the Small Church* Anthony G. Pappas, 2000-11-01 This demonstrates amazingly with unflinching honesty and a wonderfully redeeming sense of humor a resource especially helpful in motivating change and growth by mobilizing the natural strengths of small churches For you who have been looking for a reliable guide to interpret the world of the small church look no further since this provides all the insights you need Includes images and models and

strategies that reflect the profound uniqueness of the small church. It clearly shows leaders how to lead within the dynamics and culture of the small congregation.
