Human Societies Abram De Swaan, 2013-07-03 This book is a brief introduction to the study of society which may be read without any previous knowledge of the social sciences Each chapter addresses a fundamental question about people in their various arrangements The book begins by asking what do people need from one another what do they need to survive and how do these needs make them dependent upon others Subsequent chapters deal with the ties that bind people the expectations they entertain of one another their means of distinguishing themselves from others the ways they have of moulding and teaching the young and what they believe know and invent De Swaan also explores the ways in which people organize their activities from foraging bands of only a few dozen members to contemporary societies that can effectively co ordinate a billion people or more Human Societies traces this huge increase in the scale of social life which occurred as new forms of human co ordination emerged from reciprocal obligation and collective action to markets organizations and states and finally the emerging global level of interdependence This book will be essential reading for anyone who needs a brief and clear introduction to sociology in its broadest sense it will be especially valuable to those studying the subject for the first time

Gorilla Society Alexander H. Harcourt, Kelly J. Stewart, 2008-09-15 Societies develop as a result of the interactions of individuals as they compete and cooperate with one another in the evolutionary struggle to survive and reproduce successfully Gorilla society is arranged according to these different and sometimes conflicting evolutionary goals of the sexes In seeking to understand why gorilla society exists as it does Alexander H Harcourt and Kelly J Stewart bring together extensive data on wild gorillas collected over decades by numerous researchers working in diverse habitats across Africa to illustrate how the social system of gorillas has evolved and endured Gorilla Society introduces recent theories
