Veal, 2006-06-20 A unique international resource for Leisure Studies in one volume the history organization and central debates in the field of Leisure Studies are defined providing a one stop shop for students and an agenda for future debate and research academics 21st Century Sociology: A Reference Handbook Clifton D. Bryant, Dennis L. Peck, 2007 Publisher Description *The Good Mother* Susan Goodwin, Kate Huppatz, 2010 The Good Mother brings together essays on the contemporary relevance of the good mother in Australia Although the ideals of the good mother change with time fashion and context they persist in public policy the media popular culture and workplaces They place pressure on women to conform to particular standards against which they are judged and judge themselves This book captures the diversity of contemporary women's experiences Chapters address the experiences of executive mothers mothers working in manual trades yummy mummies and slummy mummies low income mothers single mothers Indigenous mothers lesbian parents adoptive mothers and mothers negotiating schools and school choice The essays demonstrate that while the good mother is no longer exclusively white heterosexual economically dependent and child focused prevailing ideas about mothers and motherhood continue to influence the way types of women are represented and the way that all mothers think act and present themselves Farewell to Shulamit Carsten Wilke, 2017-04-10 The Song of Songs a lyric cycle of love scenes without a narrative plot has often been considered as the Bible's most beautiful and enigmatic book The present study questions the still dominant exegetical convention that merges all of the Song's voices into the dialogue of a single couple its composite heroine Shulamit being a projection screen for norms of womanhood An alternative socio spatial reading starting with the Hebrew text's strophic patterns and its references to historical realia explores the poem's artful alternation between courtly urban rural and pastoral scenes with their distinct characters The literary construction of social difference juxtaposes class specific patterns of consumption mobility emotion power structures and gender relations This new image of the cycle as a detailed poetic frieze of ancient society eventually leads to a precise hypothesis concerning its literary and religious context in the Hellenistic age as well as its geographical origins in the multiethnic borderland east of the Jordan In a Jewish echo of anthropological skepticism the poem emphasizes the plurality and relativity of the human condition while praising the communicative powers of pleasure fantasy and multifarious Eros
