Sociology Joan Ferrante,1997 Sociology Alok Kumar Kashyap,2012

Sociology Joan Ferrante-Wallace,1992 This was the first introductory text to use a truly comparative global approach to teach sociological concepts and ideas Some texts claim to be global by including global boxes however the entire Ferrante text is written from this perspective Ferrante uses an in depth examination of life in other countries to help students understand sociological concepts while also providing comparison to the United States By integrating throughout each chapter the connections to American society this text gives students a broader understanding of sociological concepts global interdependence and societal differences as well as similarities

Ecological Imperialism, Development, and the Capitalist World-System Mariko Lin Frame,2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as

fieldwork in Africa and Asia this book examines the crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital's unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology **Elgar**
