Canadian Sociologists in the First Person Stephen Harold Riggins, Neil McLaughlin, 2021-08-15 Social scientists' autobiographies can yield insight into personal commitments to research agendas and the very project of social science itself But despite the long history of life writing sociologists have tended to view the practice with skepticism Canadian Sociologists in the First Person is the first book to survey the Canadian sociological imagination through personal recollections Exploring the lives and experiences of twenty contributors from across the country this book connects the unique and shared features of their careers to broad social dynamics while providing a guide to their own research and administrative contributions to their universities their profession and their broader society and communities The contributors teach in different types of institutions are prominent in the discipline and in their specializations and represent significant and diverse intellectual currents political perspectives and life and career experiences Aiming to start a broad conversation about what social science and the academic profession look like in Canada from an insider's perspective Canadian Sociologists in the First Person offers invaluable lessons for younger scholars as they envision a diverse sociological imagination for the twenty first century

Basic Sociology James J. Teevan, Agocs, Caroline, 1982 *The Civil Sphere in Canada* Jeffrey C. Alexander, Mervyn Horgan, 2025-05-15 When activists advocate victims of injustice and ordinary citizens seek to advance or block social justice and cohesion they draw on morally charged ideals But the wellsprings of solidarity in a society as diverse as Canada are complex and mutable The Civil Sphere in Canada analyzes the shifting meanings we attach to key social actors activities and institutions to reveal the dynamics of inclusion and exclusion that animate Canadian society Applying Jeffrey Alexander's groundbreaking civil sphere theory to Indigenous settler relations media scandals multiculturalism urban planning and personal relations contributors demonstrate that transformations in shared meaning must precede legislative and institutional change Profoundly harmful behaviours such as cultural appropriation sexual misconduct and even genocide may pass as routine for years before the public decides they are unacceptable breaches of civil order This superb collection ushers Canadian voices into a burgeoning international debate about the role of the civil sphere in effecting social justice

Ethnic Relations in Canada Raymond Breton,2005-10-13 The introduction by Jeffrey Reitz focuses on the evolution of Breton s distinctive institutional framework which both extends and in some ways alters John Porter s classic analysis in The Vertical Mosaic Reitz shows how Breton s original concept of institutional completeness has been extended to provide a comprehensive framework for the institutional analysis of inter ethnic relations creating a unified theoretical structure that has reshaped the study of inter ethnic relations in Canada and points toward a future research agenda

Politics and Ideology in Canada Michael Ornstein,Michael Stevenson,2003-02-18 Winner of the Harold Adams Innis Prize Politics and Ideology in Canada examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public

support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation
