Tales From The Couch Writers On Therapy:

Tales from the Couch Jason Shinder, 2000-11-21 In recent years psychotherapy has become a widely accepted and even popular form of treatment for mental and emotional troubles Whether seeking guidance comfort help or just some small measure of peace more people than ever are going to the therapist's couch for the talking cure The literary artist is no exception In fact the writer whose life in many cases serves as inspiration for his or her work is in an ideal position to evaluate the experience In this fascinating revealing and profoundly intimate volume editor Jason Shinder has collected the personal reminiscences of some of the greatest writers today all of whom have been to the therapist's couch and now offer valuable insight into the process Adam Gopnik wryly discusses what was easily one of the most unsuccessful psychoanalyses ever attempted by an eccentric New York Freudian Pam Houston offers a riveting account of the revolutionary technique that brought her back from the brink of madness Mark Doty poignantly chronicles how therapy and a trip to the Serengeti awakened him to the truth that while his marriage was dead his future was still very much alive And Susan Cheever takes a humorous look at psychotherapy through the eyes of a lifelong patient From poet and memoirist David Mura's serious concern that therapy in America fails patients of color to George Plimpton's health skepticism about the entire process from one writer who is joyous at the prospect of getting two therapists for the price of one to another who likens therapy to baseball finding special comfort in Willie Mays these essays are by turns funny introspective inspiring disquieting thoughtful often provocative and always entertaining In this remarkable anthology of essays many never before published seventeen award winning poets playwrights and writers confront depression addiction troubled pasts and mental instability In addition they probe the effects of psychotherapy from pivotal to nonexistent on their lives as well as on the storytelling process itself The result is a remarkably well written deeply revealing journey into the psyches of some of America's premier literary talents

On the Couch Kates (Erica.), 1999 The Good Life Jeffrey B. Rubin, 2012-02-01 Psychoanalysts have traditionally been expert at uncovering what afflicts and damages people argues Jeffrey B Rubin but by focusing on narcissism and perversions depression and sadism psychoanalysis has all too often disregarded what nourishes and sustains us In The Good Life he demonstrates how psychoanalysis can make a profound contribution to the well lived life by drawing on a neglected but potent aspect of psychoanalysis its capacity to illuminate a psychology of health as well as illness Rubin shows that at its best psychoanalysis can highlight both the ingredients of love ethics creativity and spirituality as well as the obstacles to experiencing them Exploring the good life from this dual perspective provides an indispensable resource for helping us live with greater meaning and vitality

On the Couch Erica Kates, 1997 On the Couch eavesdrops on the therapeutic process as some of America's best known writers take the reader into the charged and sacred space between patient and analyst

Skeletons in the Closet Aysan Sev'er, Jan E. Trost, 2011-01-17 Family conflict has traditionally been studied by researchers who are at a safe intellectual distance from the families under their study In Skeletons in the Closet and in line

with feminist research methodologies the hierarchical distance between researcher and subject is broken down All of the contributors to this volume are academics and all are closely related to the families they write about *Skeletons in the Closet* consists of ten essays about unresolved or unresolvable family conflicts The contributors start from the assumption that families whether legal marriage families common law marriage families single parent families multiple generation families same sex partnerships or adoptive families are cradles of intense emotion That intensity they argue may translate into conflict competition domination abuse exploitation or even hate This book explores those areas most likely to grip family members in unresolved interpersonal strife as well as the strategies people use to solve the issues and the shame and isolation that conflict brings in societies that normatively expect family life to be one of joy mutual sharing and caring This first hand narration of family conflict by social scholars has much to contribute to sociological studies of the family both methodologically and theoretically The introduction and conclusion place family conflict within sociological and social psychological theories and methods The American Journal of Psychiatry ,2002-07 **The American Psychologist** ,2001 Includes proceedings of the 54th 55th annual meetings of the association 1946 47 and proceedings of meetings of various regional psychological associations *Writing About Patients* Judy Leopold Kantrowitz,2006-08-17 An important new study of the clinical conundrum surrounding the publication of patient material The publication presentation and discussion of case studies are essential to the dialogue of psychoanalysis However presenting patient material to the public by either disguising the patient s identity or asking for the patient s consent presents a clinical dilemma In a series of interviews Judy Leopold Kantrowitz asks 141 analysts not only to describe their thoughts about disguising a patient versus asking a patient s consent to appear in a paper but also their perceptions of the clinical ramifications of a patient reading the material whether by accident or design In first hand accounts both analysts as patients and patients who are not themselves analysts relate the experience of reading about themselves and reflect on the impact that reading had on their view of their analysts themselves and the analytic work Ethical concerns about confidentiality and decision making are examined both in theory and in the context of their clinical effect Throughout the book Kantrowitz examines the conscious and unconscious motives for analysts in writing about a patient ultimately demonstrating that the conflict between the need to preserve patient privacy and the need for a literature including clinical material is not easily resolved Empathic Teaching Jeffrey Berman,2004 During the past decade Jeffrey Berman has published widely on the pedagogy of personal writing In *Diaries to an English Professor* 1994 he explored the ways in which undergraduate students can use psychoanalytic diaries to deal with conflicted issues in their lives *Surviving Literary Suicide* 1999 investigated how graduate students respond to novels and poems that portray and sometimes glorify self inflicted death And in *Risky Writing* 2002 Berman considered the ways teachers can encourage college students to write safely on a wide range of subjects often deemed too personal or too dangerous for the classroom from grieving the loss of a friend to confronting sexual abuse on understanding the other can transform the experience of learning

Berman begins with a discussion of several well known stories and films featuring literature instructors who exert a formative influence on their students including Good bye Mr Chips The Blackboard Jungle Up the Down Staircase and Dead Poets Society He then goes on to examine the pedagogical importance of empathy trauma and forgiveness in helping students cope with the ordinary and extraordinary challenges of everyday life powerful insightful authentic essays about lived experience that reveal both intellectual and emotional growth In the book s final chapter Berman considers the risks and benefits of empathic teaching demonstrating how teachers can play a therapeutic role in the classroom without being therapists Teachers who are regarded as trusting supportive and dependable he argues become attachment figures influencing students to be more sensitive to and connected with their classmates lives Or as Berman succinctly puts it empathic teaching leads to empathic learning an education for life
