Technofundamental Trading A Revolutionary Approach To Combining Technical And Fundamental:

Techno Fundamental Trading Philip Gotthelf,1995 Written by Philip Gotthelf one of today s foremost futures trading authorities TechnoFundamental Trading provides a fresh and thoroughly modern approach to fundamental analysis By synthesizing aspects of technical analysis with fundamental analysis Gotthelf has created a unique and powerful approach to market forecasting and trade selection Indeed the technofundamental approach is one of the best methods ever devised to identity long term trends and major turning points The technofundamental method can accomplish all of the following identity major price trends before they begin distinguish between a technical market reaction and a significant top or bottom understand the relationship between seemingly unrelated phenomena such as grain prices and interest rates or currencies and gold distinguish between reactionary fundamentals with prospective fundamentals identify long term economic cycles analyze supply and demand using new technical approaches and interpret technical indicators in light of market fundamentals Unlike many technical methods the technofundamental approach does not negate a trader s power of analysis and interpretation Indeed technofundamentals place a premium on the trader s ability to interpret the interplay between fundamental and technical forces For trades with superior analytical and creative abilities the technofundamental method will provide a big edge over purely technical traders

Full View Integrated Technical Analysis Xin Xie,2011-01-25 A fresh approach to technical analysis utilizing a full view multi time frame integrated analytical system Has the bear market ended Is the rebound lasting Everybody wants an answer but nobody can provide one with a good degree of confidence While fundamental analysis is notoriously weak when it comes to market timing decisions and price target forecasts technical analysis is equally timid in providing any concrete answers to the above fundamentally important questions for market participants No existing system has produced a firm answer with a respectable degree of conviction This book will present a system to answer those questions with a high degree of confidence Xin Xie is the Director for Institute of International Trade and Investment at the Upper Yangtze River Economic Research Center Chongqing University of Business and Technology and PRC Ministry of Education He has a PhD in Economics from Columbia University in New York and a Master of Arts Degree in Statistics at Zhongnan University of Finance in China He has extensive experiences in banking and investment industries as Senior Economists and Strategists in Bank of America and UBS AG
