Marconi's Wireless and the Rhetoric of a New Technology Aaron A. Toscano, 2012-02-09 This book examines the discourse surrounding the wireless created by the Anglo Italian inventor Guglielmo Marconi The wireless excited early twentieth century audiences before it even became a viable black box technology The wireless adhered to modernist values speed efficiency militarization and progress Language surrounding the wireless is a form of technical communication overlooked by today s practitioners This book establishes a broader definition for technical communication by examining a selection of the discourse surrounding Marconi s wireless The book s main themes are the following 1 technical communication is all discourse surrounding technology 2 the field of technical communication or technical writing should incorporate analyses of discourse surrounding technologies into its epistemology 3 the wireless is a product of the society from which it comes early twentieth century Western civilization and 4 the discourse surrounding the wireless is infused with tropes of progress speed efficiency evolution and ahistoricity Technology and the Contested Meanings of Sustainability Aidan Davison, 2001-05-16 Argues that sustainability requires more than economic and technological efficiency

Technology and the Early Modern Self A. Cohen, 2009-03-02 Cohen utilizes the interdisciplinary nature of contemporary literary and cultural studies to shed new light on the relationships between technologies and the people who used them during the early modern period **The Rise of Western Power** Jonathan Daly, 2013-12-19 The West s history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world The Rise of Western Power charts the West s achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two frighteningly destructive World Wars the Holocaust imperialistic domination and the Atlantic slave trade Adopting a global perspective Jonathan Daly explores the contributions of other cultures and civilizations to the West s emergence Historical geographical and cultural factors all unfold in the narrative Adopting a thematic structure the book traces the rise of Western power through a series of revolutions social political technological military commercial and industrial among others The result is a clear and engaging introduction to the history of Western civilization **Technology & American History** Stephen H. Cutcliffe, Terry S. Reynolds, 1997 Technology and American

History explores the technological dimension of American life from the birth of American industry in the late eighteenth century to the massive industrial systems of the late twentieth century Emphasizing a societal context for technology this carefully organized collection demonstrates both the manner in which cultural political and economic forces shape innovation and the ways that technology has influenced society and shaped its values Individual essays explore the importance of textile manufacturing in American industrialization the role of the federal government in regulating new modes of transport the development of interchangeable parts in production the process of innovation the notion of technological systems and the relationship between technological change and work in the factory on the farm and in the home This collection will be extremely useful for faculty and students in undergraduate survey courses in the history of American technology as well as interdisciplinary science technology and society courses In addition general readers will find this collection accessible and engaging

The Routledge Research Companion to Nineteenth-Century British Literature and Science John Holmes, Sharon Ruston, 2017-05-18 Tracing the continuities and trends in the complex relationship between literature and science in the long nineteenth century this companion provides scholars with a comprehensive authoritative and up to date foundation for research in this field In intellectual material and social terms the transformation undergone by Western culture over the period was unprecedented Many of these changes were grounded in the growth of science Yet science was not a cultural monolith then any more than it is now and its development was shaped by competing world views To cover the full range of literary engagements with science in the nineteenth century this companion consists of twenty seven chapters by experts in the field which explore crucial social and intellectual contexts for the interactions between literature and science how science affected different genres of writing and the importance of individual scientific disciplines and concepts within literary culture Each chapter has its own extensive bibliography The volume as a whole is rounded out with a synoptic introduction by the editors and an afterword by the eminent historian of nineteenth century science Bernard Lightman

A History of Technoscience David F. Channell, 2017-06-14 Are science and technology independent of one another Is technology dependent upon science and if so how is it dependent Is science dependent upon technology and if so how is it dependent Or are science and technology becoming so interdependent that the line dividing them has become totally erased This book charts the history of technoscience from the late nineteenth century to the end of the twentieth century and shows how the military industrial academic complex and big science combined to create new examples of technoscience in such areas as the nuclear arms race the space race the digital age and the new worlds of nanotechnology and biotechnology

Practice and the Human Sciences Donald E. Polkinghorne, 2012-02-01 Teachers nurses psychotherapists and other practitioners of care are under pressure to substitute specific prescribed techniques in place of using their own judgment Donald E Polkinghorne assembles the case for the return to judgment based practice for the professions that engage in direct person to person interaction with those they serve Set in the larger context of the technification of society Polkinghorne

draws from Weber Heidegger Ihde Bourdieu de Certeau and other philosophers to trace the advancing power of the technological worldview in Western culture and uses Aristotle Dewey and Gadamer to help make his case that we should be doing things very differently
