Technology, Trade and Growth in OECD Countries Valentina Meliciani, 2001-05-10 Presenting new material and a fresh perspective Technology Trade and Growth in OECD Countries provides a unifying framework for the exploration of the role played by specialisation in economic growth and international competitiveness **Solving the Riddle of**

Globalization and Development Manuel Agosin, David Bloom, George Chapelier, Jagdish Saigal, 2006-11-22 In the past two decades many developing countries have embraced the challenge of globalization by rushing to dismantle trade barriers and to promote increasingly liberal market oriented policies However a broader response to globalization is both necessary and possible if countries are to develop as quickly and as fully as possible Exploring this complex interrelationship between globalization liberalization and human and social development this innovative book undertakes a full analysis of development policy strategy and practice in a variety of countries with equal weight provided to Asia Latin America and Africa An internationally renowned team of contributors examines the complex network of connections and the implications for international development policy strategy and practice Advocating the inclusion of sustainable human development as a key element in countries responses to globalization key points highlighted include the need to nurture an enabling environment and to promote education and R D These elements coupled with sound macroeconomic management are all required in equipping a country to integrate more effectively into the world economy This innovative new approach to globalization and development set out in this volume will be essential reading for academics and practitioners alike *Working Time Around the World* Jon C. Messenger, Sangheon Lee, Deirdre McCann, 2007-05-31 First Published in 2007 Routledge is an imprint of Taylor Francis an informa company Multilateralism and Regionalism in Global Economic Governance Junji

Nakagawa, 2012-03-29 Reconciling regionalism and multilateralism is a challenge common to all branches of global economic governance While the Bretton Woods GATT WTO institutions decades old multilateral framework for global economic governance are facing serious challenges to their effectiveness regional framework are emerging as complementary or alternative means of global economic governance The real challenge is how to reconcile multilateralism and regionalism in global economic governance This book tackles this problem by analysing issues of multilateral regional conciliation and coordination in global economic governance focusing on Asia Chapters of the book deal with challenges of multilateralism and regionalism in three fields of global economic governance namely global monetary financial governance global trade governance and global investment governance The major regional focus is on Asia though some chapters deal with regionalism in Europe and North America Topics include Asian Monetary Fund and Asian financial architecture open accession provisions of regional trade agreements and APEC s role in multilateral investment rules As a whole the book elucidates the contemporary reach of Asian regionalism in global economic governance and shows the neat balance between regionalism and multilateralism in global economic governance It is of particular use to the students and practitioners of

international economic law international political economy international finance and international economics both with and without Asian focus **Innovative Fiscal Policy and Economic Development in Transition Economies** Aleksandr Gevorkyan, 2013-07-03 This book explores the problems of fiscal policy as an instrument of economic and social development in the modern environment primarily focusing on the transition economies of Eastern Europe Caucasus and Central Asia Evaluating the transformational experience in these countries this work meets a need for a critical analysis in the aftermath of the 1990s market liberalization reforms of current trends and to outline the roadmap for future development

Financial Crises Brenda Spotton Visano, 2006-04-18 This study explores the major patterns of change in the evolution of financial crises as enduring phenomena and analyzes the paradoxical position that crises are at once similar to and different from each other Brenda Spotton Visano examines economic psychological and social elements intrinsic to the process of capitalist accumulation and innovation to explain the enduring similarities of crises across historical episodes She also assesses the impact that changing financial and economic structures have on determining the specific nature of crises and the differential effect these have in focal point manner and extent of transmission to other otherwise unrelated parts of the economy Financial Crises offers a consistent method for interpreting variations in financial crises through time and allows for a better overall appreciation for both the transitory fragility and enduring flexibility of financial capitalism and the potential vulnerability created by on going financial development Topical and informative this key book is of keen interest to all those studying and researching international economics and political economy **Globalization, Outsourcing and Labour**

Development in ASEAN Shandre Thangavelu, Aekapol Chongvilaivan, 2013-06-07 Due to technical advances in production and communication technology outsourcing contracting out production of intermediate materials and services has affected the economic growth of the ASEAN region This new book fills an important gap in the literature looking at the impact outsourcing has on labour markets its subtle effects on regional economies and policy implications Shandre Thangavelu and Aekapol Chongvilaivan investigate various impacts of outsourcing on labour markets such as its effects on labour productivity skill upgrading human capital and training in ASEAN economies with a focus on the experience of the two ASEAN countries as a global hub of outsourcing Singapore and Thailand This book approaches these research inquiries by developing several econometric models including primal production functions and dual cost functions among others The empirical evidence this book reveals provides interesting insights into and implications on labour and industry development **Beyond the Global**

Crisis Lionello F. Punzo, Carmem Feijó, Martín Puchet, 2012 The book aims at offering a comparative multi perspective analysis of the different at times parallel at times with varying degrees of interdependence macroeconomic and structural adjustments in the two continents against the backdrop of important processes of regional integration Its reading offers a multifaceted appreciation of the reality emerging from the mixing up of longer run tendencies deepened by the brute force of the financial and then industrial crisis *Good Governance in the Era of Global Neoliberalism* Jolle Demmers, Alex E.

Fernández Jilberto, Barbara Hogenboom, 2004-08-02 This new collection critically examines the new global policy of good governance This catchphrase of aid policy and development thinking has been the subject of too little analysis to date This book redresses the balance It places the prefix good and exactly what that means under the microscope and examines the impact of neoliberal governance in a wide range of countries and territories including Chile Russia Argentina and Indonesia

Economic Fundamentals of Power Plant Performance Almas Heshmati, 2013-06-17 Stability of the electricity industry is crucial for economic growth of all nations Sustainable economic growth cannot be accomplished without secured energy supply The book underlines how management of the electricity industry should be conducted and the efficient form of electricity market structure The book also studies the electricity industry in Korea which has been a strongly supportive and vital factor in the economic development of Korea for the last few decades The book focuses on the three market players of the electricity market and they are the suppliers consumers and the government related organizations It includes detailed information on generation and finances at the generator level and analyzes the efficiency differences among generators plants and business units by using different performance measurement methods It identifies and analyzes different production factors effectiveness and relationships in generation The comprehensive analysis helps to provide explanations in the differences in the performance of the studied units The book also discusses the implications of the findings for future resource allocation and how we can further enhance the efficiency of the industry The book will appeal to those interested in energy and energy policies as well as researchers and practitioners in the economic development and electricity and utilities industry
