Philippe Le Guern

Teen Spirit French Edition:

Teen Spirit Paul Howe, 2020-11-15 Teen Spirit offers a novel and provocative perspective on how we came to be living in an age of political immaturity and social turmoil Award winning author Paul Howe argues it's because a teenage mentality has slowly gripped the adult world Howe contends that many features of how we live today some regrettable others beneficial can be traced to the emergence of a more defined adolescent stage of life in the early twentieth century when young people started spending their formative developmental years with peers particularly in formal school settings He shows how adolescent qualities have slowly seeped upward where they have gradually reshaped the norms and habits of adulthood The effects over the long haul Howe contends have been profound in both the private realm and in the public arena of political economic and social interaction Our teenage traits remain part of us as we move into adulthood so much so that some now need instruction manuals for adulting Teen Spirit challenges our assumptions about the boundaries between adolescence and adulthood Yet despite a cultural system that seems to be built on the ethos of Generation Me it's not all bad In fact there has been an equally impressive rise in creativity diversity and tolerance within society all traits stemming from core components of the adolescent character Howe's bold and suggestive approach to analyzing the teen in all of us helps make sense of the impulsivity driving society and encourages us to think anew about civic reengagement *Geolinguistic Studies in Language Contact, Conflict, and Development: Volume 1, Second Edition* Wayne Finke, 2018-02-12 This is a publication of the American Society of Geolinguistics that celebrates its 52nd anniversary and covers a wide range of geolinguistics related topics The editors in chief are Wayne Finke and Hikaru Kitabayashi Its co editors are Marcelline Block Alan Hawk Thomas Muzart Hakeem Habbul Sule Michio Tajima and Yongsheng Zhang **Nirvana**, *Women's Writing in Twenty-First-Century France* Gill Rye, Amaleena Damlé, 2013-04-15 Women's Writing in Twenty First Century France is a collection of critical essays on recent women authored literature in France It takes stock of the themes issues and trends in women's writing of the first decade of the twenty first century and it engages critically with the work of individual authors through close textual readings Authors covered include major prizewinners best selling authors established and new writers whose work attracts scholarly attention including those whose texts have been translated into English such as Christine Angot Nina Bouraoui Marie Darrieussecq as Chlo Delaume Claudie Gallay and Anna Gavalda Themes include translation popular fiction society history war family relations violence trauma the body racial identity sexual identity feminism life writing and textual aesthetic experiments Stereo: Comparative Perspectives on the Sociological Study of Popular Music in France and Britain Philippe Le Guern, 2016-04-01 The term Popular Music has traditionally denoted different things in France and Britain In France the very concept of popular music has been fiercely debated and contested whereas in Britain and more largely throughout what the French describe as the Anglo saxon world popular music has been more readily accepted as a description of what people do as leisure or consume as part of the music industry and as something that

academics are legitimately entitled to study French researchers have for some decades been keenly interested in reading British and American studies of popular culture and popular music and have often imported key concepts and methodologies into their own work on French music but apart from the widespread use of elements of French theory in British and American research the Anglo saxon world has remained largely ignorant of particular traditions of the study of popular music in France and specific theoretical debates or organizational principles of the making and consuming of French musics French British and American research into popular music has thus coexisted with considerable cross fertilization for many years but the barriers of language and different academic traditions have made it hard for French and anglophone researchers to fully appreciate the ways in which popular music has developed in their respective countries and the perspectives on its study adopted by their colleagues This volume provides a comparative and contrastive perspective on popular music and its study in France and the UK

Represent! Chris Ceraso, Lisa S. Brenner, 2021-03-25 In their expos of Gen Z The New York Times qualified its members as the most diverse generation in American history Recent Broadway hits have found a successful formula in productions showcasing the emotional turmoil of contemporary young people yet the majority of these works represent predominantly white voices both in terms of authorship and representation Non white characters tend to exist only in a world of colorblind casting rather than speaking to their distinct racial and cultural heritage This anthology helps correct that balance and presents a unique offering of plays written for multicultural teenagers by diverse authors who have spent a significant part of their careers working closely with young people in urban settings The playwrights among them award winners such as Chisa Hutchinson and Nilaja Sun have created texts that are dramatic and comic satirical and earnest touchingly real and amusingly surreal Varying in length and format suitable for classrooms and youth groups of all sizes the plays address such themes as ethnic and cultural identity ancestry and assimilation bullying and self empowerment disenfranchisement and alienation parental pressure to over achieve youth activism and community building and the very real perils of daily school life in an era of gun proliferation

Sounds French Jonathyne Briggs, 2015 Sounds French reveals how French society mediated the challenges of globalization through the consumption and production of popular music itself

increasingly an expression of globalized culture As recorded music became more commonplace and crossed national boundaries in the second half of the twentieth century French musicians and their audiences articulated new types of communal identities around popular music genres that reflected the impact of social political economic and cultural transformations after the 1950s
