Teilhard's Vision Of The Past The Making Of A Method:

Teilhard's Vision of the Past Robert J. O'Connell, 2022 The Phenomenon of Man by Pierre Teilhard de Chardin has been characterized as metaphysics poetry and mysticism virtually everything except what its author claimed it was a purely scientific memoir Professor O'Connell here follows up on a nest of clues uncovered first in an early unpublished essay then in the series of essays contained principally in The Vision of the Past Those clues all point to Teilhard's intimate familiarity with the philosophy of science propounded by the celebrated Pierre Duhem It was Duhem's central claim that science to remain true to itself must aim at establishing a genuine natural classification phenomenal reality That insight Professor O'Connell argues guided Teilhard's lifelong effort to describe the imposed reality factors which science in its variety of forms suggests as ingredients and operative at every phase in the evolutionary development of planet Earth Limiting his focus to the way Teilhard unfolded his vision of the past Professor O'Connell concludes that those who deprecate Teilhard as unscientific betray little awareness of how sophisticated his understanding of science truly was

The Phenomenon of Teilhard David H. Lane, 1996 New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard's New Age enterprise In a highly documented and insightful scrutiny of Teilhard's cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print

The Unbearable Wholeness of Being Ilia Delio, 2013 This title explores the meaning of Christian theology in light of the scientific discoveries of our age Like Teilhard de Chardin and Thomas Berry Delio opens out eyes to the omni active all powerful all intelligent Love that forms and guides the interrelatedness and interbeing of everything and everyone ourselves included

From Teilhard to Omega Ilia Delio, 2014-01-09 Thirteen scholars including John F Haught Ursula King and John C Haughey SJ take off from where Teilhard de Chardin left off opening new windows to the divine mystery to the evolving person and to the new energies of love needed for the forward movement of life

Astrophilosophy, Exotheology, and Cosmic Religion Andrew M. Davis, Roland Faber, 2024-01-22 Astrophilosophy Exotheology and Cosmic Religion Extraterrestrial Life in a Process Universe applies Alfred North Whitehead's process philosophy and the associated process philosophies of Henri Bergson Teilhard de Chardin and others to the interdisciplinary layers of astrobiology extraterrestrial life and the impact of discovery This

collection edited by Andrew M Davis and Roland Faber asks questions such as How have process thinkers imagined universal creative evolution and its implications for philosophies theologies and religions beyond earth and How might their claims as to the primacy of organism temporality novelty value and mind enrich current discussions and debates across disciplines As experts in their fields the contributors are informed by but not limited to process conceptualities The chapters not only advance recent discussions in astrobiology cosmology and evolution but also consider a constellation of philosophical topics from shared extraterrestrial knowledge and values to the possibilities or limitations afforded by A I technology the Fermi Paradox the Drake Equation and the increasing need to nurture the cosmic dimensions of theological and religious traditions
