Telecommunications Liberalization On Two:

Telecommunications Liberalization on Two Sides of the Atlantic Martin Cave, Robert W. Crandall, 2004-06-23 A Brookings Institution Press and American Enterprise Institute publication The 1990s witnessed a major revolution in telecommunications policy in North America and Europe The electronics revolution swept the world and most countries began to realize that they could not compete in many markets without a vibrant competitive telecommunications sector As a result the European Union Canada and the United States launched major new liberalization policies aimed at opening all telecommunications markets to competition This report presents two views of the progress towards competition one for North America and one for Europe The authors provide an overview of the market structure on both continents prior to the 1990s discuss significant regulatory changes during that decade and analyze changes in rate structures and competition that have occurred since liberalization They conclude with a look at the present and future impact of the Internet and other new technologies on the telecommunications industry

Telecommunications liberalization on two sides of the Atlantic Martin E. Cave, Robert W. Crandall, 2002 *Telecommunications Law and Regulation* Ian Walden, 2012-09-13 Since the last edition of the book was published there have been a number of important developments in the telecommunications industry Telecommunications Law and Regulation takes these changes into account including an examination of the EU New Regulatory Framework as well as the establishment of the Body of European Regulators for Electronic Communications BEREC There are also new chapters on spectrum management radio frequencies and consumer protection rules The access and interconnection chapter addresses the issues surrounding the high capacity broadband widely provided by Next Generation Networks The chapter on licensing and authorisation has been refocused to reflect the increasing regulatory focus on the mobile sector The chapter on regulating content has also been significantly restructured and revised to reflect the changes in how we consume content Written by leading experts it is essential reading for legal practitioners and academics involved in the telecommunications industry
