Architecture is more than buildings and architects It also involves photographers writers advertisers and broadcasters as well as the people who finance and live in the buildings Using the career of the critic J M Richards as a lens this book takes a new perspective on modern architecture Richards served as editor of The Architectural Review from 1937 to 1971 during which time he consistently argued that modernism was integrally linked to vernacular architecture not through style but through the principle of being an anonymous expression of a time and public spirit Exploring the continuities in Richards s ideas throughout his career disrupts the existing canon of architectural history which has focused on abrupt changes linked to individual pioneers encouraging us to think again about who is studied in architectural history and how they are researched
