Public Broadcasting and the Public Interest Michael P. McCauley, B. Lee Artz, DeeDee Halleck, Paul E Peterson, 2016-09-16 As federal funding for public broadcasting wanes and support from corporations and an elite group of viewers and listeners rises public broadcasting s role as vox populi has come under threat With contributions from key scholars from a wide variety of disciplines this volume examines the crisis facing public broadcasting today by analyzing the institution's development its presentday operations and its prospects for the future Covering everything from globalization and the rise of the Internet to key issues such as race and class to specific subjects such as advertising public access and grassroots radio Public Broadcasting and the Public Interest provides a fresh and original look at a vital component of our Public Broadcasting and European Law Irini Katsirea, 2008-01-01 Although EU Member States share a mass media tradition of regulating public broadcasting for the public interest such regulation has been in decline in recent years It has been challenged by the emergence of commercial television sworn to the market logic as well as by satellite services and the Internet EU law and policy has under pressure from powerful global forces abetted that decline The guestion thus arises Do cultural values still matter in European national broadcasting This important book examines the challenges posed to public service obligations by European Union media law and policy An in depth analysis of the extent to which six countries France Germany Greece Italy the Netherlands and the United Kingdom regulate broadcasting for the public interest reveals a range of vulnerability to national political pressures or alternatively to the ideology of market sovereignty. The author examines the country of origin principle and the European quota rule of the Television without Frontiers Directive revealing the influence of European law on the definition and enforcement of programme requirements and shows how the case law of the European Court of Justice encourages deregulation at the national level without offering adequate safeguards at the supranational level in exchange She asks the question whether the alleged European audiovisual model actually persists that is whether broadcasting is still committed to protecting such values as cultural diversity the safety of minors the susceptibility of consumers to advertising media pluralism and the fight against racial and religious hatred The book concludes with an evaluation of the impact of the EU state aid regime on the licence fee based financing of public broadcasting Despite the increasing importance of the subject its study in a comparative context has been heretofore underdeveloped This book fully provides that context and more and will be of great value and interest to all parties concerned with the key role of communications in the development of European integration Western European Broadcasting, Deregulation, and Public Television Nelson Traquina, 1998 **Television and the Public Interest** Jay G. Blumler, 1982 Media Regulation, **Public Interest and the Law** Mike Feintuck, 2006-07-10 Regulation of the media has traditionally been premised upon claims of the public interest yet the term itself remains contested and generally ill defined In the context of technological development and convergence as well as corporate conglomeration traditional public service values in British broadcasting

are challenged by market values With such ongoing trends continuing apace regulators must increasingly justify their interventions The communication industries commercialisation and privatisation pose a fundamental threat to democratic values Media Regulation Public Interest and the Law argues that regulators will only successfully protect such values if claims associated with citizenship are recognised as the rationale and objective for the regulatory endeavour While such themes are central to the book this second edition has been substantially revised and updated to take account of matters such as European Directives the UK s Communications Act 2003 the process of reviewing the BBC s Charter and relevant aspects of the reform of general competition law Key Features Identifies and examines the rationales underlying media regulation and the current challenges to them Considers fully the actual and potential utility of legal mechanisms and principles in the design and activities of regulatory institutions Fully updated to take account of the European Union s 2002 New Regulatory Framework and the UK s Communications Act 2003 Accessible to a wide readership in media studies journalism broadcasting and law Praise for the First EditionA detailed and critical assessment of the problems and confusions of recent media regulation in the UK including digital television franchising and the Broadcasting Complaints Commission it is well organised and should be a useful resource for more advanced students and academics for updating the public regulation case with vigour and clarity this book is to be welcomed THES Television and the Public Interest Jay G Blumler, 1992-01-21 Explores the achievements of European broadcasting and attempts to assess the potential for maintaining its public function in changing circumstances It also surveys the different values which European media systems The Television Studies Reader Robert Clyde Allen, Annette Hill, 2004 A discussion of a truly have sought to protect international range of television programs this title covers alternative modes of television such as digital and satellite

Inside the BBC and CNN Lucy Küng-Shankleman,2012-11-12 Inside the BBC and CNN provides a unique insight into two of the world s best known media organisations during a period of great change and new challenges The BBC and CNN have very different histories remits and identities but both must now compete to provide news in a media environment being reshaped by increasing competition globalisation digitisation and convergence In addition they face increasing pressures of criticism focussed on the struggle for ratings and the perceived dumbing down of programming Drawing on intensive research carried out among senior managers in both organisations Lucy K ng Shankleman s study explores the beliefs and attitudes that shape management priorities and broadcasting policy More controversially it examines how each organisation s distinct cultural beliefs about broadcasting s fundamental purpose about the nature of competition and about the relationship between competition and quality have laid the foundations for their current and past success but could now threaten to limit their ability to respond to the unprecedented changes underway in the world s media landscape

Television Across Europe Jan Wieten, Graham Murdock, Peter Dahlgren, 2000-10-04 Combining institutional textual and audience analysis this book introduces students to the factors which have shaped televisions development in contemporary

Europe and invites them to assess the issues that are at stake in its future Divided into three parts the book moves from the European broadcasting environment through current patterns and trends in programming and programme making to TV genres and issue specific broadcasting Incorporating a range of pedagogical devices boxes of key facts activities and notes for further reading Television across Europe offers an essential introductory guide to television in Western Europe

Public Service Media in Europe: A Comparative Approach Karen Arriaza Ibarra, Eva Nowak, Raymond Kuhn, 2015-07-16 Public service media PSM have been the mainstay of Western European broadcasting for a number of decades Yet despite a general political consensus in favour of PSM recent technological economic and political changes have led to a questioning of their value This new collection of essays explores the history of PSM in selected European countries from their early establishment as the main media in many countries to charting their transformation and evolution in recent years The contributions consider the political economic and market integration issues that impact PSM while also highlighting the importance of the ideology that originally accompanied PSM in its initial years to see how relevant they are in the contemporary world The book consists of two complementary parts Part I Theoretical Aspects and Global Influences on Public Service Media in Europe Part II A Comparative Analysis of Public Service Media across Europe With contributions from leading experts the first part offers a thorough examination of the current concepts and conditions that influence PSM in Europe The second offers a comparative study of PSM in several European countries including France Germany Italy Poland Spain and Sweden Offering the most comprehensive study of the field to date Public Service Media in Europe will be useful for students and researchers in public media political communication international and comparative media
