Telicity In The Second Language:

Telicity in the Second Language Roumyana Slabakova, 2001-01-01 Annotation Slabakova U of Iowa examines the second language acquisition of English telicity marking by native speakers of Bulgarian Particular attention is paid to subtle differences between English and Slavic telic and atelic sentences Slabakova contends that Vendler's lexical classes of verbs can be represented in four phrase structure templates where lexical properties of the verb and of the object compositionally determine telicity The text is a revised version of the author's Ph D thesis 1997 McGill U Annotation c Book News Inc

Universal Grammar Lydia White, 2003-03-06 This authoritative 2003 textbook provides an overview and analysis of current second language acquisition research conducted within the generative linguistic framework Lydia White argues that second language acquisition is constrained by principles and parameters of Universal Grammar The book focuses on characterizing and explaining the underlying linguistic competence of second language learners in terms of these constraints Theories as to the role of Universal Grammar and the extent of mother tongue influence are presented and discussed with particular consideration given to the nature of the interlanguage grammar at different points in development from the initial state to ultimate attainment Throughout the book hypotheses maintaining that second language grammars are constrained by universal principles are contrasted with claims that Universal Grammar is not implicated relevant empirical research is presented from both sides of the debate This textbook is essential reading for those studying second language acquisition from a linguistic perspective *Meaning in the Second Language* Roumyana Slabakova, 2008-12-10 This book reviews

recent research on the second language acquisition of meaning with a view of establishing whether there is a critical period for the acquisition of compositional semantics A modular approach to language architecture is assumed The book addresses the Critical Period Hypothesis by examining the positive side of language development it demonstrates which modules of the grammar are easy to acquire and are not subject to age effects The Bottleneck Hypothesis is proposed which argues that inflectional morphology and its features present the most formidable challenge while syntax and phrasal semantics pose less difficulty to learners Findings from the neurofunctional imaging PET fMRI and electrophysiology ERPs of L2 comprehension

are reviewed and critically examined Since it is argued that experimental tasks in those studies are mostly in need of linguistic refinement evidence from behavioral studies of L2 acquisition of semantics are brought to bear on comprehension modeling Learning situations are divided into two types those presenting learners with complex syntax but simple semantics and those offering complex semantic mismatches in simple syntactic contexts The numerous studies of both types reviewed in the book indicate that there is no barrier to ultimate success in the acquisition of phrasal semantics

Ultimate Attainment in Second Language Acquisition Donna Lardiere, 2017-09-25 The first book length treatment of its type Ultimate Attainment in Second Language Acquisition is a case study with a solid theoretical grounding that examines the language of an immigrant learner of English and thereby presents a much needed understanding of the linguistic competence of second language speakers Based on longitudinal data collected over a period of 16 years this clear and accessible presentation is well grounded in linguistic theory and in second language acquisition research issues Author Donna Lardiere presents the narrative of Patty an adult Chinese immigrant learner of English who achieves native like proficiency in some areas of her English idiolect although reaches a plateau in her language acquisition known as the concept of fossilization By addressing this concept a central idea in second language acquisition research Lardiere fills a void in existing literature Individual chapters focus on Patty s end state knowledge of grammatical areas of finiteness past tense marking word order wh movement and relativization passivization number marking and use of determiners Important topics discussed throughout the book include learner variability in production case study methodology the roles of motivation and prior language L1 knowledge and sensitivity to input in circumscribing ultimate attainment in adult second language acquisition Ultimate Attainment in Second Language Acquisition is intended for anyone whose research is in the areas of second language acquisition language acquisition theoretical applied or developmental linguistics It is also appropriate for graduate level students of TESOL and teachers who work with more advanced learners of foreign languages

The Acquisition of the DP in Modern Greek Theodoros Marinis, 2003-01-01 This book offers new data on the acquisition of functional categories in early child speech Based on longitudinal corpora of five children acquiring Modern Greek as their first language it describes the development of single DPs consisting of definite and indefinite articles complex DPs that require the use of multiple definite articles possessive constructions appositive constructions and Determiner Spreading a form of adjectival modification and number and case marking in nouns and definite articles Detailed quantitative and qualitative analyses show an incremental development of the DP The findings address the debate concerning maturation versus continuity Incremental acquisition of the DP argues in favour of a weak continuity approach to language acquisition Whilst gradual acquisition of the DP remains unexplained within the Principles and Parameters Theory it is fully compatible within Minimalism as it is argued to result from the gradual acquisition of the features associated with the Greek DP

Marking Past Tense in Second Language Acquisition Rafael Salaberry, 2008-04-22 This book presents an analysis of the difficulties faced by native speakers of English in the learning of Romance languages and in so doing proposes a comprehensive model of the acquisition of tense aspect marking While L1 speakers of English may quickly learn to identify and to some extent use the Spanish perfective and imperfective verb endings the L2 representation of tense aspect

distinctions among both beginning and advanced learners requires a comprehensive multidimensional analysis Through a detailed examination of new and existing empirical data this monograph proposes a new model for examining tense aspect marking in second language acquisition which reconciles competing alternative hypotheses This comprehensive account will be of interest to academics researching second language acquisition and applied linguistics
