The Hidden History Of The Human Race:

The Hidden History of the Human Race Michael A. Cremo, Richard L. Thompson, 1999 Over the centuries researchers have found bones and artefacts proving that modern humans have existed for millions of years Mainstream science however has suppressed these facts Prejudices based on current scientific theory act as a knowledge filter giving us a picture of prehistory that is largely inaccurate This book reveals this hidden history *The Hidden History of the Human Race* Michael A. Cremo, 1999 [The Hidden History of the Human Race](#) Michael A. Cremo, Richard L. Thompson, 1994 Over the past two centuries researchers have been finding bones and artifacts indicating that humans existed on earth millions of years ago Mainstream science has acted as what Cremo and Thompson call a knowledge filter to suppress these facts that stubbornly refuse to jibe with accepted archeological theory The authors have divided their material into two parts Accepted Evidence and I Anomalous Evidence systematically reviewing the data for everything from Java man and the Pilt down hoax to anomalous human skeletal remains and indications of ancient advanced cultures Compelling and controversial

Forbidden Archeology Michael A. Cremo, 1998 **Hidden History of the Human Race** Michael Cremo, 2014-10-07 But according to other scientists such as physical anthropologist R H Tuttle of the University of Chicago fossil foot bones of the known australopithecines of 3.6 million years ago show they had feet that were distinctly apelike Hence they were incompatible with the Laetoli prints In an article in the March 1990 issue of Natural History Tuttle confessed that we are left with somewhat of a mystery It seems permissible therefore to consider a possibility neither Tuttle nor Leakey mentioned that creatures with anatomically modern human bodies to match their anatomically modern human feet existed some 3.6 million years ago in East Africa Perhaps as suggested in the illustration on the opposite page they coexisted with more apelike creatures As intriguing as this archeological possibility may be current ideas about human evolution forbid it *Anunnaki to AI: The Hidden History of Mankind* Rick Giernoth, *The Giza Death Star Destroyed* Joseph P. Hidden History of the Human Race, 2020 **Forbidden Archeology's Impact** Michael A. Cremo, 1998 Examines the impact of the author's controversial 1993 book *Forbidden Archaeology* on the scientific community **The Hidden History of Big Brother in America** Thom Hartmann, 2022-03-08 The radio host and New York Times bestselling author reveals how government and corporations misuse our personal data and how we can reclaim our privacy Many Americans worry about how companies like Facebook invade their privacy and harvest their data but few fully understand the details of how their information is used and misused In this thought provoking book Thom Hartmann reveals exactly how the government and corporations are tracking our every online move and using our data for purposes ranging from buying elections to monetizing our lives Hartmann uses extensive vivid examples to highlight the consequences of Big Data on all aspects of our lives and traces the history of surveillance As he explains the goal of those who violate privacy and use

surveillance is almost always social control and behavior modification Along with covering the history Hartmann shows how we got to where we are today how China with its new Social Credit System serves as a warning and how we can and must avoid a similarly dystopian future By delving into the Constitutional right to privacy Hartmann reminds us of our civil right and shows how we can restore it Expertly chronicles how Big Data coercively shapes our lives to profit off us Hartmann s urgent warning about the rise of the corporate police state couldn t be timelier Maya Schenwar coauthor of *Prison by Any Other Name* Praise for Thom Hartmann Solid research Publishers Weekly Brilliant ideas and eloquent writing John Perkins author of *Confessions of an Economic Hit Man* **Disinformation Guide to Ancient Aliens, Lost Civilizations,**

Farrell,2020-12-05 There is ample evidence across our solar system of cataclysmic and catastrophic destruction events The asteroid belt for example may be the remains of an exploded planet The known planets are scarred from incredible impacts and teeter in their orbits due to causes heretofore inadequately explained Rejecting the naturalist and materialist assumptions of catastrophism forwarded by other researchers Farrell asserts that it is time to take the ancient myths of a Cosmic War in the heavens seriously Incorporating extraterrestrial artifacts cutting edge ideas in contemporary physics and the texts of ancient myths into his argument Farrell maintains that an ancient interplanetary war was fought in our own solar system with weapons of extraordinary power and sophistication In doing so he offers a solution to an enigma that has long mystified researchers disclosing a cause of that ancient war the means by which it was waged and the real nature of the secret technology behind the ancient Tablets of Destinies It is all here folks The history of the Exploded Planet hypothesis and what mechanism can actually explode a planet The role of plasma cosmology plasma physics even plasma paleophysics and scalar physics The ancient texts telling of such destructions from Sumeria Tiamat s destruction by Marduk Egypt Edfu and the Mars connections Greece Saturn s role in the War of the Titans and the ancient Americas *The Hidden History of American Democracy* Thom Hartmann,2023-07-18 America s most popular progressive radio host and New York Times bestselling author Thom Hartmann paves the way to saving our democracy In this powerful sweeping history and analysis of American democracy Thom Hartmann shows how democracy is the one form of governance most likely to produce peace and happiness among people With the violent exception of the Civil War American democracy resisted the pressure to disintegrate into factionalism for nearly two centuries and now our very system of democratic elections is at stake So how do we save our democracy Hartmann s newest book in the celebrated Hidden History Series offers a clear call to action and a set of solutions with road maps for individuals and communities to follow to create a safer more just society and a more equitable and prosperous economy **Uncommon Knowledge** Al McDowell,2012-10-26 This book develops new science of gravity and light based on

Creation vs. Evolution Frederick Guttman, In the last two centuries a powerful war has begun against all classes that call themselves theists Clearly the Catholic occultism of 14 centuries left strong meya especially in Europe The Inquisition that is the persecutions the murders the arbitrariness the robberies and the monopoly of Rome arrived even at the dawn of the Second World War but the worst damage caused by them was to make the world see in Catholicism the representative image of God and as such a great hatred was created for everything related to religion We know that Catholicism was born in the year 325 AD in the days of Constantine but the religious dictatorship was not born there because 3 centuries later another pioneer revived religious wars putting them at the level of battle lines Between Islam and Catholicism they led the free world to they detested God because in them they saw a reflection of the God that the Bible spoke of Although the true message of God was lost at the end of the first century at the time of its precursors the Messianic Jews or Christian Jews as they were called in Antioch had perished

Genes, Giants, Monsters, and Men Joseph P. Farrell, 2011 Part conspiracy theory part popular science Genes Giants Monsters and Men explores the possibility that the history of the human race is not as simple as has been taught in

textbooks Farrell considers how the religious stories that have often been the core basis for mankind's understanding of where it belongs in the history of creation may actually reveal a planet occupied with tyrannical giants and an elite race bent on genetic mutation
