An Elizabethan diary discovered in 1960 has offered new insight into his secret marriage to Elizabeth Throckmorton one of the Queen's Ladies in Waiting      Sir Walter Raleigh: His Life and Times F. *Love, Madness, and Scandal* Johanna Luthman, 2017-02-23 The high society of Stuart England found Frances Coke Villiers Viscountess Purbeck 1602-1645 an exasperating woman. She lived at a time when women were expected to be obedient, silent and chaste, but Frances displayed none of these qualities. Her determination to ignore convention contributed in no small measure to a life of high drama, one which encompassed kidnappings, secret rendezvous, an illegitimate child, accusations of black magic, imprisonments, disappearances and exile, not to mention court appearances, high speed chases, a jail break, deadly disease, royal fury and by turns religious condemnation and conversion. As a child, Frances became a political pawn at the court of King James I. Her wealthy parents themselves trapped in a disastrous marriage fought tooth and nail over whom Frances should marry, pulling both king and court into their extended battles. When Frances was fifteen, her father forced her to marry John Villiers, the elder brother of the royal favourite, the Duke of Buckingham. But as her husband succumbed to mental illness, Frances fell for another man and soon found herself pregnant with her lover's child. The Viscountess paid a heavy price for her illicit love. Her outraged in-laws used their influence to bring her down. But bravely defying both social and religious convention, Frances refused to bow to the combined authority of her family, her church or her king and fought stubbornly to defend her honour as well as the position of her illegitimate son. On one level, a thrilling tale of love and sex, kidnapping and elopement, the life of Frances Coke Villiers is also the story of an exceptional woman whose personal experiences intertwined with the court politics and religious disputes of a tumultuous and crucially formative period in English history.      **The Queer Cultures of 1930s Prose** Charlotte Charteris, 2019-01-04 Offering a radical reassessment of 1930s British literature, this volume questions the temporal limits of the literary decade and broadens the scope of queer literary studies to consider literary historical responses to a variety of behaviours encompassed by the term

queer in its many senses Whilst it is informed by the history of sexuality in twentieth century Europe it is also profoundly concerned with what Christopher Isherwood termed the market value of the Odd Drawing for its methodology on the work of Raymond Williams it traces the impact of the Great War on the development of language examining the use of ten keywords in the prose of Christopher Isherwood Evelyn Waugh and Patrick Hamilton and that of their respective literary milieux in order to establish how queer lives and modern sub cultural identities were forged collaboratively within the fictional realm By utilizing contemporary perspectives on performativity in conjunction with detailed close readings it repositions these authors as self conscious agents actively producing their own queer masculinities through calculated acts of linguistic transgression

*Women of Will* is a fierce and funny exploration of Shakespeare's understanding of the feminine. Tina Packer, one of our foremost Shakespeare experts, shows that Shakespeare began in his early comedies by writing women as shrews to be tamed or as sweet little things with no independence of thought. The women of the history plays are much more interesting, beginning with Joan of Arc. Then with the extraordinary Juliet, there is a dramatic shift: suddenly Shakespeare's women have depth, motivation, and understanding of life more than equal to that of the men. As Shakespeare ceases to write women as predictable caricatures and starts writing them from the inside, his women become as dimensional, spirited, spiritual, active, and sexual as any of his male characters. Wondering if Shakespeare had fallen in love, Packer considers with whom and what she may have been like. The author observes that from Juliet on, Shakespeare's characters demonstrate that when women and men are equal in status and passion, they can and do change the world. **The Aspiring Mind of the Elizabethan**

**Younger Generation** Anthony Esler, 1966. This book applies the generational concept so useful to students of our own time to the study of Elizabethan history. Written in the form of a group biography of a generation of Renaissance English aristocrats born about the year 1560, this study focuses on the courtier class and their aspirations for military honor and political power. The social, intellectual, and historical factors that produced their hard-driving personal ambition are examined and illustrated in the careers of such celebrated Elizabethan courtiers as Sir Walter Raleigh, Sir Robert Cecil, the Earl of Essex, and the Buccaneer Earl of Cumberland. The young courtiers of this generation, passionate questers after honor and glory, went to war against the Spaniards in the 1580s and did their share to help defeat the Spanish Armada in 1588. Thereafter, in the 1590s, they intrigued feverishly at the court of the aging Queen Elizabeth for political influence and high place. The impact of war and politics on these young men and on their exalted aspirations for power and glory were duly chronicled and anatomized by the perceptive writers of their generation. The role of the literary and philosophical reflections of these high-aspiring minds in the birth and spread of the idea of progress are studied in the writings of such diverse talents as Francis Bacon, Christopher Marlowe, Sir Phillip Sidney, Edmund Spenser, and William Shakespeare. As young men, the generation of 1560 felt that the young generation of their fathers, who were in power, was holding them in check and was too conservative. But when they were themselves middle-aged or growing old, their ambition was still unrealized. This failure and the resulting frustration were basic causes of the melancholy mood of the late Elizabethan and Jacobean times. As this melancholy view of the world became widespread, the generation of 1560 began to see the validity of their father's lessons. They became more conservative and like their predecessors a half century before, they began to realize their arrogant ambition often led to disaster.
