across the deep Cynfal gorge was Ffestiniog a pack of slate grey elephants following their leader the unsteeped church down a spur of hill towards the valley Behind and above stood the Moelwyn range I was smoking my second cigarette when I heard Plaxy s voice in the distance It was her voice that had first attracted me to her Sitting in a cafe I had been enthralled by that sensitive human sound coming from some unknown person behind me And now once more I heard but did not see her For a moment I listened with delight to her speech which as I had often said was like the cool sparkling talk of small waves on the pebbly shore of a tarn on a hot day I rose to meet her but something strange arrested me Interspersed with Plaxy s remarks was no other human voice but a quite different sound articulate but inhuman Just before she came round the corner of the house she said But my dear don t dwell on your handlessness so You have triumphed over it superbly There followed a strange trickle of speech from her companion then through the gate into the garden came Plaxy and a large dog

**Modernism and Time Machines** Tung Charles M. Tung, 2019-03-14 Bridging modernist studies and science fiction scholarship Modernism and Time Machines places the fascination with time in canonical works of twentieth century literature and art side by side with the rise of time travel narratives and alternate histories in popular culture Both modernism and this cardinal trope of science fiction produce a range of effects and insights that go beyond the exhilarations of simply sliding back and forth in history Together the modernist time obsession and the fantasy of moving in time help us to rethink the shapes of time the consistency of timespace and the nature of history Key Features Draws on insights from a range of sources including critical geography postcolonial theory science and technology studies and time studies Examines different kinds of objects together SF Impressionism and Henri Lefebvre's rhythm analysis evolutionary biology Eliot's The Waste Land and Leinster's Sidewise in Time Woolf Philip K Dick's alternate history and the film Interstellar bullet time Faulkner's racialized lag and Jessica Hagedorn's postcolonial anachronism e big history e Olaf Stapledon's two billion year novel of the human species and Terrence Malick's film Tree of Life [Animals and Science](#) Maggie Bolton, Cathrine Degnen, 2020-05-15 What exactly does a focus on animals bring to anthropological studies of science This is a question that the various contributors to this edited collection set out to answer This range of studies explores the intersections between animals and science across different ethnographic settings and in different historical periods The contributions to this volume look at what it means to be human the place of human beings vis vis other species on this planet our ideas of what nature and culture are the limits to our ideas of kinship the ethical debates that surround science together with their interpretation by both scientific communities and the lay public and the moral comportment of scientists Through focusing on science our contributors not only demonstrate that people elsewhere have different relationships with and knowledge of beasts and that different possibilities of relating to animals exist within our own Western worldview but further

suggest that our Western knowledge about animals and their positions in society arrived at through Western science and the social sciences is itself in need of rethinking to incorporate other ways of knowing This volume contends that accounts in which animals meet science provide important theoretical insights for anthropologists and can set new agendas for theory in anthropology and science studies
