Handbook of Methods in Cultural Anthropology H. Russell Bernard, Clarence C. Gravlee, 2014-07-08 The Handbook of Methods in Cultural

Anthropology now in its second edition maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including the rising prominence of mixed methods, the emergence of new technologies, and evolving views on ethnographic writing. Spanning the chain of research from designing a project through methods of data collection and interpretive analysis, the Handbook features new chapters on ethnography of online communities, social survey research, and network and geospatial analysis. Considered discussion of ethics, epistemology, and the presentation of research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals, and advanced students who employ fieldwork.

*Inalienable Possessions* Annette B. Weiner, 1992-05-13 *Inalienable Possessions* tests anthropology's traditional assumptions about kinship, economics, power, and gender in an exciting challenge to accepted theories of reciprocity and marriage exchange. Focusing on Oceania societies from Polynesia to Papua New Guinea and including Australian Aborigine groups, Annette Weiner investigates the category of possessions that must not be given or if they are circulated must return finally to the giver. Reciprocity, she says, is only the superficial aspect of exchange which overlays much more politically powerful strategies of keeping while giving. The idea of keeping while giving places women at the heart of the political process, however much that process may vary in different societies for women possess a wealth of their own that gives them power. Power is intimately involved in cultural reproduction, and Weiner describes the location of power in each society, showing how the degree of control over the production and distribution of cloth wealth coincides with women's rank and the development of hierarchy in the community. Other inalienable possessions, whether material objects, landed property, ancestral myths, or sacred knowledge, bestow social identity and rank as well. Calling attention to their presence in Western history, Weiner points out that her formulations are not limited to Oceania. The paradox of keeping while giving is a concept certain to influence future developments in ethnography and the theoretical study of gender and exchange. *Abstracts Journal of*
