**State Power in Ancient China and Rome** Walter Scheidel, 2014-12-01 Two thousand years ago the Qin Han and Roman empires were the largest political entities of the ancient world developing simultaneously yet independently at opposite ends of Eurasia Although their territories constituted only a small percentage of the global land mass these two Eurasian polities controlled up to half of the world population and endured longer than most pre modern imperial states Similarly their eventual collapse occurred during the same time The parallel nature of the Qin Han and Roman empires has rarely been studied comparatively Yet here is a collection of pioneering case studies compiled by Walter Scheidel that sheds new light on the prominent aspects of imperial state formation This essential new volume builds on the foundation of Scheidel's Rome and China 2009 and opens up a comparative dialogue among distinguished scholars They provide unique insights into the complexities of imperial rule including the relationship between rulers and elite groups the funding of state agents the determinants of urban development and the rise of bureaucracies By bringing together experts in each civilization State Power in Ancient China and Rome provides a unique forum to explore social evolution helping us further understand government and power relations in the ancient world

**Informal Cities** Charlotte Vorms, Brodwyn Fischer, 2025-09-04 An empirically rich reconstruction of how informality became an intrinsic part of urban life across three continents Over a quarter of the world's urban population lives in informal settlements While informality as a concept has been widely debated we still know very little about the phenomenon's urban history or how that history has shaped the evolution of world cities Spotlighting the historical processes that have created and sustained urban informality for more than a century editors Charlotte Vorms and Brodwyn Fischer and this volume's contributors reveal informality as an intrinsic feature of urbanity shaping not only cities across the globe but also deeper processes of state formation socioeconomic stratification and political struggle The volume brings together case studies spanning more than a hundred years drawn from Latin America Brazil Chile Venezuela and Mexico Northern Africa Morocco and Algeria and Latin Europe France Spain and Italy Together they show that informality is neither a contemporary crisis nor a predicament unique to the Global South Topics include the origins of informal settlements and their relationship with law and institutional power grassroots efforts to legitimize shantytown communities mass social movements for rights to the city the role that shantytown removal campaigns played in populist politics fascism and colonialism and the ways that informality perpetuated racial and ethnic inequalities Informal Cities is an indispensable guide to the complex and fraught terrain of urban informality in its many historical guises
