Women's Work Ellen Cole,Esther D Rothblum,Donna M Ashcraft,2013-04-03 While most women s studies texts function topically as readings for courses and general use *Women s Work A Survey of Scholarship By and About Women* takes a broad spectrum of women s disciplines psychological artistic religious and philosophical and gives you a diverse interdisciplinary view of this important and ever expanding field of study in one accessible volume You ll see that women are leading the world into the twenty first century in such areas as education business health and science You ll also find your appreciation for the

current developments in women's studies increase as you see how far reaching and multifaceted this crucial discipline really is. *Women's Work* avoids the compilations of topical readings that tend to bog down typical women's studies courses and explores the different disciplines that continue to make this field central to the development of the academic world community. You'll find your perspective on women's studies expand and take on new meaning as you delve into these and other areas: feminist approaches to research the lack of women in science and feminist critiques of science; women and health psychology and discussions on sex differences, sex similarities and gender roles; communication differences between men and women; women in literature, art history and metaphysics; Judeo-Christian religions and goddess religions. This comprehensive compendium has something for everyone interested in the massive contribution that women have made and will continue to make in all areas of human development. All readers, especially women's studies scholars, professors, students and informed members of the general public looking for an excellent up to date resource concerning the general direction of feminist disciplines today will definitely want a copy of *Women's Work*. [Tourism, Ethnic Diversity and the City](#) Jan Rath, 2007-05-07 Informative and enlightening. Rath fills a gap in existing research in terms of how immigration relates to urban tourism and investigates the new theoretical insights using revealing international case studies. *Britain's Cities* Michael Pacione, 2002-11-01 Uneven distribution of life is a dominant feature of the city. Major social, economic and spatial divisions are apparent in terms of income and wealth, health, crime, housing and employment. This text offers an introduction to current processes of urban restructuring, geographies of division and contemporary conditions within the city. The geography of Britain's cities is the outcome of interaction between a host of public and private economic, social and political forces operating at a variety of spatial scales from the global to the local. A deeper understanding of the nature of urban division and of the problems of and prospects for local people and places in urban Britain must be grounded in an appreciation of the structural forces, processes and contextual factors which condition local urban geographies. This book combines structural and local level perspectives to illuminate the complex geography of socio-spatial division within urban Britain. It combines conceptual and empirical analyses from researchers in the field. [Contemporary Issues Here and Abroad](#) Helen Huus, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas. **Maritime Heritage in Crisis** Richard M. Hutchings, 2016-12-08 Grounded in critical heritage studies and drawing on a Pacific Northwest Coast case study, *Maritime Heritage in Crisis* explores the causes and consequences of the contemporary destruction of Indigenous heritage sites in maritime settings. Maritime heritage landscapes are undergoing a period of unprecedented crisis; these areas are severely impacted by coastal development, continued population growth and climate change. Indigenous heritage sites are thought to be particularly vulnerable to these

changes and cultural resource management is frequently positioned as a community's first line of defense yet there is increasing evidence that this archaeological technique is an ineffective means of protection Exploring themes of colonial dislocation and displacement Hutchings positions North American archaeology as neoliberal statecraft a tool of government designed to promote and permit the systematic clearance of Indigenous heritage landscapes in advance of economic development Presenting the institution of archaeology and cultural resource management as a grave threat to Indigenous maritime heritage Maritime Heritage in Crisis offers an important lesson on the relationship between neoliberal heritage regimes and global ecological breakdown *Community Cohesion in Crisis?* John Flint, David Robinson, 2008-07-23 This book examines how new dimensions of diversity and difference so often debated in the national context are emerging at the neighbourhood level

development practitioners *Cities In Space* Prof David Herbert, Dr Colin Thomas, 2013-11-26 This is the third major revision of a text first published in 1982 with the title *Urban Geography A First Approach* and in 1990 as *Cities in Space City as Place*. The study of urban geography remains an important part of the geographical curriculum both in schools and in higher education. This book analyses life in an urban society and in a world which is being transformed by the processes of urbanization. To study urban geography is to study environments and phenomena significant to our everyday lives. This is an introductory text which aims to present both more traditional and newer approaches to urban geography in an accessible and educational way.

Modern Environmentalism David Pepper, 2002-06 Examining key environmentalist ideas within their social and historical context, this book analyses the diverse views within the science-nature debate, addresses questions of social change and suggests how to establish the desired ecological society.

Fear and Schooling Ronald W. Evans, 2019-09-23 By exploring the tensions, impacts and origins of major controversies relating to schooling and curricula since the early twentieth century, this insightful text illustrates how fear has played a key role in steering the development of education in the United States. Through rigorous historical investigation, Evans demonstrates how numerous public disputes over specific curricular content have been driven by broader societal hopes and fears. Illustrating how the population's concerns have been historically projected onto American schooling, the text posits educational debate and controversy as a means by which we struggle over changing anxieties and competing visions of the

future and in doing so limit influence of key progressive initiatives Episodes examined include the Rugg textbook controversy the 1950s crisis over progressive education the MACOS dispute conservative restoration culture war battles and corporate school reform In examining specific periods of intense controversy and drawing on previously untapped archival sources the author identifies patterns and discontinuities and explains the origins development and results of each case Ultimately this volume powerfully reveals the danger that fear based controversies pose to hopes for democratic education This informative and insightful text will be of interest to graduate and postgraduate students researchers and academics in the fields of educational reform history of education curriculum studies and sociology of education
