**Changing the Heart of Social Policy-Making** Catherine E. Johnson, 2025-07-24 Effective social policy making has been debated for decades by policy makers scholars and the general public As elected officials have lost sight of their purpose in a climate of extreme polarization and partisan politics disappointment and distrust of our government institutions have swelled This book highlights the importance of a change in the hearts and minds of legislators and provides a new perspective on addressing the public s desire for more effective and humane social policies Covering the legislative and social policy making process from a historical and contemporary perspective this book identifies powerful interest groups and corporate dollars which influence our legislative process and erode sound policy ideas and solutions The book also explores a new generation of youth voters which can influence election and policy outcomes the current mental health crisis and the importance of evidence based research in designing social policies Several topics are illuminated by real life experiences case studies and practical guidelines

*Decentralization, Local Governance, and Social Wellbeing in India* Rani Mullen, 2017-05-18 Over the past three decades decentralization has been seen as the means for allowing local governments to become more accountable and for encouraging the deepening of democracy and the building of village communities By drawing on original village level case studies of six villages in three different Indian states this book presents a systematic analysis of the impact of decentralization on the delivery of social services at the local level within India Supplementing national and state level data and analyzing the different historical legacies in each state the book argues that decentralization is not simply a function of the structure of the decentralization program or of the relationship between higher tiered and local government Rather the possibility of decentralization affecting social outcomes depends on several interacting factors including the distribution of power among local elites the dynamics of political competition and the level of civil society mobilization By examining constitutionally mandated political decentralization across India this book identifies the circumstances under which local government structures can lead to improved social services and societal wellbeing as well as presenting a substantial contribution to studies on South Asian Politics and Local Government

**Social Programs**

**that Work** Jonathan Crane,1998-05-07 Many Americans seem convinced that government programs designed to help the poor have failed *Social Programs That Work* shows that this is not true Many programs have demonstrably improved the lives of people trapped at the bottom of the social and economic ladder *Social Programs That Work* provides an in depth look at some of the nation s best interventions over the past few decades and considers their potential for national expansion Examined here are programs designed to improve children s reading skills curb juvenile delinquency and substance abuse and move people off welfare into the workforce Each contributor discusses the design and implementation of a particular program and assesses how well particular goals were met Among the critical issues addressed Are good results permanent or do they fade over time Can they be replicated successfully under varied conditions Are programs cost effective and if so are the benefits seen immediately or only over the long term How can public support be garnered for a large upfront investment whose returns may not be apparent for years Some programs discussed in this volume were implemented only on a small experimental scale prompting discussion of their viability at the national level An important concern for social policy is whether one shot programs can lead to permanent results Early interventions may be extremely effective at reducing future criminal behavior as shown by the results of the High Scope Perry preschool program Evidence from the Life Skills Training Program suggests that a combination of initial intervention and occasional booster sessions can be an inexpensive and successful approach to reducing adolescent substance abuse *Social Programs That Work* also acknowledges that simply placing welfare recipients in jobs isn t enough they will also need long term support to maintain those jobs The successes and failures of social policy over the last thirty five years have given us valuable feedback about the design of successful social policy *Social Programs That Work* represents a landmark attempt to use social science criteria to identify and strengthen the programs most likely to make a real difference in addressing the nation s social ills *Social Issues in China* Zhidong Hao,Sheying Chen,2013-08-23 Since 1978 the opening up and reform in China has brought tremendous economic and social changes While China s economic progress has been commendable the social problems that go with economic changes have raised serious concerns Some of those concerns are related to gender ethnic labor and environmental issues This book is about what has happened in these arenas in China since the opening up and reform in 1978 The study of gender ethnicity labor and environment touches on some of the fundamental problems of modernization especially the development of individuals and groups So even though gender ethnicity labor and environment seem to be separate issues they are in fact related in some fundamental ways That s what this book will explore as well To understand is one thing and to do is another This book also incorporates studies of NGO practices to see how NGOs have helped in transforming gender ethnic labor and environment interplay Our study of NGOs in helping improve such interplay sheds light on how specifically civil society can prod the state to transform social relations for the better This book is an attempt to assess the changes both positive and negative in gender ethnic ethnic and environmental relations in China especially in the past 30 years of opening up and

reform especially regarding national identity formation

### **Revisiting Targeting in Social Assistance** Margaret

Grosh, Phillippe Leite, Matthew Wai-Poi, Emil Tesliuc, 2022-06-02 Targeting is a commonly used but much debated policy tool within global social assistance practice Revisiting Targeting in Social Assistance A New Look at Old Dilemmas examines the well known dilemmas in light of the growing body of experience new implementation capacities and the potential to bring new data and data science to bear The book begins by considering why or whether or how narrowly or broadly to target different parts of social assistance and updates the global empirics around the outcomes and costs of targeting It illustrates the choices that must be made in moving from an abstract vision to implementable definitions and procedures and in deciding how the choices should be informed by values empirics and context The importance of delivery systems and processes to distributional outcomes are emphasized and many facets with room for improvement are discussed The book also explores the choices between targeting methods and how differences in purposes and contexts shape those The know how with respect to the data and inference used by the different household specific targeting methods is summarized and comprehensively updated including a focus on big data and machine learning A primer on measurement issues is included Key findings include the following Targeting selected categories families or individuals plays a valuable role within the framework of universal social protection Measuring the accuracy and cost of targeting can be done in many ways and judicious choices require a range of metrics Weighing the relatively low costs of targeting against the potential gains is important Implementing inclusive delivery systems is critical for reducing errors of exclusion and inclusion Selecting and customizing the appropriate targeting method depends on purpose and context there is no method preferred in all circumstances Leveraging advances in technology ICT big data artificial intelligence machine learning can improve targeting accuracy but they are not a panacea better data matters more than sophistication in inference Targeting social protection should be a dynamic process
