

Social Theories of Aging

Disengagement theory	To cope effectively, older adults should gradually withdraw from society
Activity theory	The more active and involved older adults are, the more likely they are to be satisfied with their lives
Social breakdown-reconstruction theory	Breakdown begins by negative views of older adults, ends by labeling self; social reconstruction brought about by viewing older adults as competent

Social Theory And Aging:

Social Theory and Aging Jason L. Powell, 2006 This book explores both conceptual and theoretical issues that impinge on understanding aging in post modern society It analyses how knowledge formation of aging with particular reference to old age in contemporary western society is socially constituted and positioned by powerful taken for granted assumptions These assumptions have provided a power knowledge base for bio medical disciplines legitimacy of political economic discourses and practices of professional experts The book is in two parts the first part introduces modernist scientific models and theories of gerontology and questions their importance in mapping out the assumptions of aging and how they impinge on identity performance in society through disciplinary matrix of biology psychology and social conceptualizations of gerontology the second part focus upon postmodern constructions aging through the articulation and development of novel epistemologies postmodernism and aging body discourse and power knowledge and aging in the risk society The book addresses a key question can meta theories provide an effective analysis of aging which is radically different from modernist grand narratives as epitomized by not only bio medical models of aging but also of mainstream social theories of gerontology

Social Theory, Social Policy And Ageing: A Critical Introduction Biggs, Simon, Estes, Carroll, Phillipson, Chris, 2003-11-01 This work covers theoretical developments and issues influencing the study of adult ageing It explores contemporary trends in social policy drawing on the experience of ageing in the USA Europe and an increasingly global environment Feminist perspectives on ageing are also covered Social Theories of Aging Pamela Pitman Brown, Kelly Niles-Yokum, Hallie Baker, 2019-07-26 Social Theories of Aging A Brief Synopsis introduces students to a broad spectrum of social theories on aging Each theory is categorized as first second or third generation according to three theoretical levels micro level individual aging theories macro level societal aging theories and micro macro level emerging theories The book provides students not only with a synopsis of key theories but with the agency to create their own knowledge and search for answers wit **The Social Theories of Ageing** Pohl Ron, 2017-06-20 Essay from the year 2014 in the subject Sociology Old Age grade 5 0 University of Michigan language English abstract Ageing is a constant process that every individual goes through as long as there is still life This process is an essential part of nature as it ensures that the homeostasis of the universe is kept constant Ageing has to do with the additive effects of changes that occur over time and in human beings refers to the multidimensional progression of biological psychological and social changes that occur In humans ageing has its advantages and disadvantages which reflect the growth and expansion of some dimensions of human life while on the other hand others decline The inevitability of ageing has driven a whole lot of researches into finding out how and why ageing occurs This is why there has been several theories developed to help understand the phenomenon of ageing The social theories of ageing offer a much different perspective as regards the inevitable process of ageing its meanings and its impact on the ageing individuals themselves and the general society Even though there are existing controversies about the accuracy of these

theories the response of the society to the care and support of the elderly is still being governed by some of the characteristics and factors described by the theoretical assumptions

Social Theory and Regional Studies in the Global Age Saïd Amir Arjomand, 2014-05-19 In this pioneering volume leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age *Social Theory and Regional Studies in the Global Age* moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities Different patterns of modernization are compared within the framework of global local compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory

Toward a Sociological Theory of Religion and Health, 2011-07-12 Driven by funding agencies empirical research in the social scientific study of health and medicine has grown in quantity and developed in quality When it became evident in what is now a tradition of inquiry that people's religious activities had significant health consequences a portion of that body of work began to focus more frequently on the relationship between health and religion The field has reached a point where book length summaries of empirical findings especially those pertinent to older people can identify independent mediating and dependent variables of interest Every mediating variable even if considered as a control variable represents an explanation a small theory of some kind However taken in granular form as it were the multiple theories do not comprise mid level theory let alone a general theoretical framework This volume seeks to move toward more general theoretical development Contributors include Alex Bierman Sherry Cummings Christopher G Ellison Andrea K Henderson Barbara Kilbourne Neal Krause Jeff Levin Robert S Levine Eric Liu Michael K Roemer Scott Schieman and Ephraim Shapiro

Classical and Contemporary Social Theory Tim Delaney, 2024-03-22 The second edition of *Classical and Contemporary Social Theory* provides wraparound coverage of the classical social theorists and influential sociological schools of thought in the contemporary period Explained carefully and clearly throughout Tim Delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material He weaves together profiles of leading theorists thorough descriptions of major academic and intellectual perspectives and discussion of

prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so in the future The book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events In this new edition Delaney revisits the classical period and highlights the special contributions of American social theorists and their impact on the diversity of thought leading into the contemporary era He attends to later schools of thought and weaves in important updates related to critical race theory and globalization With updated context and further applications the second edition of Classical and Contemporary Social Theory is a perfect addition to combined courses in social theory

THE TRANSITION OF DANWEI-COMMUNITY AND URBAN COMMUNITY REBUILDING Tian Yi-Peng, 2021-11-18 In this work the author endeavors to treat Danwei system as a special and highly organized form of community and sets about his study from the perspectives of Danwei community s change and urban community reconstruction When it comes to the construction and development of urban communities in contemporary China academic circles at home often attempt to unravel its intimate and indissoluble connection with Danwei system and seek to lay emphasis upon the great complexity of their interactive relationship with each other However academic circles generally incorporate Danwei system taken as a national system as well as a universal institution into their fields of research whereas they rarely enter into a critical examination of the variations in its multiplicity of specific denotations by taking account of such variables as space region and culture nor do they show much concern about the existence of different types of Danwei In view of the foregoing difficulties in which the study of Danwei system gets entangled this study attempts to accomplish the following main purposes Firstly this study shall introduce such a variable as locality into the research on Danwei community by starting off from the research perspectives of Danwei community s origin formation and change Secondly several super large industrial communities in the old industrial bases shall be chosen as classic cases in illustration of long standing complications and entanglements enmeshed in this study And thirdly it seeks to reveal the mode and experience of urban community development against a background of Danwei system reform so that by gaining a full understanding of as well as making an in depth analysis of their rich implications we can enrich the theory of urban community construction in the Chinese context and hence grapple successfully with some theoretical problems confronting urban community reconstruction against a background of Danwei community change which shall eventually bring about a smooth transition of Danwei society This book will assuredly open an exceptional window to the transition of China from traditional to modern society the transition of Chinese society from planned economy to market economy and the change track of the interplay between the Chinese government and modern Chinese society after the founding of New China in 1949 at the present time and even in the foreseeable future

New Directions in Social Theory Kate Reed, 2006-05-18 This book contributes to the growing debates about social theory and its role through a discussion of the ways in which

gender and race contributed to the exclusion of important thinkers from the sociological canon John Hughes Lancaster University Who makes up the canon of sociology and who doesn't Does sociology need a canon in the first place Beyond Social Theory offers an innovative and passionate contribution to debates on the history and development of sociology and the exclusion of theorists who are female black or both from the mainstream of social theorizing With compelling biographical sketches bringing the dynamics behind the canon to life Kate Reed focuses sharp analysis on the exclusion of theorists on race and gender from important debates on inequality An important contribution to the debate on non exclusionary theory this book critically examines existing accounts of the history of the discipline situating the development of social theory within a wider social and political context

Sociology of Aging and Death Jason Powell, 2022-11-25 This book presents a critical analysis and examination of the major theories and social issues in the social construction of aging and death It is concerned with the impact of death and places how our experiences of death are transformed by the roles that truth and discourse about aging play in everyday life A major element of the book is an examination of the way in which groups and individuals employ specific representations of mortality in order to construct meaning and purpose for life and death To accentuate this the book provides an investigation into the social construction of death practices across time and space Special attention is given to the notion of death as a socially accomplished phenomenon grounded in a unique sociological introduction to the meaning of death throughout history to the present The purpose of this book is to critically inform debates concerning the abstract and empirical features of death examined through the lens of sociological perspectives This book explores the emergent biomedical dominance relating to ageing and death An alternative is advocated which re interprets ageing for Graduate schools This innovative book explores the concept history and theory of aging and its relationship to death Traditionally many books have focused on older people dying of natural causes a biomedical explanatory framework This book looks at alternative social theories and experiences with aging and relate to death in different countries victims crime imprisonment and institutional care Are these deaths avoidable If so what are the solutions the book addresses This is one of the first books that re interprets aging and its relationship of examples of death It will be of essential reading for graduate students and researchers in understanding these different examples of aging and death across the globe
