these areas      Media and Global Civil Society L. Dencik, 2011-11-20 A timely and critical investigation into the way media operates in a so called global age presenting new empirical data on key sites of news production and crucially tying these findings to ongoing debates on globalization and democracy      Journalism: Critical Issues Allan, Stuart, 2005-01-01 Over the years it has been frequently remarked that journalism is at a crossroads indeed so often that it risks sounding somewhat clichéd yet there is every indication that its very forms practices and institutions are being decisively transformed with startling implications Accordingly the principal aim of this book is to help provide the basis for new dialogues to emerge regarding journalism today as well as about where it may be heading tomorrow Journalism Critical Issues poses a series of important questions afresh questions deserving of much greater attention than they have typically received to date Each of the contributors seeks to challenge conventional ways of thinking about the critical issue at stake in their respective chapter In so doing it is their intention to further our understanding but also to encourage future explorations with the potential to revitalise journalism studies In adopting this approach it is hoped that the book will make for a lively argumentative in the best sense of the word and engaging intervention      *Moral Panics And The Media* Critcher, Chas, 2003-03-01 Chas Critcher's study is doubly welcome as it discusses theoretical underpinnings thoroughly and also provides a set of illustrative case studies This is an important and stimulating book for a range of audiences VISTA Vol 8 no 3 How are social problems defined and responded to in contemporary society What is the role of the media in creating endorsing and sustaining moral panics The term moral panic is frequently applied to sudden outbreaks of concern about social problems Chas Critcher critically evaluates the usefulness of moral panic models for understanding how politicians the public and pressure groups come to recognise apparent new threats to the social order and he scrutinizes the role of the media especially the popular press Two models of moral panics are identified and explained then applied to a range of case studies AIDS rave culture and the drug ecstasy video nasties child abuse paedophilia Examples of moral panics from a range of countries reveal many basic similarities but also significant variations between different national contexts The conclusion is that moral panic remains a useful tool for analysis but needs more systematic connection to wider theoretical concerns especially those of the risk society and discourse analysis      *Media Power in Hong Kong* Charles Chi-wai Cheung, 2016-02-12 Studies of Hong Kong media primarily examine whether China will crush Hong Kong's media freedom This book however traces the root problem of Hong Kong media back to the colonial era demonstrating that before the resumption of Chinese sovereignty there already existed a uniquely Hong Kong brand of hyper marketized and oligopolistic media system The system encouraged by the British colonial government was subsequently aggravated by the Chinese government This peculiar system is highly susceptible to state intervention and structurally disadvantaged dissent and marginal groups before and after 1997 The book stresses that this hyper marketized media system has been constantly challenged Through a historical study of media stigmatization of youth this book proposes that over the years various counter forces have penetrated the structurally

lopsided Hong Kong media independent public popular and news media all make occasional subversive alliances to disrupt the mainstream and news media with a strong liberal professionalism provide the most subversive space for challenging cultural hegemony The book offers an alternative and fascinating account of the dynamics between hegemonic closure and day to day resistance in Hong Kong media in both the colonial and post colonial eras arguing that the Hong Kong case generates important insights for understanding ideological struggles in capitalist media      **Media and Health** Clive Seale,2003-01-17 This book appears to fill a substantial gap in the literature at present There are quite simply no books available which engage seriously and competently with the presentation of health issues in the media and certainly none which focuses on representations of health and illness in as thematically coherent a manner as Seale proposes to do Richard Gwyn University of Cardiff This is an excellent resource for students It provides a comprehensive review of secondary literature in the field and is very well researched Students of sociology of health and illness and in media and communication studies will find the book invaluable David Oswell Goldsmiths College University of London This is a comprehensive work on media health providing an invaluable toolkit for understanding health and the media in contemporary society Seale goes further than previous textbooks critiquing the lament of media health promoters in order to explore the moralisation and commercialisation of media health Dr Annette Hill University of Westminster How are health matters presented by the mass media How accurate are the messages we are receiving This book demonstrates how health messages in popular mass media are important influences in our lives and that they are not neutral being subject to many determining influences It demonstrates the importance of mass media for understanding the experience of illness health and health care bringing together the latest thinking in the field of media studies and the sociology of health and illness This book provides a thorough review of research literature on media representations of health illness and health care covering their production characteristic forms and relationships with the everyday lives of media audiences It brings together both well known and lesser known studies in the context of an integrated sociological argument about media and health Media producers are subject to a variety of influences from medical lobbies scientific organizations and not least the commercial pressure to satisfy media saturated audiences These mean that aims of health promoters are not always easily achieved leading to considerable tensions that require a deeper understanding of media health than has hitherto been applied to them This book will be essential reading for health educators and promoters as well as health care providers interested in the cultural aspects of health sociologists of health and illness and students and academics of media studies      Media and Crime in the U.S. Yvonne Jewkes, Travis Linnemann,2017-07-27 The rise of mobile and social media means that everyday crime news is now more immediate more visual and more democratically produced than ever Offering new and innovative ways of understanding the relationship between media and crime Media and Crime in the U S critically examines the influence of media coverage of crimes on culture and identity in the United States and across the globe With comprehensive coverage of

the theories research and key issues acclaimed author Yvonne Jewkes and award winning professor Travis Linnemann have come together to shed light on some of the most troubling questions surrounding media and crime today     **Social Issues in Television Fiction** Lesley Henderson, 2007-06-06 Why are some controversial issues covered in TV soaps and dramas and not others How are decisions really made behind the scenes How do programme makers push boundaries without losing viewers What do audiences take away from their viewing experience Does TV fiction have a greater impact on public understandings than TV news This exciting new book draws on unique empirical data to examine the relationship between popular television fiction and wider society The book gives lively and engaging insights into how and why socially sensitive story lines were taken up by different TV programmes from the late 1980s to the 2000s Drawing on a series of case studies of medicine health illness and social problems including breast cancer mental distress sexual abuse and violence it comprehensively traces the path of storylines from initial conception through to audience reception and uses contemporary examples to link practice to theory For the first time this book addresses production and receptio
