Social Security and Solidarity in the European Union Joos P a Van Vugt, Jan M Peet, 2000-11-16

The European Union and Social Security Law Jaan Paju, 2017-08-24 The aim of this book is to examine how EU law relates to and impacts on the national social security systems of the Member States It asks three key questions Firstly it looks at how the internal market and its developments have eroded Member States sovereignty over their social security systems despite the fact that the EU has limited competence in the field It then explores secondly how the Union Citizenship and thirdly the Charter of Fundamental Rights has affected the coordination of these regimes

*A Constitutional Order of States?* Anthony Arnall, Catherine Barnard, Michael Dougan, Eleanor Spaventa, 2011-03-03 This collection celebrates the career of Professor Alan Dashwood a leading member of the generation of British academics who organised explained and analysed what we now call European Union law for the benefit of lawyers trained in the common law tradition It takes as its starting point Professor Dashwood's vivid description of the European Union as a constitutional order of states He intended that phrase to capture the unique character of the Union On the one hand it is a supranational order characterised by its own distinctive institutional dynamics and an unprecedented level of cohesion among and penetration into the national legal systems On the other hand it remains an organisation of derived powers the Member States retaining their character as sovereign entities under international law This theme permeates both the constitutional and the substantive law of the Union Contributors to the collection include members of the judiciary and distinguished practitioners officials and academics They consider the foundations strengths implications and shortcomings of this conceptual framework in various fields of EU law and policy The collection is an essential purchase for anyone interested in the constitutional framework of the contemporary European Union

**Free Movement and Welfare Access in the European Union** Victoria Hooton, 2024-04-04 This book assesses the balancing act between EU free movement law fundamental EU objectives and Member States concerns regarding their welfare systems It takes a novel dual approach namely combining doctrinal analysis of EU citizenship case law with an examination of mobility data This allows the study to clearly show an imbalance between the representation and protection of

these conflicting interests in EU case law It goes further identifying avenues for reform and highlighting the importance of the principle of proportionality for attaining a legitimate balance of interests In a field in which much has been written this offers a truly original perspective It will be much welcomed by scholars of EU free movement and citizenship law **Values and Principles in European Union Foreign Policy** Sonia Lucarelli, Ian Manners, 2006-08-21 This book examines the values and principles that inform EU Foreign Policy conveying an understanding of the EU as an international actor This volume explores the implications of these values and principles on the process of the construction of the European Union identity

*The EU Charter of Fundamental Rights* Steve Peers, Tamara Hervey, Jeff Kenner, Angela Ward, 2014-12-01 The Charter of Fundamental Rights of the European Union enshrines the key political social and economic rights of EU citizens and residents in EU law In its present form it was approved in 2000 by the European Parliament the Council of Ministers and the European Commission However its legal status remained uncertain until the entry into force of the Treaty of Lisbon in December 2009 The Charter obliges the EU to act and legislate consistently with the Charter and enables the EU's courts to strike down EU legislation which contravenes it The Charter applies to EU Member States when they are implementing EU law but does not extend the competences of the EU beyond the competences given to it in the treaties This Commentary on the Charter the first in English written by experts from several EU Member States provides an authoritative but succinct statement of how the Charter impacts upon EU domestic and international law Following the conventional article by article approach each commentator offers an expert view of how each article is either already being interpreted in the courts or is likely to be interpreted Each commentary is referenced to the case law and is augmented with extensive references to further reading Six cross cutting introductory chapters explain the Charter's institutional anchorage its relationship to the Fundamental Rights Agency its interaction with other parts of international human rights law the enforcement mechanisms extraterritorial scope and the all important Explanations **Research Handbook on European Union Citizenship Law and Policy**

Kostakopoulou, Dora, Thym, Daniel, 2022-03-17 This Research Handbook provides a panoramic guide to the study and research of EU citizenship and its development within a challenging environment characterised by restrictive access to social benefits Brexit Euroscepticism and Covid 19 It combines theoretical perspectives with analyses of both the existing and future rights duties and social protection that EU citizens ought to enjoy in a democratic and principled European Union

Federalism in the European Union Elke Cloots, Geert De Baere, Stefan Sottiaux, 2012-09-03 This edited volume aims to reveal the Janus faced character of federalism in the European Union Federalism appears in two main forms in the EU On the one hand numerous formerly unitary Member States have embarked on a path towards a quasi federal governance structure On the other hand the EU itself is sometimes qualified as a federal system Significantly the concept of federalism has a very different even opposite connotation in both contexts When associated with Member State reform federalism is regarded as a technique for accommodating autonomy claims of sub state nations By contrast when federalism is used as a label for the EU

itself it is conceived as a far reaching way of integrating the nations of Europe This dual appearance of federalism in the EU context is central to the structure of the book The first collection of essays addresses the question whether the EU may be described as a federal system and whether it can learn from existing federations In the second set of contributions the attention shifts to domestic federalisation processes more particularly to the impact of these processes on EU law and vice versa

**The EU Charter of Fundamental Rights as a Binding Instrument** Sybe de Vries,Ulf Bernitz,Stephen Weatherill,2015-12-03 The entry into force of the Treaty of Lisbon in 2009 caused the EU s Charter of Fundamental Rights to be granted binding effect This raised a host of intriguing questions Would this transform the EU s commitment to fundamental rights Should it transform that commitment How if at all can we balance competing rights and principles The interaction of the social and the economic spheres offers a particular challenge How deeply does the EU conception of fundamental rights reach into and bind national law and practice How deeply does it affect private parties How much flexibility has been left to the Court in making these interpretative choices What is the likely effect of another of the reforms achieved by the Lisbon Treaty the commitment of the EU to accede to the ECHR This book addresses all of these questions in the light of five years of practice under the Charter as a binding instrument

**Social Law and Policy in an Evolving European Union** Jo Shaw,Josephine Shaw,2000-12-15 The analyses in this collection address important questions about social law and policy in the evolving European Union

**EU Citizenship at the Edges of Freedom of Movement** Katarina Hyllén-Cavallius,2020-11-26 This book critically analyses the case law on EU citizenship in relation to its personal free movement rights its status on the primary law level and EU fundamental rights protection The book exposes the legal space where EU citizenship variably loses or gains legal relevance and questions how this space can be overcome Through a thorough analysis of the core personal free movement rights of residence family reunification equal treatment and equal political participation the book demonstrates how the development of the case law of the Court of Justice of the European Union has generated a two tiered legal concept of EU citizenship Depending on the nature of the legal claim at hand EU citizenship may appear as a poor legal personhood for exercising free movement rights sometimes pushing the individual who is in a factual cross border situation out of the scope of Union law Contrastingly in other strands of the jurisprudence we see EU citizenship and its primary law levelled rights stretch the jurisdictional scope of Union law triggering the EU s Charter of Fundamental Rights for review of the individual case The book enhances the understanding of the legal concept of EU citizenship in Union law and contributes to the debate on the future development of EU citizenship its relationship to the Charter and the strength of its legal position for the person who exercises freedom of movement

**Normative Patterns and Legal Developments in the Social Dimension of the EU** Ann Numhauser-Henning,Mia Rönnmar,2013-06-28 This book explores the normative and legal evolution of the Social Dimension labour law social security law and family law in both the EU and its Member States during the last decade It does this from a wide range of theoretical and legal substantive

perspectives The past decade has witnessed the entering into force of the Lisbon Treaty and its emphasis on fundamental rights a new coordination regulation within the field of social security Regulation 883/2004 EC and the case law of the Court of Justice of the European Union in the so called Laval Quartet Furthermore structural changes affecting demographics and family have also challenged solidarity in new ways The book is organised by reference to distinct normative patterns and their development in the fields of law covered such as the protection of established groups the position of market functional values and the scope for just distribution The book represents an innovative and important interdisciplinary approach to analysing EU law and Social Europe and contributes a complex yet thought provoking picture for the future The contributors represent an interesting mix of well known and distinguished as well as upcoming and promising researchers throughout Europe and beyond

*Social Services of General Interest in the EU* Ulla Neergaard, Erika Szyszczak, Johan Willem van de Gronden, Markus Krajewski, 2012-10-30 The EU has limited legislative competence in the field of social law. However, the Member States are increasingly modernizing social services and social welfare protection, attempting to make social services more efficient by increasingly looking to the market for the provision of such services. This policy move brings social services into the radar of EU law. The EU response to this sensitive issue has resulted in a piecemeal and fragmented approach towards the treatment of a new policy area of Social Services of General Interest (SSGI) in EU law and policy. This book is a first contribution towards charting how SSGI have emerged as a special category of SGI in the EU, the reaction of the Member States and stakeholders, and how policy is being made through new governance processes, carve-outs and safe havens in legislation and soft law, especially in the light of the new values of the EU introduced by the Treaty of Lisbon 2009. It takes an interdisciplinary approach and will be of interest to lawyers, economists and political scientists who are interested in EU policy making as well as practitioners, EU and national policy makers. Ulla Neergaard is Professor of EU law at the Faculty of Law, University of Copenhagen, Denmark. Erika Szyszczak is a Jean Monnet Professor of European Law and personam Professor of European Competition and Labour Law at the University of Leicester, Barrister Littleton Chambers, UK. Johan W. van de Gronden is Professor of European Law at the Radboud University of Nijmegen, The Netherlands. Markus Krajewski is Professor of Public and International Law at the University of Erlangen-Nuremberg.
