Social work in adoption Robert Tod, 1971 **Social Work in Foster Care** Robert James Niebuhr Tod, 1971 Social Work with Children Juliet Berry, 2025-09-01 First published in 1972 Social Work with Children presents a detailed examination of children and their needs in our society The author moves from an initial discussion of the pleasures and pressures inherent in parenthood towards considering how children may be helped in their social development She distinguishes between situations in which children may benefit from direct casework help and those in which aid may be more appropriately offered by parents or caretakers and shows how such treatment can be carried out She deals with special circumstances in relation to adoption fostering residential care neglect and ill treatment and considers the position of the handicapped immigrant or delinquent child In a final chapter she discusses methods of social work other than casework including group work community work and social action Juliet Berry makes frequent use of case illustrations and throughout the book she provides an extensive guide to further reading

Therapeutic Culture Jonathan B. Imber, For nearly half a century social scientists have made claims that there is a therapeutic ethos with extensive influence upon numerous aspects of American society In Therapeutic Culture twelve authors address the implications of this ethos and its effects on a wide range of social institutions extending from the family to schools and operating in religious behavior and within the legal system Has there been as the sociological theorist Philip Rieff argued in 1966 a triumph of the therapeutic If so in what kinds of institutions has it been most pervasive At the same time what aspects of modern culture has it replaced or defeated Therapeutic Culture addresses these questions and raises others Part 1 of this volume examines the emergence of the idea of authenticity as it defines the manipulation of emotions and behavior both in the United States and Great Britain Contributors include Elisabeth Lasch Quinn Frank Furedi Jonathan B Imber and Alan Woolfolk Part 2 illustrates specific cases of the effects of therapeutic culture within institutions including courts schools religious communities and the virtual community of the Internet Contributors include James L Nolan Jr John Steadman Rice Felicia Wu Song and James Tucker Part 3 extends the analyses of specific social institutions to the broader consequences that have resulted as a therapeutic ethos has taken root in contemporary life Contributors include Digby Anderson Ellen Herman and James Davison Hunter Part 4 is devoted to a previously unpublished essay by Philip Rieff whose significant influence can

be seen in many of the contributions Rieff revisits the highly controversial confirmation hearings of Supreme Court Associate Justice Clarence Thomas in 1991 and offers ample evidence of the therapeutic uses of politics as well as the political manipulations available within a therapeutic culture to provide a fitting conclusion This volume establishes a benchmark for further theoretical reflection and empirical research on the nature of therapeutic culture It will be of interest to sociologists psychologists political scientists and cultural studies specialists Jonathan B Imber is editor in chief of *Society and Class* of 1949 Professor in Ethics and professor of sociology at Wellesley College Histories of the Normal and the Abnormal

Waltraud Ernst,2006-09-27 This fascinating volume tackles the history of the terms normal and abnormal Originally meaning as occurring in nature normality has taken on significant cultural gravitas and this book recognizes and explores that fact The essays engage with the concepts of the normal and the abnormal from the perspectives of a variety of academic disciplines ranging from art history to social history of medicine literature and science studies to sociology and cultural anthropology The contributors use as their conceptual anchors the works of moral and political philosophers such as Canguilhem Foucault and Hacking as well as the ideas put forward by sociologists including Durkheim and Illich With contributions from a range of scholars across differing disciplines this book will have a broad appeal to students in many areas of history **Handbook on the Clinical Treatment of Adopted Adolescents and Young Adults** Doris Bertocci,Christopher Deeg,Linda A. Mayers,2023-08-11 This collection bridges the voices of international scholars and adopted persons to share knowledge about clinical practice with adopted people in adolescence and early adulthood Coming at a time when countries are beginning to focus on adoption reform this handbook is the first to address not only the external systemic contributions to their developmental complexities but also the underlying internal meanings of being adopted as children become adolescents and mature into adulthood It explains how adopted clients differ from those not adopted and emphasizes the need for clinical research on adopted people in this older age group Exploring how clinicians can understand their client s clinical needs it offers specific protocols and frameworks for assessment and necessary modifications in language and treatment With a foreword by Miriam Steele chapters examine the legal and sociopolitical cultures policies and practices in which adoption is embedded calling for broad systemic change Embracing theoretical conceptual and global perspectives this handbook is written for clinicians in all disciplines at all tiers of practice administration and training identifying the key roles they can potentially play in expanding and better focusing our understanding of the psychology of being adopted **Lone Motherhood in Twentieth-Century Britain** ,1998-05-07 During the 1990s lone mothers reached the top of the political agenda viewed as both a drain on public expenditure and a moral threat What has been missing from the debate is an understanding of how we have got to where we are This timely new study by three leading experts in the field sets out first to investigate the demographics of lone motherhood how the pathways into lone motherhood have changed and whether the changes of the last quarter of a century are as dramatic as they appear Second it looks at the wider context

for the changes in lone motherhood in terms of ideas about marriage and the changes in the construction of the never married mother from victim in the 1950s to parasite in the late 1980s Finally it examines the way in which policies have defined the problem of lone motherhood over time and the way in which lone mothers have been treated with regard to housing social security and employment The study concludes that there is little possibility of putting the genie back in the bottle in terms of reducing the number of lone mothers efforts to do so by reducing public expenditure on them may be effective but at the expense of the children involved Instead the authors urge policy makers to change focus again and pay more attention to investing in children

A Bibliography of British History, 1914-1989 Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index Daily Experience

in Residential Life Juliet Berry, 2025-09-01 First published in 1975 Daily Experience in Residential Life based on questionnaires completed by students during their residential placements breaks new ground with fresh implications for social work training and practice The author first examines daily life experiences of children in a wide range of residential provision with particular reference to methods of handling uncooperative children second to consider effective ways of enabling caregivers to provide helpful rather than neutral or even punitive daily treatment Her findings suggest that children with similar needs differ greatly in the quality of care they receive and that variations particularly in methods of discipline and control depend less upon theoretical principles than upon their caregivers immediate pressures in practice Therefore her major recommendation also applicable to children in foster care day school or at risk in their own homes and to dependent adults either at home or in institutional care is that the caregivers themselves require appropriate ongoing experience of professional support in their very difficult task Childless: No Choice

James H. Monach, 2003-09-02 As many as one in five couples in some population groups might be involuntarily childless and despite the attention attracted by technological advances and media coverage people often feel themselves to be totally isolated stigmatised and misunderstood by many professionals and ordinary people Childless No Choice is based on original research into the emotional and social aspects of involuntary childlessness the main component being a long term study of the experiences of couples attending an infertility clinic supported by a community survey and a study of the attitudes of general practitioners At a time of rapidly developing treatments for infertility and new legislative controls it is important that all those professionally involved have a full appreciation of the experiences and views of infertile people themselves While there is enormous attention in the media given to getting pregnant and to childbirth there is an almost total neglect of the possibility that for some people these natural functions may not happen James H Monach examines in detail the causes of childlessness and the availability of choices for childless people including artificial insemination fostering and adoption This book will be invaluable to doctors sociologists

social workers psychologists health administrators and to anyone who works with childless couples as well as to childless couples themselves

Adoption in India Vinita Bhargava, 2025-05-06 This book highlights the complexities and multidimensionalities of child adoption in India by challenging the prevalent adoption theories. It is the only book to lend a voice to adopted children and adults. It foregrounds the narratives of many families in their experiences of adoption together with the author's personal account as an adoptive parent. The volume outlines parenting practices that lead to success and well-being achieved through adoption. The first unit deals with the macro delineation of child adoption while the second discusses the micro concerns of parents and children in the Indian context. It also analyses the socio-political and socio-cultural contexts within which adoptions take place. It includes excerpts from the guidelines for in-country adoption, the Juvenile Justice Act and the Hague Convention on inter-country adoptions. This book would be useful to the students, researchers and faculty of Social Work, Human Development, Education, Psychology, Sociology and Law. It will also be an indispensable companion to adoptive parents, domestic and inter-country adoptees, domestic and abroad psychologists, therapists, psychiatrists and policy makers.

The Handbook of Social Work and Social Development in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies. This book focuses solely on the unique African context, engaging with issues relating to social work and development more broadly, thus enabling a deeper examination and more complex and nuanced picture to emerge. Unlike most academic works, this book highlights multiple practitioner voices with authors or co-authors that have recently been or are currently practising social workers. As an edited book, it draws from both academic research as well as lived practice experience, supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible. Looking at case studies from Lesotho, Botswana, Kenya, Zimbabwe, Ethiopia, Namibia, Uganda, Nigeria, Kenya, South Africa, Rwanda, Zambia and Tanzania and covering established areas of practice such as child protection, working with older people, working with people with disabilities, mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post-conflict situations, work with immigrants and refugees and the training of community-based workers, this book takes a future-oriented perspective that aims to move beyond well-worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective.
