## **Socialism What Went Wrong:**

**Socialism--what Went Wrong?** Irwin Silber,1994 The chasm between huge individual wealth and the abject misery of hundreds of millions of people persists and can in many cases be said to be widening The author's view is that the conflict between the rapaciousness of the system and popular discontent has to provide the conditions for a new social order

Socialism in some form argues Silber is an essential element in a future for the whole human race **What Went Wrong?**

**The Nicaraguan Revolution** Dan La Botz,2016-09-07 This volume is a valuable re assessment of the Nicaraguan Revolution by a Marxist historian of Latin American political history It shows that the FSLN the Sandinistas with politics principally shaped by Soviet and Cuban Communism never had a commitment to genuine democracy either within the revolutionary movement or within society at large that the FSLN's lack of commitment to democracy was a key factor in the way that revolution was betrayed from the 1970s to the 1990s and that the FSLN's lack of rank and file democracy left all decision making to the National Directorate and ultimately placed that power in the hands of Daniel Ortega Pursuing his narrative into the present La Botz shows that once their would be bureaucratic ruling class project was defeated Ortega and the FSLN leadership turned to an alliance with the capitalist class

**Why Governments Go Wrong** Charles Bingman,2006-09 Every day the newspapers and TV detail new government pathologies stolen elections violence against citizens official murders destruction of villages and homes corrupt police and public officials and billions of dollars simply stolen for the personal gain of some ruling elite People know that governments are necessary and important but they simply do not understand why they turn out to be dangerous vicious incompetent and corrupt This book can give people valuable insights about how and why governments go wrong It diagnoses political economic social and managerial perverse and destructive practices provides frameworks for understanding why they come about and offers some solutions to make governments more honest and responsive to public need

**When Rituals go Wrong: Mistakes, Failure, and the Dynamics of Ritual** Ute Hüsken,2007-05-31 The present volume is entirely dedicated to the investigation of the implications and effects of breaking ritual rules of failed performances and of the extinction of ritual systems While rituals are often seen as infallible mechanisms which work irrespective of the individual motivations of the performers it is clearly visible here that rituals can fail and that improper performances do in fact matter These essays break new ground in their respective fields and the comparative analysis of rituals that go wrong introduces new perspectives to ritual studies As the first book length study on ritual mistakes and failure this volume begins to fill a significant gap in the existing literature Contributors include Claus Ambos Christiane Brosius Johanna Buss Burckhard D öcker Christoph Emmrich Brigitta Hauser Sch ublin Maren Hoffmeister Ute H sken Brigitte Merz Axel Michaels Karin Polit Michael Rudolph Edward L Schieffelin Jan A M Snoek Eftychia Stavrianopoulou and Jan Weinhold

Sutela,1991-07-26 Although the history of centrally planned economies has been widely studied the development of socialist thinking on the subject has remained largely uncharted In this 1991 work Pekka Sutela presents a detailed analysis of Soviet economic thought and theory Dr Sutela traces the competing currents in the Marxist tradition of socialist economies from the Revolution to the present day In particular he shows how the Gorbachev economic reform programme of 1987 rose from the work of Nobel Prize economist L V Kantorovich and his followers However this programme failed and the author explains in some detail why this happened Since then Soviet economists have tried to abandon their traditional theory of central planning and move along the path and long established contacts with leading Soviet economists Pekka Sutela is able to show how Soviet economic thinking has moved from dogmatism through reformism to pragmatism *The Guardians of Concepts*

Martina Steber,2023-01-13 Since 1945 what conservative means has troubled intellectuals politicians and parties in the United Kingdom and West Germany In Britain conservatism was an accepted term of the political vocabulary denoting a particular tradition of political thought and practice In West Germany by contrast conservatism was a difficult concept for the young democracy to swallow It carried a heavy antiliberal and antidemocratic burden and led people to question whether there was a place for conservatism within democratic culture after all The Guardians of Concepts scrutinizes the debates about conservatism in the UK and the Federal Republic of Germany from the late 1940s to the early 1980s Informed by historical semantics it conceives of conservatism as a flexible linguistic structure and shows the importance of language for the self understanding of many conservatives who not by chance have regarded themselves as the guardians of concepts The intense national and transnational debates about the meaning of conservatism had far reaching consequences and continue to influence politics today **Ascent of the Mountain, Flight of the Dove** Michael Novak,2011-12-31 The essence of

Ascent of the Mountain Flight of the Dove remains intact its vision of religious studies as sustained reflection on our lifelong voyage to discover who we are The story we choose for ourselves the story we live can sacralize or secularize our lives and our world by the way in which we choose to relate to it With this awareness of the story dimension of life Ascent of the Mountain Flight of the Dove opens us to awe reverence and wonder at the risks and possibilities of human freedom This book is even more important than it was thirty years ago We need religion to strike deeply into the self away from public glare Unless Americans become more sophisticated about the language of the self inner life will shrivel In addition our people will continue to be vulnerable to fundamentalist movements Such movements take over too many innocents They promise and sometimes deliver a touching happiness But they do so by closing the spirit in a powerful and dangerous way Families and

schools do not provide a large and critical vocabulary by which to express the inner longings of the spirit The souls of many are parched and they gladly accept water any water from those who offer it The liberation of the religious spirit from trivial closed and simplistic systems of thought can only be achieved through the development of a critical language exercises and disciplines that open rather than close the mind that lead to higher viewpoints breakthroughs and new syntheses in a constant enlargement of spirit Novak's book leads us to that place **Ascent of the Mountain, Flight of the Dove** J.
