The Place of Home Alison Ravetz,Professor Alison Ravetz,R. Turkington,2013-05-24 A comprehensive and in depth history of the 20th century English home how it has been created and how it works for people It focuses on the various influences bearing on the development of domestic space since 1914 and covers both design and housing policy Current debates from participation to co operative housing are examined and several themes not previously brought together are linked e g urban development house design technology at home women and home social meaning of home *Leisure and the Changing City 1870 - 1914 (Routledge Revivals)* Helen Meller,2013-09-13 By the late nineteenth century the city had become the dominant social environment of Britain with the majority of the population living in large cities often with over 100 000 inhabitants The central concern of this book first published in 1976 is to assess how successful the late Victorians were in creating a stimulating social environment whilst these developing cities were being transformed into modern industrial and commercial centres Using Bristol as a case study Helen Meller analyses the new relationships brought about by mass urbanisation between city and citizen environment and society The book considers a variety of important features of the Victorian city in particular the development of the main cultural institutions the provision of leisure facilities by voluntary societies and the expansion of activities such as music sport and commercial entertainment Comparative examples are drawn from other cities which illustrate the common social and cultural values of an urbanised nation This is a very interesting title of great relevance to students and academics of town planning Victorian society and the history and development of the modern city

Comparability in Social Research Margaret Stacey,2018-05-11 Originally published in 1969 Comparability in Social Research is a collection of essays from the British Sociological Association and Social Science Research Council The essays are the result of a working group from the British Sociological Association and a response to the need for the development of sociological theory as a scientific discipline The essays examine the comparability of data assembled by research in several sociological fields This edited collection includes essays on the topic of education family and household income and occupation **The Sociology of Community** Colin Bell,Howard Newby,1974 First Published in 1974 Routledge is an

imprint of Taylor Francis an informa company *Slums* Alan Mayne,2017-08-15 More than half of the world s population now lives in urban areas and a billion of these urban dwellers reside in neighborhoods of entrenched disadvantage neighborhoods that are characterized as slums Slums are often seen as a debilitating and even subversive presence within society In reality though it is public policies that are often at fault not the people who live in these neighborhoods In this comprehensive global history Alan Mayne explores the evolution and meaning of the word slum from its origins in London in the early nineteenth century to its use as a slur against the favela communities in the lead up to the Rio Olympics in 2016 Mayne shows how the word slum has been extensively used for two hundred years to condemn and disparage poor communities with the result that these agendas are now indivisible from the word s essence He probes beyond the stereotypes of deviance social disorganization inertia and degraded environments to explore the spatial coherence collective sense of community and effective social organization of poor and marginalized neighborhoods over the last two centuries In mounting a case for the word s elimination from the language of progressive urban social reform *Slums* is a must read book for all those interested in social history and the importance of the world s vibrant and vital neighborhoods **Sociology of Community** Colin Bell,Howard Newby,2012-11-12 First Published in 1974 In this collection Colin Bell and Howard Newby have reaped a rich harvest from the sociological field of community studies The selection from the work in that field presented here should satisfy readers of many different tastes and interests Specialists in the sociology of community studies will find the authors brief informative and succinct survey of the field and the introductory summaries to each chapter as useful for their own teaching and research as the comprehensive selection of articles itself All those concerned with the welfare of people whether social workers and nurses or magistrates and local authorities will find here information about the community aspects of peoples lives which all too often still fails to find a place in their professional training **Slum Clearance** John English,Ruth Madigan,Peter Norman,2017-10-12 Originally published in 1976 Slum clearance is a particularly significant process because it places the ordinary citizen in a state of extreme dependence on his local authority The local authority not only destroys his existing environment but controls access to a replacement council house This book highlights both the control over the life chances of individual citizens which local government can exercise and the potential impotence of citizens caught up in a complex bureaucratic process It investigates the difficulties faced by individuals in exercising even the rights and choices which are ostensibly provided by the existing structure The book also seeks to apply theories of urban sociology in exploring the control of access to public housing The essential objective of this study is demystification of the administrative processes of slum clearance and rehousing through analysis of local authority bureaucracy and its impact on individuals **British Sociology** John Scott,2020-03-06 This Palgrave Pivot will present a comprehensive history of sociology in Britain tracking the discipline s intellectual developments within the institutional and political context After tracing the early development of the subject as an intellectual field in empirical and idealist philosophy

evolutionism socialism and statistical investigations Scott lays out the trajectory of sociology as an institutionalised discipline British Sociology maps the spread of the subject from the first Sociology Department at LSE to cover the whole country It considers the establishment of significant professional organisations and journals and the impact of feminism and political change Scott also reviews theoretical engagement with Marxism interactionism feminism and post structuralism and the development of the discipline through research studies of crime race and ethnicity community stratification health sexuality and work Set against the backdrop of a changing political context that has seen the growth of neoliberalism and globalisation and looking forward with the ongoing search for new directions this useful and original contribution will appeal to both academics and students across sociology criminology and the political sciences Council Housing and Culture Alison Ravetz,2003-12-16 Named one of the Top 10 books about council housing the Guardian online Born of idealism and once an icon of the Labour movement and pillar of the Welfare State council housing is now nearing its end But do its many failings outweigh its positive contributions to public health and wellbeing Alison Ravetz here provides the first comprehensive and apolitical history from which to arrive at a balanced judgement Drawing on the widest possible evidence from tenant and government records to the built environment itself she tells the story of British council housing from its seeds in Victorian reactions to the Poor in philanthropy and model villages Christian and other varieties of socialism Her depiction of council housing in its mature years shows the often bizarre persistence of utopian attitudes whether in architectural design or management styles its rise to a monopoly position in working class family housing the many compromises consequent on its state finance and local authority control and the impact on working class lives as an intellectuals utopian dream was converted into a social policy for the masses **A Bibliography of British History, 1914-1989** Keith Robbins,American Historical Association,Royal Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index **Regenerating deprived urban areas** Rene Peter Hohmann,2013-10-16 In response to the challenges posed by urban decline local policy activism has increased in countries across Europe Ren Peter Hohmann argues here that we should view these area based community initiatives such as England s New Deal for Communities and Germany s Social City Program as incubators for new forms of urban governance that seek to foster the active participation of residents and nonprofit groups Based on his comparative analysis of initiatives in Bristol England and Duisburg Germany Hohmann s study provides a richly informed assessment of local policy activism and its impact on neighborhood organizations and developers The Oxford Handbook of the Modern Slum Alan Mayne,2023 The Oxford Handbook of the Modern Slum explores the history of the modern slum connecting nineteenth century iterations through multiple pathways to its contemporary existence With chapters by 28 scholars this handbook brings an array of important and original perspectives and methodologies to bear on slums real and

imagined across the globe Drawing upon anthropology archaeology architecture geography history politics sociology and urban planning the book delves into households and communities whose existence has been hidden by stereotypes

Societies in the Making. A Study of Development and Redevelopment Within a County Borough. [With Maps.]. Hilda JENNINGS (M.A., Oxon.), 1962 *The Labour Party, Housing and Urban Transformation* Phil Child, 2024-05-16 The Labour Party Housing and Urban Transformation explores how the urban transformation of Britain between 1945 and 1970 was understood politically by the Labour Party Placing the Labour Party at the centre of the discussion the book covers the most extensive period of state led urban change in British history from the end of the Second World War to the decline of high modernism in the late 1960s Taking a particular focus on housing to explore the implementation of modernist ideas to drive a far ranging process of urban transformation in Britain it challenges conventional understandings of Labour s urban legacy and puts political ideas at the heart of twentieth century change Utilising a breadth and range of material including two distinct sets of archival sources published secondary material national legislation and Housing Acts and various case studies Child moves seamlessly between the national picture and its local impacts It also draws from sources which had a crucial influence on political thinking throughout the mid twentieth century to understand how urban transformation represented for Labour a political vision of the future A timely contribution both to urban history and to the history of post war Britain it challenges existing interpretations of modernism connects urban change to the political ideas that drove it and allows us to comprehend the state of urban Britain today **Glasgow** Lynn Abrams, Ade Kearns, Barry Hazley, Valerie Wright, 2020-04-13 In the wake of an unparalleled housing crisis at the end of the Second World War Glasgow Corporation rehoused the tens of thousands of private tenants who were living in overcrowded and unsanitary conditions in unimproved Victorian slums Adopting the designs the materials and the technologies of modernity they built into the sky developing high rise estates on vacant sites within the city and on its periphery This book uniquely focuses on the people s experience of this modern approach to housing drawing on oral histories and archival materials to reflect on the long term narrative and significance of high rise homes in the cityscape It positions them as places of identity formation intimacy and well being With discussions on interior design and consumption gender roles children the elderly privacy isolation social networks and nuisance Glasgow examines the connections between architectural design planning decisions and housing experience to offer some timely and prescient observations on the success and failure of this very modern housing solution at a moment when high flats are simultaneously denigrated in the social housing sector while being built afresh in the private sector Glasgow is aimed at an academic readership including postgraduate students scholars and researchers It will be of interest to social cultural and urban historians particularly interested in the United Kingdom **Me, Me, Me** Jon Lawrence, 2019-09-01 Many commentators tell us that in today s world everyday life has become selfish and atomised that individuals live only to consume But are they wrong In *Me Me Me* Jon Lawrence re tells the story of England since the Second World War through

the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us Me Me Me makes that case that it s time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past *Invincible Green Suburbs, Brave New Towns* Mark Clapson,1998 Explores the phenomenon of the mass movement of people away from town and city centres to live in new estates and towns built since World War II Using sociology town planning materials oral history and other sources this book examines the making of modern suburbia *An Introduction to Urban Renewal* Michael S. Gibson,Michael J. Langstaff,2025-11-21 An Introduction to Urban Renewal 1982 critically reviews policies focusing on the renewal of decaying inner urban areas and examines future prospects within a historical perspective The work draws together views from the fields of planning housing environmental health architecture estate management community and social work as well as politics and economics
