Javier Treviño,Karen M. McCormack,2016-04-01 This book challenges sociologists and sociology students to think beyond the construction of social problems to tackle a central question What do sociologists do with the analytic tools and academic skills afforded by their discipline to respond to social problems *Service Sociology* posits that a central role of sociology is not simply to analyse and interpret social problems but to act in the world in an informed manner to ameliorate suffering and address the structural causes of these problems This volume provides a unique contribution to this approach to sociology exploring the intersection

between its role as an academic discipline and its practice in the service of communities and people. With both contemporary and historical analyses, the book traces the legacy, characteristics, contours, and goals of the sociology of service, shedding light on its roots in early American sociology and its deep connections to activism. Before examining the social context that underlies the call for volunteerism, community involvement, and non-profit organizations, as well as the strategies that have promise in remedying contemporary social problems, the book presents examples of concrete social problems from around the world, including issues of democratic participation, poverty, and unemployment. Student involvement in micro-lending, disaster mitigation, the organization and leadership of social movements, homelessness, activism around HIV/AIDS, and service-learning are also explored. *Service Sociology and Academic Engagement in Social Problems* explores the utility of public teaching, participatory action research, and service learning in the classroom as a contribution to the community.

Few do it better than the Eastern Band of the Cherokee whose homeland is the Qualla Boundary of North Carolina. This book presents the two faces of the Cherokee people. One is the public face that populates the powwows, dramatic presentations, museums, and myriad roadside craft locations. The other is the private face whose homecoming Indian fairs, traditions, belief system, community strength, and cultural heritage are threatened by the very activities that put food on their tables. *Microsoft Excel 2000 Basics* Patty Winter, 1999 American Book Publishing Record, 2003 **Notices of the American Mathematical Society** American Mathematical Society, 1987 *Catalog of Copyright Entries.
