**Society** John J. Macionis, S. Mikael Jansson, Cecilia M. Benoit, Jakub Burkowicz, 2019-07-19 *Regionalism and Globalization* Joseph J. Matvey III Ph.D Sociology, 2010-06-17 Regionalism and Globalization represents research on three thematic Appalachia Global Computerization and Globalization First the spatial expression of corporate national and transnational capitalism essentially created the peripheralization of Appalachia and today fuels the development of underdevelopment in the region Computerization a second thematic concern is essentially perceived as one of the more significant instruments facilitating the technological compression of the globe In fact as computerization is more comprehensively embedded in the techno social aspects of globalization it now becomes possible to speak of global computerization or the objective computerization of the globe Finally Globalization is not merely a theme but a comprehensive paradigmatic shift in how we know the world It is further a systematic overarching process subsuming and in fact configuring and reordering the former two constructs of Appalachia and Computerization Additionally explored research includes global religion education international organizations popular culture and the global internet global sociology the concept of humanity and finally the global implications of Windows and Linux computer operating systems Seinology Tim Delaney, 2010-06-03 Sociologist and avid Seinfeld fan Tim Delaney explores what sociologists and all interested readers can learn about themselves and their society from this tremendously popular sitcom His work represents a fascinating blend of popular and contemporary culture with the keen observations of a scholar trained to assess social behavior Delaney uses excerpts from many of the now classic episodes to illustrate key facets of social interaction In fifteen chapters amusingly titled after some of the show s famous incidents he reviews what its characters teach us about ourselves and the complex society in which we live Fans of Seinfeld will enjoy reliving their fondest memories associated with each episode Students and laypersons alike will learn basic sociological concepts and theories in this jargonfree work Seinology provides Seinfeld fans an opportunity to view this brilliant television show through the sociologist s well trained eye **Chaos in the Catholic Church** R. John Kinkel, PhD, 2005-07-13 The Catholic church has been in decline for several decades Whether one examines the priest sexual abuse crisis Mass attendance leadership failures or the worldwide priest shortage Dr Kinkels message is clear reform is needed There is a sexual abuse problem and leaders did not deal with it effectively We find a code of silence missed reform opportunities and the underlying mismanagement of the chaos After documenting the cover up by bishops and others The Decline of the Catholic Church points out the contradiction bishops protect the devious priests and the church s reputation versus the need to protect children and prevent molestation in the future The book developes a very plausible explanation as to how the sex scandal mushroomed in the 1970s and why it is now apparently declining There is a priest shortage the church is short 150 000 priests worldwide based on 2002 statistics Instead of seriously examining data on church problems bishops attack research analysts who predict what the shortage of priests will look like in 2015 if nothing is

done to alleviate the problem Kinkel suggests that the bishops ordain married deacons to the priesthood when feasible there are 13 000 currently Secondly married men and women should be considered for ordination Instead the bishops import foreign priests Chicago s data 50% of incardinated priests are foreign born as a stop gap measure while praising celibacy There is an organizational problem in the church The church is run by old men who espouse conservative ideologies that fail to address modern problems The book compares global retirement trends in corporations versus church practice and finds that the Catholic church is about 15 years out of sync They must retire church leaders earlier and have term limits for bishops and popes There is a need for regular general councils which have historical precedence This is so because the present power structure of the pope and curia makes too many mistakes e g birth control bishops cover up of sex abuse Banco Ambrosiano scandal which cost all parties millions 10 years to agree on English translation for scripture readings at Mass etc Regular calling of councils can shake up this lazy monopoly Lastly Kinkel gives the most comprehensive analysis of the priest shortage in the U S and why this is the most serious problem the church faces not the sex abuse crisis The church is in the antechamber of Reformation II Catholics are losing faith CliffsNotes CBEST, 7th Edition Jerry
