**Interdisciplinary Phenomenology** D. Ihde, Richard M. Zaner, 2013-06-29 Historically philosophy has been the point of origin of the various sciences However once developed the sciences have increasingly

become autonomous although often taking some paradigm from leading philosophies of the era. As a result in recent times the relationship of philosophy to the sciences has been more by way of dialogue and critique than a matter of spawning new sciences. This volume of the *Selected Studies* brings together a series of essays which develop that dialogue and critique with special reference to the insights of phenomenological philosophy. Phenomenology in its own way has been interfaced with the sciences from its outset. Perhaps the most widely noted relation due in part to Edmund Husserl's characterization of the beginning steps of phenomenology as a descriptive psychology has been with the various psychologies. It is well known that the early Gestaltists were influenced by Husserl and later the Existential psychologies acknowledged the impact of Martin Heidegger and Jean Paul Sartre to mention but two philosophers. And of course Husserl's lifetime concern for the foundations of logic and mathematics especially as these the former in particular were developed into a foundational theory of science has figured prominently in these dialogues.

**2 INTRODUCTION** Less directly but more currently the impact of phenomenology upon the disciplines has begun to be felt in a whole range of the sciences.

*Goffman's Legacy* A. Javier Treviño, 2003 Erving Goffman 1922-82 was arguably one of the most influential American sociologists of the twentieth century. A keen observer of the interaction order of everyday life, Goffman's books which have sold in the hundreds of thousands continue to be widely read and his concepts have permanently entered the sociology lexicon. This volume consists of ten original essays all written by prominent Goffman scholars that critically assess Goffman's many contributions to various areas of study including functionalism, social psychology, ethnomethodology and feminist theory.

**Mirrors of Madness** Bruce Luske, 2017-09-29 *Mirrors of Madness* depicts the social psychological processes and institutional consequences of psychiatric staffs' experience of closeted insanity, private worries about their own social and psychological competence and reverse role modeling identification with their labeled psychotic clients, public behavior. The book shows how in attempting to ward off the threat involved in these processes staffs tend to be more vigilant of their own behavior while redirecting their insecurities toward their clients in the form of derogatory humor in psychiatric evaluations. These and other activities are shown to be inhibiting factors in the rehabilitative function of social control agencies.

**Life Sentences** Zohreh Bayatrizi, 2008-08-23 Death has popularly had the reputation of being the last of life's great mysteries, a subject of speculation and as a foreboding event both inevitable and feared. In *Life Sentences* Zohreh Bayatrizi examines the many concerted attempts from the last 350 years to strip death of its mystery and to order, manage and transform it from an individualized and fatalistic event to a social phenomenon that allows intervention. She examines the process that has caused death to be understood in five quasi-biblical commandments: thou shalt not die violently, thou shalt not die prematurely, thou shalt not kill thyself and thou shalt not die an undignified death so that thou shalt die an orderly death. Beginning with John Graunt's *Natural and Political Observations Made upon the Bills of Mortality* 1662, considered the first book of statistics and philosopher Thomas Hobbes's declaration that society must minimize the greatest evil of unsanctioned violent deaths, Bayatrizi traces the pivotal moments that have

changed our understanding of death While illuminating the history of our increasingly rationalized understanding of death she also examines some of our most contradictory reactions to controversial topics such as suicide euthanasia suicide bombing collateral damage and how our moral values have been shaped by an understanding of the proper place of a well ordered death in modern society Both historically rigorous and vigorously engaged in contemporary debates Life Sentences will be of interest to anyone interested in how we deal with death before we die **Herbert Marcuse** John Abromeit, W.

Mark Cobb, 2014-06-03 The Legacy of Herbert Marcuse A Critical Reader is a collection of brand new papers by seventeen Marcuse scholars which provides a comprehensive reassessment of the relevance of Marcuse s critical theory at the beginning of the 21st century Although best known for his reputation in critical theory Herbert Marcuse s work has had impact on areas as diverse as politics technology aesthetics psychoanalysis and ecology This collection addresses the contemporary relevance of Marcuse s work in this broad variety of fields and from an international perspective In Part One veteran scholars of Marcuse and the Frankfurt school examine the legacy of various specific areas of Marcuse s thought including the quest for radical subjectivity the maternal ethic and the negative dialectics of imagination Part Two focuses on a very new trend in Marcuse scholarship the link between Marcuse s ideas and environmental thought The third part of this collection is dedicated to the work of younger Marcuse scholars with the aim of documenting Marcuse s reception among the next generation of critical theorists The final section of the book contains recollections on Marcuse s person rather than his critical theory including an informative look back over his life by his son Peter **The Frankfurt School Critique of**

**Capitalist Culture** Ronald Jeremiah Schindler, 2019-05-23 First published in 1998 this volume is an impressive contradictory cultural phenomenon It addresses almost every existing contemporary school of thought whilst belonging completely to none of them through an absence of external signifiers With remarkable erudition Ronald Schindler reveals to official society the truth about itself through explorations of areas including the origins of dialectical intelligence a metatheoretical reconstruction of Marxism Habermas historical materialism and hermeneutics and political visions for the universities

**Transversal Rationality and Intercultural Texts** Hwa Yol Jung, 2011-07-26 Winner of the 2012 Edward Goodwin Ballard Prize sponsored by the Center for Advanced Research in Phenomenology Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrisms including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures What is traditionally

called comparative philosophy is not just a neglected branch of philosophy it is poised to radically transform the very conception of philosophy itself      *Sociology, Ethnomethodology and Experience* Mary F. Rogers, 1983-11-25 In this volume first published in 1983 Professor Rogers examines the usefulness of a phenomenological approach to sociology Her broad purpose is to demonstrate the theoretical and methodological advantages phenomenological sociology holds Thus she offers a selective introductory exposition of phenomenology highlighting its relevance for social scientists and undercutting the notion of phenomenology as a non scientific subjective or esoteric method of study      **Essaying Montaigne** John O'Neill, 2001-01-01 John O'Neill reads Montaigne's Essays from the principle of friendship as a communicative and pedagogical practice in society literature and politics He shows how subjectivity is shaken by its internal weakness once we move inside the structure of domination in politics gender and race      The Missing Child in Liberal Theory John O'Neill, 1994-12-15 The Missing Child in Liberal Theory opens public discourse on what it is Canadians hold in common through their provision of civic assurances to children and families at risk John O'Neill presents a strongly worded critique of the dominant discourse of the market society He observes the link between duty free capitalism and minimal civic obligations This book calls for a covenant society where civility and reciprocity are underwritten by a second generation concept of the Canadian welfare state that will not abandon children to disastrous prospects in a market society Confronting the current call for a leaner and meaner response to global competitiveness O'Neill challenges concepts of liberalism and communitarianism In their place he proposes a covenant concept of state community and family assurances to derive from our common provision of a civic endowment that we undertake to sustain now and for future generations of Canadians O'Neill argues that if Canada is to survive as a national community capable of responding to the global market we must reaffirm the civic foundations of the state If we fail to do this we will not have a leaner society only a meaner one This society will be hostile to capitalism and socialism alike If we can rededicate the Canadian commons to the well being of the civic person Canada will contribute a model of survival and governance among the nations of the twenty first century      After the Future Gary Shapiro, 1990-01-01 This book brings together diverse aspects of postmodernism by philosophers literary critics historians of architecture and sociologists It addresses the nature of postmodernism in painting architecture and the performing arts and explores the social and political implications of postmodern theories of culture The book raises the question of whether postmodernism is to be seen as one more epoch or period within a succession of eras or as a challenge to the modernist practice of periodization itself The nature of the subject and of subjectivity is explored in order to resituate and contextualize the autonomous subject of the modern literary traditions Postmodern approaches to philosophy both analytical and continental including the work of Deleuze Derrida Foucault Rorty and Cavell are scrutinized and compared with a view to the question of foundationalism and with respect to philosophy's historical reflection on its own exclusionary practices After the Future discusses the ramifications of technology and programs for the renewal of community in a radically pluralistic society

It also discusses the question of language and the diverse ways of distinguishing the articulate from the inarticulate

*Private Complaints and Public Health* Richard Morris Titmuss, 2004-06-30 Richard Titmuss was one of the 20th century's foremost social policy theorists. This accessible Reader is the first compendium of his work on public health, health promotion and health inequalities. Most of Titmuss's work has been out of print for many years. This volume, like its predecessor *Welfare and Wellbeing* (The Policy Press, 2001), is important in bringing the work of this highly influential thinker to the attention of a new generation of social policy students and policy makers. It also enhances current debates about how complex societies can best provide for the health of all their citizens.

*Social Theory and Language* Glyn Williams, 2020-06-07 This volume offers a comprehensive treatment of the historical developments underpinning our present understandings of the relationship between language and the social by integrating the study of language with key strands of sociological theory. The book posits that theory conditions how objects are constructed and in turn the meanings allocated to them and explores the implications for the relationship between language and the social. The volume traces this relationship from its foundations in the work of Enlightenment philosophers in which sociology and linguistics emerged as coherent disciplines. Taking this work as a point of departure, the book examines the unfolding of the interplay between language and the social across developments in sociological theory in subsequent eras encompassing such strands as Marxism, functionalism, interactionism, anti-foundationalism, poststructuralism, critical theory and critical realism. A final chapter turns its eye toward contemporary sociolinguistics and its treatment of different sociological perspectives and future directions for its continued development. Reflecting on trajectories in sociological theory toward informing our understanding of the relationship between language and the social today, this book will be key reading for students and scholars in sociolinguistics, philosophy of language and those working in sociology and geography with an interest in language issues.
