Religion and Family in a Changing Society Penny Edgell, 2013-12-03 The 1950s religious boom was organized around the male breadwinner lifestyle in the burgeoning postwar suburbs But since the 1950s family life has been fundamentally reconfigured in the United States How do religion and family fit together today This book examines how religious congregations in America have responded to changes in family structure and how families participate in local religious life Based on a study of congregations and community residents in upstate New York sociologist Penny Edgell argues that while some religious groups may be nostalgic for the Ozzie and Harriet days others are changing knowing that fewer and fewer families fit this traditional pattern In order to keep members with nontraditional family arrangements within the congregation these innovators have sought to emphasize individual freedom and personal spirituality and actively to

welcome single adults and those from nontraditional families Edgell shows that mothers and fathers seek involvement in congregations for different reasons Men tend to think of congregations as social support structures and to get involved as a means of participating in the lives of their children Women by contrast are more often motivated by the quest for religious experience and can adapt more readily to pluralist ideas about family structure This Edgell concludes may explain the attraction of men to more conservative congregations and women to nontraditional religious groups

Social Theory For A Changing Society Pierre Bourdieu,James S. Coleman,Zdzislawa Walaszek Coleman,2019-07-11 There is in modern society a structural change that underlies many of the social changes with which the conference was concerned My argument here will be that this is a qualitative change in the way society is organized a change with many implications I will call this a change from primordial and spontaneous social organization to constructed social organization see Coleman 1990 Chapters 2 3 and 24 for an extended examination of this change The common definitions of these terms contain some hint of what I mean but I will describe the change more fully to ensure that it is clearly understood By primordial social organization I mean social organization that has its origins in the relationships established by childbirth Not all these relations are activated in all cultures but some subset of these relations forms the basis for all primitive and traditional social organization From these relations more complex structures unfold For example from these relations come families from families come clans from clans villages and from villages tribes ethnicities or societies
