Techniques Of Subversion In Modern Literature:

Techniques of Subversion in Modern Literature M. Keith Booker, 1991 Mario Vargas Llosa is one of the world's most respected and widely read living writers. His work is marked by technical sophistication and by its alliance with a variety of trends in modern culture. To date, little criticism of his work has made use of the important developments in literary theory in the past two decades. This book does that, analyzing Vargas Llosa's place in modern and postmodern criticism. **Masculine**

Identity in Modernist Literature Allan Johnson, 2017-10-14 This book is about the modernist narrative voice and its correlation to medical, mythological, and psychoanalytic images of emasculation between 1919 and 1945. It shows how special effects of rhetoric and form inspired by other modernist developments in psychoanalysis, occultism, and negative philosophy reshaped both narrative structure and the literary depiction of modern masculine identity. In acknowledging early twentieth-century Anglo-American literature's self-conscious and self-reflexive understanding of the effect of textual production, this engaging new study depicts a history of writers and readers understanding the role of textual absence in the development and chronicling of masculine anxiety and optimism. **Modernism and the Theater of Censorship** Adam

Parkes, 1996-02-22 Adam Parkes investigates the literary and cultural implications of the censorship encountered by several modern novelists in the early twentieth century. He situates modernism in the context of this censorship, examining the relations between such authors as D. H. Lawrence, James Joyce, Radclyffe Hall, and Virginia Woolf and the public controversies generated by their fictional explorations of modern sexual themes. These authors located obscenity at the level of stylistic and formal experiment. *The Rainbow*, *Lady Chatterley's Lover*, *Ulysses*, and *Orlando* dramatized problems of sexuality and expression in ways that subverted the moral, political, and aesthetic premises on which their censors operated. In showing how modernism evolved within a culture of censorship, *Modernism and the Theater of Censorship* suggests that modern novelists, while shaped by their culture, attempted to reshape it. **Rhetorical Criticism** Sonja K. Foss, 2017-07-18

Over multiple editions, this transformative text has taught the lively art of rhetorical criticism to thousands of students at more than 300 colleges and universities. Insights from classroom use enrich each new edition. With an unparalleled talent for distilling sophisticated rhetorical concepts and processes, Sonja Foss highlights ten methods of doing rhetorical criticism: the systematic investigation and explanation of symbolic acts and artifacts. Each chapter focuses on one method, its foundational theories, and the steps necessary to perform an analysis using that method. Foss provides instructions on how to write coherent, well-argued reports of analytical findings, which are then illustrated by sample essays. A chapter on feminist criticism features the disruption of conventional ideologies and practices. *Storytelling in the digital world* is a timely addition to the chapter on narrative criticism. Student essays now include analyses of the same artifact using multiple methods. A deep understanding of rhetorical criticism equips readers to become engaged and active participants in shaping the nature of the worlds in which we live. **The Northern Region of Korea** Sun Joo Kim, 2011-06-01 The residents of the three northern

provinces of Korea have long had cultural and linguistic characteristics that have marked them as distinct from their brethren in the central area near the capital and in the southern provinces. The making and legitimating of centralized Korean nation states over the centuries however have marginalized the northern region and its distinct subjectivities. Contributors to this book address the problem of amnesia regarding this distinct subjectivity of the northern region of Korea in contemporary historical and cultural discourses which have largely been dominated by grand paradigms such as modernization theory, the positivist perspective and Marxism. Through the use of storytelling, linguistic analysis and journal entries from turn of the century missionaries and traveling Russians in addition to many varieties of unconventional primary sources, the authors creatively explore unfamiliar terrain while examining the culture identity and regional distinctiveness of the northern region and its people. They investigate how the northern part of the Korean peninsula developed and changed historically from the early Choson to the colonial period and come to a consensus regarding the importance of regionalism as a vital factor in historical transformation especially in regard to Korea's tumultuous modern era. Nabokov, Rushdie, and the Transnational Imagination R. Trousdale, 2013-07-31 Using Vladimir Nabokov and Salman Rushdie's work, this study argues that transnational fiction refuses the simple oppositions of postcolonial theory and suggests the possibility of an inclusive global literature.

Transgressive Fiction R. Mookerjee, 2013-05-07 Often dismissed as sensationalist, transgressive fiction is a sophisticated movement with roots in Menippean satire and the Rabelaisian carnal folk sensibility praised by Bakhtin. This study, the first of its kind, provides a thorough literary background and analysis of key transgressive authors such as Acker, Amis, Carter, Ellis and Palahniuk. Politics and History in William Golding Paul Crawford, 2002 Politics and History in William Golding provides a much needed politicized and historicized reading of William Golding's novels as a counter to previous universalizing criticism. Paul Crawford argues that an understanding of fantastic and carnivalesque modes in Golding's work is vital if we are to appreciate fully his interrogation of twentieth century life. The fantastic and carnivalesque are foundational to both the satirical and nonsatirical approaches that mark Golding's early and late fiction. No previous study has analyzed this structure that is so central to his work. Politics and History in William Golding examines this writer's work more fully than it has been studied within the convoluted context of the last half of the twentieth century. Crawford directly links Golding's various deployments of the fantastic and carnivalesque to historical political and social change.

Teaching Palahniuk: The Treasures of Transgression in the Age of Trump and Beyond Christopher Burlingame, 2022-05-10 While much has been written about Chuck Palahniuk and his body of work, next to nothing has been written about when, where and how it is necessary to teach Palahniuk. This collection will reveal that teaching Palahniuk's work and the discursive dynamic of the classroom interactions create new opportunities for scholarship by both the faculty member and his or her students. Despite early critical success with *Fight Club*, *Invisible Monsters* and *Choke*, Palahniuk's novels are increasingly dismissed for the very transgressive content that makes them essential.

pedagogical tools in the Age of Trump where truth isn't truth and tribalism is stoked with claims of fake news. This collection aims to broaden the scholarship by examining underrepresented and unrepresented works from his oeuvre and situating them in the context of their pedagogical implications. In both form and content, the transgressive nature of Palahniuk's work demands critical thought and reflection capacities that are necessary for the preservation of a democratic society. Contributors take various approaches to address what students can learn about writing literature and society by reading and analyzing Palahniuk's texts. The collection will discuss the value of teaching Palahniuk's innovations and various disciplinary contexts for teaching his works and reflections on some of those pedagogical opportunities. Through its multifaceted discussion of Palahniuk and pedagogy, this collection will legitimize efforts to bring his work onto syllabi and into the classroom where it can enhance student engagement, create new avenues for interdisciplinary scholarship, and reinvigorate an expansion of the canon. It will also provide diverse frameworks for incorporating and interpreting Palahniuk's writing across disciplines. Finally, the collection will offer post mortems from faculty members who have found the guts to teach Palahniuk and will offer insight into what students have gained and stand to gain from a more intensive Palahniuk pedagogy.

Queering Buñuel Julian Daniel Gutierrez-Albilla, 2008-05-30 As the father of cinematic Surrealism, extensive critical attention has been devoted to Luis Buñuel's cinema. Much has been written about his first Surrealist films of the 1920s and 1930s and the French art movies of the 1960s and 1970s. However, here for the first time is a queer re-reading of Buñuel's Spanish language films, allowing us to view Buñuel's cinema through a lens of queer spectatorship. Focusing on the films Buñuel produced in Mexico and Spain during the 1950s and 1960s, Julian Daniel Gutierrez Albilla argues not that Buñuel's films have a homosexual subplot but that there are multiple forms of identity, subjectivity, and sexuality present in these films. *Queering Buñuel* brings together the fields of film studies, feminist and queer theory, Hispanic studies, psychoanalysis, and art theory. Gutierrez Albilla succeeds in reconceptualizing Buñuel's Mexican and Spanish films beyond geographical, historical, and disciplinary boundaries, questioning not just how we see Buñuel but also how we see cinema.
