Nagaland National Council of Applied Economic Research, 1968 *Fisheries Development and Management in India, 1785-1986* Nune Subba Rao, 1989 Fisheries play an important role in the economy of nations bordering the sea and this is especially true in a populous country like India where a large majority continues to live below the poverty line Sea fishing has been an occupation with the coastal people of India since time immemorial forming an integral part of the maritime heritage Mechanisation has been introduced into the marine fishing with a view to exploit the fisheries potential all along the Indian coastline of 6 500 km by overcoming the deficiencies of the centuries old traditional fishing technology and to augment fish production with a higher fishing effort and also to raise the income levels and living standards of fishermen The present book based on the author s doctoral dissertation made a bold and pioneering attempt to evaluate the costs and earnings of mechanised and traditional boats for determining their relative operational efficiency and to examine intensively the effects of mechanisation on employment income levels consumption pattern and levels of living of fishermen and their social implications While analysing the merits of the new fishing technology and also the reactions of different groups of fishermen to mechanisation he spotlights the shortsightedness in the implementation of the programme of mechanisation resulting in a host of negative effects which have implications and also sets forth the valuable lessons which Indian experiences have to offer to the densely populated littoral nations in the Third World To ensure enduring benefits to the vast majority of marine fishermen the thesis underscores among numerous other remedies the need for the provision of an intermediary technology the need for the institutional support and marketing network and the need for the management of fisheries resources It also calls for the policies to bring about socio economic development of the fishing community on par with the rest of the society All in all a genuine contribution to knowledge of grassroots situations that will have enduring value and that can be useful in both academic and policy formation circles **Export Marketing of Marine Products** K. Historical Dictionary of the Tamils Vijaya Ramaswamy, 2017-08-25 The Tamils have an unbroken history of more than two thousand years Tamil the language they speak is one of the oldest living languages in the world The only people comparable to the Tamils in terms of their hoary past and vibrant present would be the Jews with one marked difference The Tamils have always had their homeland Tamilaham alternately pronounced and spelt Tamizhaham known today as Tamil Nadu which to them represents their mother and is revered by them as Tamizh Tai literally Tamil Mother This is in striking contrast to the Jews who have been through a long and arduous struggle to gain their homeland a deeply contested site to this day with Hebrewisation of Israel being a key marker of Jewish identity in the region Tamils by contrast have a clear

numerical majority in the region that now comprises Tamil Nadu and the language unites rather than divides adherents of different faiths The second edition of Historical Dictionary of the Tamils contains a chronology an introduction and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Tamils **Indian Economy** National Council of Applied Economic Research,1966

Studies in Indian Agriculture Gilbert Etienne,2023-11-15 **The Politics of Cultural Nationalism in South India** Marguerite Ross Barnett,2015-03-08 In this book Processor Barnett analyzes a successful political movement in South India that used cultural nationalism as a positive force for change By exploring the history of the Dravida Munnetra Kazhagam party the author provides a new perspective on political identity In so doing she challenges the interpretation of cultural nationalism as a product of atavistic and primordial forces that poses an inherent threat to the integrity of territorially defined nation states and thus to the progress of modernization The founding of the DMK party in 1949 the author shows was a turning point in the political history of Tamil Nadu South India because it ushered in the era of Tamil cultural nationalism In the hands of the DMK Tamil nationalism became an ideology of mass mobilization and thus shaped the articulation of political demands for a generation The author analyzes the social political and economic factors that gave rise to cultural nationalism the interplay between cultural nationalist leaders and the role of cultural nationalism in a heterogeneous nation state Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Capital Shortage** Maanik Nath,2023-08-10 Bridging history and development a study of credit scarcity low investment and widespread poverty in colonial and postcolonial India
