Responsive Technocracy? Christian Rauh, 2016-10-21 This book challenges the common image of the European Commission as an insulated technocracy immune to political pressures Based on an innovative combination of public opinion protest and media data it first demonstrates that European integration has become increasingly politicised since the 1990s Against this background the Commission is now much more concerned about the public appeal of its policies That however challenges and contradicts the well worn patterns of supranational regulation in Europe Rauh systematically compares 17 legislative drafting processes in consumer policy between 1999 and 2009 Based on first hand insider accounts of involved officials his analysis indicates that the Commission's policy choices indeed become more consumer friendly under higher levels of public awareness While this improves the democratic quality of European decision making the book also reveals an enhanced conflict potential within the Commission and beyond which threatens to undermine the efficiency of legislative decision making in the EU Democratic Decision-making in the EU Anne Elizabeth Stie, 2015-03-05 This book examines the

democratic legitimacy of the European Union EU and evaluates the democratic credentials of the EU's main decision making procedure It finds that though there is potential for democratic decision making in the EU the actual process is dominated by technocrats and secret meetings The book assesses and discusses the conditions for democratic input in decision making with five empirical chapters each addressing the ordinary legislative procedure from different dimensions democratic deliberative forums inclusion openness power neutralising mechanisms and decision making capacity The analytical

framework provides for an in depth assessment of the ordinary legislative procedure s potential democratic qualities and examines whether it fulfils democratic criteria how the procedure works in practice and whether it has the necessary democratic clout The author provides both a theoretical discussion and an empirical assessment of what role the principle of democracy could play in the EU Filling a gap in EU legislative studies and contributing to the debate on the European democratic deficit Democratic Decision making in the EU will be of interest to students and scholars of European Union politics legislative studies and deliberative democracy

The European Union Beyond the Polycrisis? Jonathan Zeitlin, Francesco Nicoli, 2020-06-09 The European Union beyond the Polycrisis explores the political dynamics of multiple crises faced by the EU both at European level and within the member states In so doing it provides a state of the art overview of current research on the relationship between politicization and European integration The book proposes that the EU s multi dimensional crisis can be seen as a multi level politics trap from which the Union is struggling to escape The individual contributions analyze the mechanisms of this trap its relationship to the multiple crises currently faced by the EU and the strategies pursued by a plurality of actors the Commission the European Parliament national governments to cope with its constraints Overall the book suggests that comprehensive grand bargains are for the moment out of reach although national

and supranational actors can find ways of relaxing the politics trap and in so doing perhaps lay the foundations for more ambitious future solutions This book dedicated to the exploration of the political dynamics of multiple simultaneous crises offers an empirical and theoretical assessment of the existing political constraints on European integration Analysing domestic and European political reactions to the EU s polycrisis and assessing how EU institutions national governments and broader publics have responded to a new era of politicization The European Union beyond the Polycrisis will be of great interest to scholars of European politics and the EU as well as professionals working in EU institutions national administrations and European advocacy groups The chapters were originally published as a special issue of the Journal of European Public Policy
