Técnicas Para Escribir Leer Y Estudiar:

Escribir, leer y aprender en la universidad Paula Carlino, 2025-08-01. Como ayudar a que los y las estudiantes universitarios lean, escriban y aprendan mejor. Desde su primera edición en 2005 y tras múltiples reimpresiones, esta obra fundamental del campo de la pedagogía se convirtió en una referencia clave para pensar la enseñanza en el nivel superior. Con un enfoque novedoso y sumamente actual, Paula Carlino demuestra que leer y escribir no son habilidades que los alumnos deban traer resueltas, sino que son prácticas que cada docente tiene la responsabilidad de enseñar y propone integrar la alfabetización académica a la enseñanza de todas las materias valiéndose de ejemplos concretos de sus propias clases y una sólida base teórica que articula psicología, pedagogía y estudios del lenguaje. A veinte años de su publicación original, esta nueva edición revisada de *Escribir, leer y aprender en la universidad* con un nuevo prólogo y unos epílogos esenciales para nuestra época reafirma su vigencia en un contexto marcado por los desafíos del aprendizaje virtual. La autora nos invita una vez más a revisar nuestras prácticas docentes para construir aulas inclusivas y críticas donde enseñar a leer y escribir también signifique enseñar a pensar.
