Backpacking with the Saints Belden C. Lane, 2014 Backpacking with the Saints is a captivating account of solo wilderness backpacking as spiritual practice On his solitary hikes Belden Lane has as companions the great spiritual texts of the world's religions The wilderness he argues offers an enlightening approach to the texts presenting the opportunity to explore the interior landscape and the spiritual realm of nature The book thoughtfully examines the place of nature in the spiritual life and the dynamics of reading in the wild *Futurizing the Jews* Tsvi (Howard) Bisk, Moshe Dror, 2003-11-30 Bisk and Dror assert that the 21st Century can be the Jewish Century that no other people is better prepared to face its challenges However to do so a stress on the Jewish Future must replace a preoccupation with the Jewish Past They offer a neo Zionist ideological analysis of modern Jewish life as an alternative to both classical Zionism and post Zionism They conceptualize a Jewish Grand Strategy by clearly defining and delineating between ideology policy grand strategy strategy and tactics with compelling proposals for what such a revised Grand Strategy might entail They suggest a concept of reinvigorated Israel Diaspora relations based on this new Grand Strategy and the potential of the Information Technology Revolution They also offer a conception of Jewish spirituality that could be as appealing to secular as to religious Jews They reject the concept of a Nation that Dwells Alone Throughout the ages Jews have affected and been affected by the world more than any other People they assert They also reject the view that suffering is the dominant feature of Jewish history as this lachrymose perception cannot inspire needed Jewish ambitions in the young They stress the needs of the Jewish person and insist that there can be no real significance to the continued existence of the Jewish People unless the real life concrete needs of the individual are addressed As former Israeli Ambassador to the United Nations and former Cabinet Minister Gad Yaacobi asserts in his foreword The book is original iconoclastic and in some ways revolutionary it challenges inherited assumptions and calls for positive action I believe we have before us a book that must become a reference point for Jewish policy makers as quickly as possible *The Biosphere and Noosphere Reader* David Pitt, Paul R. Samson, 2012-10-02 The Reader is the first comprehensive history of the noosphere and biosphere Drawing on classical influences modern parallels and insights into the future the Reader traces the emergence of noosphere and biosphere concepts within the concept of environmental change Reproducing material from seminal works both past and present key ideas and writings of prominent thinkers are presented including Bergson Vernadsky Lovelock Russell Needham Huxley Medawar Toynbee and Boulding and extensive introductory pieces but the editors draw attention to common themes and competing ideas Focussing on issues of origins theories parallels

and potential the discussions place issues in a broad context compare and contrast central concepts with those of the Gaia hypothesis sustainability and global change and examine the potential application of noospheric ideas to current debates about culture education and technology in such realms as the Internet space exploration and the emergence of super consciousness Literally the sphere of mind or intellect the noosphere is apart of the realm of the possible in human affairs where there is a conscious effort to tackle global issues The noosphere concept captures a number of key contemporary issues social evolution global ecology Gaia deep ecology and global environmental change contributing to ongoing debates concerning the implications of emerging technologies
