Telecommunications Revolution In Korea:

The Telecommunications Revolution in Korea James F. Larson, 1995 The first English language work on Korea's unique experiences with telecommunications this book focuses on Korea's distinct political economic legal socio cultural and personal dimensions It includes chapters on the relationship between political liberalization and telecommunications education and public promotion of the information society together with the role of new technologies in the reunification of Korea

Digital Development in Korea Myung Oh, James F. Larson, 2011-03-14 This book explores the role of digital information and communications technology in South Korea's development starting with and building upon the crucial developments of the 1980s Its perspective draws on the information society concept and on a conceptual model of strategic restructuring of telecommunications It also draws on firsthand experience in formulating and implementing policies The analysis identifies aspects of the Korean experience from which developing countries around the world might benefit Oh and Larson describe the revolutionary developments of the 1980s including the TDX electronic switching system a major surge forward in semiconductors the start of privatization and color television and the thoroughgoing restructuring of Korea's telecommunications sector They further explore government leadership the growing private sector and international trade pressures in the diffusion of broadband mobile communication and convergence toward a ubiquitous network society The role of education in these developments is explored in detail along with both the positive and negative aspects of Korea's vibrant new digital media The book also looks at Korea's growing international involvement its role in efforts to build a world information society and finally its future place in cyberspace This book will be of interest to students scholars and policy makers interested in communications technologies Asian Korean Studies and development studies

Korea's Amazing Century: From Kings to Satellites , Building Telecom Markets Whasun Jho, 2013-08-27 The mobile telecommunication industry has been one of the fastest growing industries in the global economy since the late 1990s As the first country to offer commercial Code Division Multiple Access CDMA cellular service in the world Korea was able to jump right into the digital mobile markets enhancing its status as a leading manufacturer of mobile equipment While the growth of the telecom industry occurred with the emergence of worldwide market oriented regulatory reform and liberalization in telecommunications the state market relationship in Korea evolved from state monopoly toward centralized governance and later toward flexible governance which is substantially different from liberal governance of the US This book examines the uniqueness of Korean regulatory reforms of the mobile telecommunication sector and argues that the market oriented regulatory reform and liberalization should be explained by focusing on the interactions among the state the private sector and international political economic environment It will appeal to scholars and policy makers alike concerned with market regulation Asian development and political economy

Innovation and Technology in Korea Jörg Mahlich, Werner Pascha, 2007-07-24 Only inadequately perceived by the Western public Korea has transformed into an economic heavy weight during recent decades The Korean government believes it can turn it into one of the top 10 competitive economies until 2010 This goal does not sound overambitious as Korea has undergone tremendous efforts in order to forge ahead in the field of research and development In some high tech industries Korean firms have advanced into leading players in the global market place and are increasingly challenging their international competitors Against this background the volume offers an in depth analysis of the Korean innovation system and shows how its science and technology policies actually work As Korea s economy is now reaching the status of a newly advanced economy the book also takes a close look on ongoing structural changes in the course of economic globalization

Digital Game Culture in Korea Florence M. Chee, 2023-04-24 Digital Game Culture in Korea The Social at Play is a critical ethnographic investigation of media discourses surrounding online game addiction and the sociocultural roles fulfilled by games in everyday life Florence M Chee argues that the casting of online games as singularly problematic or addictive largely ignores the socially generative and at times pivotally important means of connection among games players and the communities they foster Through focusing on Korea s sociohistorical and technocultural context this work celebrates and recognizes the foundational role of Korean game culture in shaping global games and play Scholars of game studies communication and technoculture will find this book of particular interest

The Routledge Companion to Global Internet Histories Gerard Goggin, Mark McLelland, 2017-02-17 The Routledge Companion to Global Internet Histories brings together research on the diverse Internet histories that have evolved in different regions language cultures and social contexts across the globe While the Internet is now in its fifth decade the understanding and formulation of its histories outside of an anglophone framework is still very much in its infancy From Tunisia to Taiwan this volume emphasizes the importance of understanding and formulating Internet histories outside of the anglophone case studies and theoretical paradigms that have thus far dominated academic scholarship on Internet history Interdisciplinary in scope the collection offers a variety of historical lenses on the development of the Internet as a new communication technology seen in the context of older technologies as a new form of sociality read alongside previous technologically mediated means of relating and as a new media vehicle for the communication of content

The Internet and Foreign Policy James F. Larson, 2004 This headline series explores the competing views and complexines of a changing relationship bet the media and foreign policy
