Telepsychics Tapping Your Hidden Subconscious Powers:

Telepsychics Dr. Joseph Murphy, 2019-10-03 Joseph Murphy has created a true classic masterpiece Telepsychics will change your life This is a book for all spiritual paths Dr Murphy doesn't preach or seek to exclude anyone He simply lays the foundation for self improvement through the scientific use of prayer concepts as a means of tapping your subconscious powers The techniques that the author advocates here are most likely different from the way you were taught to pray in church but they are probably more effective than anything you have ever experienced The portions of the book on the utilization of dreams are also excellent Whoever you are whatever your goals visions dreams or life circumstances may be this book will help you Many readers feel that it is even better than Dr Murphy's most famous book The Power of Your Subconscious Mind Murphy describes some very easy yet profound truths about using your subconscious mind and scientific prayer to achieve greatness Learn how you can create success and change your life for the better **Telepsychics** Joseph Murphy, 2019-10-03 Murphy describes some very easy yet profound truths about using your subconscious mind and scientific prayer to achieve greatness *Telepsychics; Tapping Your Hidden Subconscious Powers* Joseph Murphy, 1973 *Is this the Best God Could Do?* Sarah Tirri, 2011-03-03 Is This the Best God Could Do nonfiction approximately 115 000 words was born of a crisis of faith of the most cruel kind the loss of my mother who lingered on the brink death for five weeks and that is where the book begins I was living the American dream a happy wife and mother and by most measures charmed and then she died suffering terribly in the process in spite of my ardent prayers Like many in this position I felt that God had let me down but once my grief passed I realized that the God of traditional Christianity keeps us in thrall by fear and guilt by insisting we are small when we are really quite big beings When the World Trade Center collapsed I also realized that the end of the world might well be upon us because it is a self fulfilling prophecy brought about by the zealot believers in the Abrahamic religions fear carried to an illogical extreme This epiphany made me angry Is This the Best God Could Do is also the result of that anger However although the topic is obviously deadly serious I debunk the warped monotheism of the Big Three with humor and wit as well as reasonable albeit edgy argument What follows the section in which I recount the loss of my mother and the realization that the Abrahamic version of God has been messing with us for a couple thousand years is part dialogue with that big guy picture Groucho Marx as interlocutor Hi God of Christianity Sarah here I can appreciate your dilemma I really can But the next time one of your angels gets out of hand please try to take care of the problem instead of making it one of ours part personal history and part reasoned deconstruction But the conclusion I reach about religion does not amount to an advocacy of atheism Although the monotheistic God is discounted as a manmade thing one used to control us I also argue against the godless scientism of Richard Dawkins The God Delusion Sam Harris Letter to a Christian Nation and Christopher Hitchens God is Not Great In fact I argue against this limited perception of human being as a random function of extraneous forces in favor of a more profound participation of humans in reality leading to a profound spiritual

transformation on the part of individuals and eventually all of humanity I also argue for a kind of pandemic version of the dramatic wake up effect Eckart Tolle's concept from *A New Earth* I experienced when my mother died The human race indeed the very planet is going through extraordinary changes all cause for great alarm among the monotheists as the beginning of the end I insist in *Is This the Best God Could Do* that on the contrary our situation is karmically inevitable and the dire straits in which we find ourselves an invitation to spiritual growth and thereby a renewal of civilization I also call for those born to relative wealth the American populace in general but also most of the Western world to accept responsibility for charting the way forward because it is easier to evolve beyond the traditional notions of religion when one's belly is full and one is warm and dry But *Is This the Best God Could Do* is not just a polemic about the medieval grip of fundamentalism that holds humans back from the self awareness necessary to find a way forward through the difficulties of history to an enlightened way of life the book also charts the path I offer guidance to the reader for achieving the kind of awareness that allows them to hear God's voice and to participate in the world as an active agent instead of being just a passive believer to understand the magnitude of our spiritual reality Although my book is utterly unique in its mixture of elements the strident debunking of monotheism the hopeful recognition of the bigness of humans as spiritual beings to stand in opposition to the smallness of fear and guilt a hope filled recipe for saving us from ourselves and memoir
