Television Fraud:

Television Fraud J. Kent Anderson, 1979-01-05 Anderson provides an unprecedented probe into the inner workings of the quiz shows He details their honest beginnings and explains how the practice of supplying answers grew out of a desire to keep popular contestants on the air as long as possible to boost ratings

Fifties Television William Boddy, 1993 Just a few years in the mid 1950s separated the golden age of television s live anthology drama from Newton Minow s famous vast wasteland pronouncement Fifties Television shows how the significant programming changes of the period cannot be attributed simply to shifting public tastes or the exhaustion of particular program genres but underscore fundamental changes in the way prime time entertainment programs were produced sponsored and scheduled These changes helped shape television as we know it today William Boddy provides a wide ranging and rigorous analysis of the fledgling American television industry during the period of its greatest economic growth programming changes and critical controversy He carefully traces the development of the medium from the experimental era of the 1920s and 1930s through the regulatory battles of the 1940s and the network programming wars of the 1950s

Fraud Edward J. Balleisen, 2017-01-09 A comprehensive history of fraud in America from the early nineteenth century to the subprime mortgage crisis The United States has always proved an inviting home for boosters sharp dealers and outright swindlers Worship of entrepreneurial freedom has complicated the task of distinguishing aggressive salesmanship from unacceptable deceit especially on the frontiers of innovation At the same time competitive pressures have often nudged respectable firms to embrace deception As a result fraud has been a key feature of American business since its beginnings In this sweeping narrative Edward Balleisen traces the history of fraud in America and the evolving efforts to combat it from the age of P T Barnum through the eras of Charles Ponzi and Bernie Madoff Starting with an early nineteenth century American legal world of buyer beware this unprecedented account describes the slow piecemeal construction of modern regulatory institutions to protect consumers and investors from the Gilded Age through the New Deal and the Great Society It concludes with the more recent era of deregulation which has brought with it a spate of costly frauds including the savings and loan crisis corporate accounting scandals and the recent mortgage marketing debacle By tracing how Americans have struggled to foster a vibrant economy without enabling a corrosive level of fraud this book reminds us that American capitalism rests on an uneasy foundation of social trust

Television Histories Gary Richard Edgerton, Peter C. Rollins, 2001-01-01 From Ken Burns s documentaries to historical dramas such as *Roots* from A E s Biography series to CNN television has become the primary source for historical information for tens of millions of Americans today Why has television become such a respected authority What falsehoods enter our collective memory as truths How is one to know what is real and what is imagined or ignored by producers directors or writers Gary Edgerton and Peter Rollins have collected a group of essays that answer these and many other questions The contributors examine the full spectrum of historical genres but also institutions such as the History Channel

and production histories of such series as The Jack Benny Show which ran for fifteen years The authors explore the tensions between popular history and professional history and the tendency of some academics to declare the past off limits to nonscholars Several of them point to the tendency for television histories to embed current concerns and priorities within the past as in such popular shows as Quantum Leap and Dr Quinn Medicine Woman The result is an insightful portrayal of the power television possesses to influence our culture

Fennelly, 2012-01-27 This volume brings together the expertise of more than 40 security and crime prevention experts It provides comprehensive coverage of the latest information on every topic from community oriented policing to physical security workplace violence CCTV and information security

Frauds Against the Elderly United States. Congress. House. Select Committee on Aging, 1981

How Real Is Reality TV? David S. Escoffery, 2014-12-03 American viewers are attracted to what they see as the non scripted unpredictable freshness of reality television But although the episodes may not be scripted the shows are constructed within a deliberately designed framework reflecting societal values The political economic and personal issues of reality TV are in many ways simply an exaggerated version of everyday life allowing us to identify perhaps more closely than we care to admit with the characters onscreen With 16 essays from scholars around the world this volume discusses the notion of representation in reality television It explores how both audiences and producers negotiate the gulf between representations and truth in reality shows such as Survivor The Apprentice Big Brother The Nanny American Idol Extreme Makeover Joe Millionaire and The Amazing Race Various identity categories and character types found in these shows are discussed and the accuracy of their television portrayal examined Dealing with the concept of reality audience reception gender roles minority portrayal and power issues the book provides an in depth look at what we see or think we see in reality TV

TV by Design Lynn Spigel, 2008 From the Publisher While critics have long disparaged commercial television as a vast wasteland TV has surprising links to the urbane world of modern art that stretch back to the 1950s and 60s during that era the rapid rise of commercial television coincided with dynamic new movements in the visual arts a potent combination that precipitated a major shift in the way Americans experienced the world visually TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium Lynn Spigel shows how TV was instrumental in introducing the public to the latest trends in art and design Abstract expressionism pop art art cinema modern architecture and cutting edge graphic design were all mined for staging techniques scenic designs and an ever growing number of commercials As a result TV helped fuel the public craze for trendy modern products such as tailfin cars and boomerang coffee tables that was vital to the burgeoning postwar economy And along with influencing the look of television many artists including Eero Saarinen Ben Shahn Saul Bass William Golden and Richard

Avedon also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks Dizzy Gillespie Ernie Kovacs Duke Ellington and Andy Warhol all stop by in this imaginative and winning account of the ways in which art television and commerce merged in the first decades of the TV age

United States Attorneys' Manual United States. Department of Justice, 1988 *Genre and Television* Jason Mittell, 2004-08-02 *Genre and Television* proposes a new understanding of television genres as cultural categories offering a set of in depth historical and critical examinations to explore five key aspects of television genre history industry audience text and genre mixing Drawing on well known television programs from Dragnet to The Simpsons this book provides a new model of genre historiography and illustrates how genres are at work within nearly every facet of television from policy decisions to production techniques to audience practices Ultimately the book argues that through analyzing how television genre operates as a cultural practice we can better comprehend how television actively shapes our social world
