Telewars In The States Telecommunications Issues In A New Era Of Competition:

International Economic Law in the Era of Datafication Shin-yi Peng, 2024-03-27 This book addresses the challenges of datafication through the lens of international economic law We are undergoing a wave of datafication practices If such practices simply continue to evolve without being examined and repaired along the existing path of development the same issues will continue to accumulate and will more than likely be amplified The unprecedented economic and social influence of big tech has served as the catalyst for the concept of digital sovereignty which is rooted in the need to safeguard regulatory autonomy in a datafied world The current wave of data driven innovations has placed the policy debates on digital trade and data governance into an even more challenging context The book whose chapters are connected by the many facets of data systematically explains how international economic law can reduce the perils of datafication instead of enhancing them This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Competing in the New Economy Thomas W. Bonnett, 2000-10-13 *Emerging Issues in Urban Development*, 1998 **The Froehlich/Kent Encyclopedia of Telecommunications** Fritz E. Froehlich, Allen Kent, 1997-09-23 Radio Astronomy to Submarine Cable Systems *Regional Development and Conditions for Innovation in the Network Society* M. S. van Geenhuizen, David V. Gibson, Manuel V. Heitor, 2005 Building on the idea of inclusive learning which entails a process of shared prosperity across the globe this work looks at fundamental changes at the start of the new millennium as innovation is gaining increasing importance for local economic prosperity and the emergence of learning societies

Telewars in the States Thomas W. Bonnett, 1996-12-01 While many telecommunication books focus on national issues and the FCC few address the state's role in regulating the telecommunication industry Telecommunication policy has often been an insider's game conducted by regulators and the industry As such competition undermines the traditional regime of regulated monopolies while new technologies reshape the industry and provide more choices for consumers This book provides essential information about state telecommunications issues to Governors policy advisors It also serves a valuable public function beyond its intended audience as a popular introduction to telecommunications policy in these turbulent times

The Internet, Democracy and Democratization Peter Ferdinand, 2013-02-01 The Internet is transforming relations between states and citizens This study gives examples of how it is creating new political communities at various levels both in democracies and authoritarian regimes It is also used by marginalized anti democratic groups such as neo Nazis

Devolution and Aging Policy Francis G. Caro, 2002 Explore significant but often overlooked aspects of aging policy This unique addition to the literature on aging policy will help you understand devolution the decentralizing of service provision and the roles that state local government and private organizations now play in addressing the needs of our aging population It will show you how to initiate innovations and make positive changes in aging policy through state and local initiatives collaborations between the federal government and other government agencies public private collaboration and strictly

private initiatives From the editors Around the world the ground rules are being questioned about the role of national governments in addressing domestic needs During the twentieth century in countries throughout the world central governments assumed major responsibilities for a wide variety of human needs Whether the concern was income security health housing or education interventions were premised upon convictions that a strong public sector role was essential and that major involvement of national governments was needed More recently a significant pattern devolution has emerged in many countries wherein these responsibilities have shifted away from national governments to regional and local governments as well as from the public to the private sector Thoughtfully divided into five sections that illustrate distinctly different forms of devolution this book first provides an essential overview of devolution and then examines its implications for vital aspects of service provision to the elderly In the United States in recent years the single greatest focus for devolution has been the transformation of income security protections for poor families The federal Aid to Families With Dependent Children program has been replaced by the Temporary Assistance to Needy Families program Devolution and Aging Policy examines that change and other important facets of the current climate of devolution including Medicaid financed long term care state sponsorship of services in retirement communities the implications of the Workforce Investment Act for the access of older workers to training at a state level to upgrade their work skills public private sector collaboration in long term care insurance long term care ombudsman programs what state governments can do to help elders make use of information technology property tax credits for seniors that are given in exchange for volunteering on the municipal level how an HMO can encourage and stimulate service coordination and more *The American Midwest* Norman Walzer, 2016-07-08 The rural Midwest is undergoing fundamental changes with increased competition from foreign agriculture employment shifts from higher paying manufacturing to lower paying service industries the displacement of local small town business by large discount stores and shopping malls overall population declines that threaten the viability of schools hospitals and other public institutions along with an influx of minority groups that has led to strife in some communities Using data from the 2000 Census this collection examines the major demographic and employment trends in the rural Midwestern states with special attention to the issues that state and local policy makers must address in the near future The contributors are well known experts in their fields and in these original previously unpublished materials they offer suggestions on how the Internet and other technological advances offer new opportunities for rural economies that local leaders can build on **Cityscape** ,1998
